QS2 Car Speakerphone
RF-QS2

Congratulations on your purchase of the RF-QS2 Bluetooth carkit. This carkit enables comfortable, hands-free communication with a Bluetooth-compatible phone.

Package contents
- RF-QS2 carkit
- USB charging cable
- Car charger adapter
- *Quick Setup Guide*

Features

Indicator
Volume down
Power/Send/End button
Microphone
Charger connector
Volume up
Visor clip

Charging the battery
Before using your carkit, you must charge it for about two hours. When the battery is fully charged, it provides up to 11 hours of talk time and up to 1,400 hours of standby time.

1 USB charging: use the USB cable to plug your QS2 speakerphone into a computer or other USB power port.
2 Car charging: use the car charger adapter and USB charging cable to charge your QS2 speakerphone in your car.

Turning the carkit on
Press and hold the **Power/Send/End** for about 2 seconds. RF-QS2 beeps and the yellow-green indicator light starts blinking. (First time use requires pressing it for 4 seconds.)

Turning the carkit off
Press and hold the **Power/Send/End** for about 4 seconds, RF-QS2 beeps and the red indicator light is displayed briefly.

Pairing the carkit
1 Make sure that the compatible phone is turned on and within 33 ft. (10 m) of the carkit.
2 Turn on the QS2 and make sure it's fully charged. Press and hold the **Power/Send/End** button for about four seconds. The yellow-green indicator flashes rapidly. Release the button. The carkit is now in pairing mode.
3 Activate the Bluetooth connection from the phone. See your phone's documentation for more information.
4 Set the phone to start searching for Bluetooth devices.
5 Select **RF-QS2** from the list.
6 Enter the PIN **0000** to connect (or "pair") the carkit to the phone. The carkit beeps once, and the indicator blinks yellow-green to indicate the Bluetooth connection is active.

Voice dialing
When no call is in progress, quickly press and release **Power/Send/End**. When you hear a tone, speak the number or voice tag for the number you want to call. (The phone must have a voice dial feature and have recorded voice tags.)

Making a call

To...	Do this...
Make a call	Press **Power/Send/End**.
Redial	Double-press **Power/Send/End**.
Answer a call	Press **Power/Send/End**.
End a call	Press **Power/Send/End**.
Refuse a call	Double-press **Power/Send/End**.
Change the speaker volume	Press the volume up button (+) to increase volume or press the volume down (-) button to decrease.
Mute or unmute a call	Press and hold the Volume down (-) button until a tone is heard.
Switch a call between the phone and the carkit	Press and hold **Power/Send/End** for two seconds.

Turning the indicator on or off
- Press the power and volume up buttons at the same time for about four seconds. The indicator turns on. Press the power and volume down buttons at the same time for about four seconds. The indicator turns off. You can enable or disable the indicator when the carkit is connected with your phone.

Disconnecting the carkit from the phone
To disconnect the carkit from the phone, do one of the following:
- Turn off the carkit.
- Disconnect the RF-QS2 in the phone's menu.
- Move the carkit more than 33 ft. (10 m) away from the phone.

Note: You do not need to delete the pairing to disconnect the carkit. When you reconnect a paired carkit, you will not be asked for its PIN again.

If you want to pair your car kit with new phones, you don't need to erase all paired device information. There can be up to 8 different paired devices information stored.

To erase paired devices from your car kit:
- When the carkit turned off, press and hold the **Power/Send/End** and volume up (+) buttons simultaneously for more than six seconds. A tone plays, and the indicator flashes red and yellow-green. The carkit then enters the pairing state automatically.

Resetting the car kit

- If the carkit doesn't respond, press and hold the power button, then insert the charger into the QS2, then insert the other end into a wall outlet. Then, the carkit will turn off and reset immediately after the charger is connected.

To connect the carkit with two phones at the same time:

Option 1:
1. Turn the carkit on and put it into pairing mode.
2. Make a connection with the first phone.
3. Turn the carkit off, then back on again and put it into pairing mode..
4. Make a connection with the second phone.
5. Turn the carkit off, then back on. The carkit will be connected to both phones automatically.

Option 2:
1. Turn the carkit on and put it into pairing mode.
2. Make a connection with the first phone.
3. Turn the carkit off, then back on again and put it into pairing mode..
4. Make a connection with the second phone.
5. Initiate a connection from the first phone. The carkit will be connected to both phones.

Option 3:
1. Turn the carkit on and put it into pairing mode.
2. Try to find the carkit with both phones at the same time.
3. Initiate a connection with the first phone, then initiate a connection with the second phone. Both phones will be connected to the carkit.

To...	Do this...
End the active call on the first phone and answer an incoming call on the second phone.	Short press **Power/Send/End**
Put the active call on the first phone on hold and answer an incoming call on the second phone.	Long press **Power/Send/End** until a tone is heard
Reject the waiting call on the second phone and return to the active call on the first phone.	Double-press **Power/Send/End**
Release active call , and unhold held call	Short press **Power/Send/End**
Hold active call, and unhold held call	Long press **Power/Send/End** until a tone is heard
