STA-RITE® HS SERIES

Stainless Steel
4" Submersible

STA-RITE® HS SERIES

Stainless Steel 4" Submersible

Precision-engineered, high quality, rugged **SIGNATURE 2000®** stainless steel series pumps deliver efficient, dependable performance even in rough, aggressive water. Built to deliver long-term, trouble-free service.

Performance Ranges

5, 7, 10, 15, 20, 30, and 50 GPM

Horsepower Ranges

1/2 to 10HP

Discharge

Corrosion-resistant 300 grade stainless steel for durability in aggressive water

Proven Staging System

Proven SignaSeal™ Staging System incorporates a harder-than-sand ceramic wear surface that when incorporated with our floating impeller design, greatly reduces problems with abrasives, sand lock-up and running dry.

Superior PENTEK® 4" Motor

2 & 3-Wire NEMA Standard all stainless water-filled motor

FEATURES BENEFITS

Premium quality
internal check valve

Cast stainless steel
intake and discharge

Enclosed Nylatron®
bearing

Unique floating
impeller design

Ceramic wear
surface

Rugged acetal
impeller

Heavy-wall
stainless steel shell

Stainless steel
suction screen

Spring-loaded design assures a longer
lasting, positive seal to minimize water loss

The #1 choice for proven corrosion
resistance and durability

Resists abrasion, self-lubricating
for long dry-run capability

Protects motor and internal mechanism
from thrust and stress to help assure
quiet, long-lasting performance

Smooths sand and grit
to defeat abrasion damage

Resists abrasion, self-lubricating
for long dry-run capability

Heavy wall thickness
for unbeatable durability

Durability in aggressive water
