

Elevator Sump Pump Kits

OIL SMART - Staying dry and protecting the environment

The Oil Smart Switch with panel, when combined with a pump, allows water to be pumped from Elevator sumps, leachate wells and transformer vaults without danger of pumping oil into sewers and waterways.

FEATURES

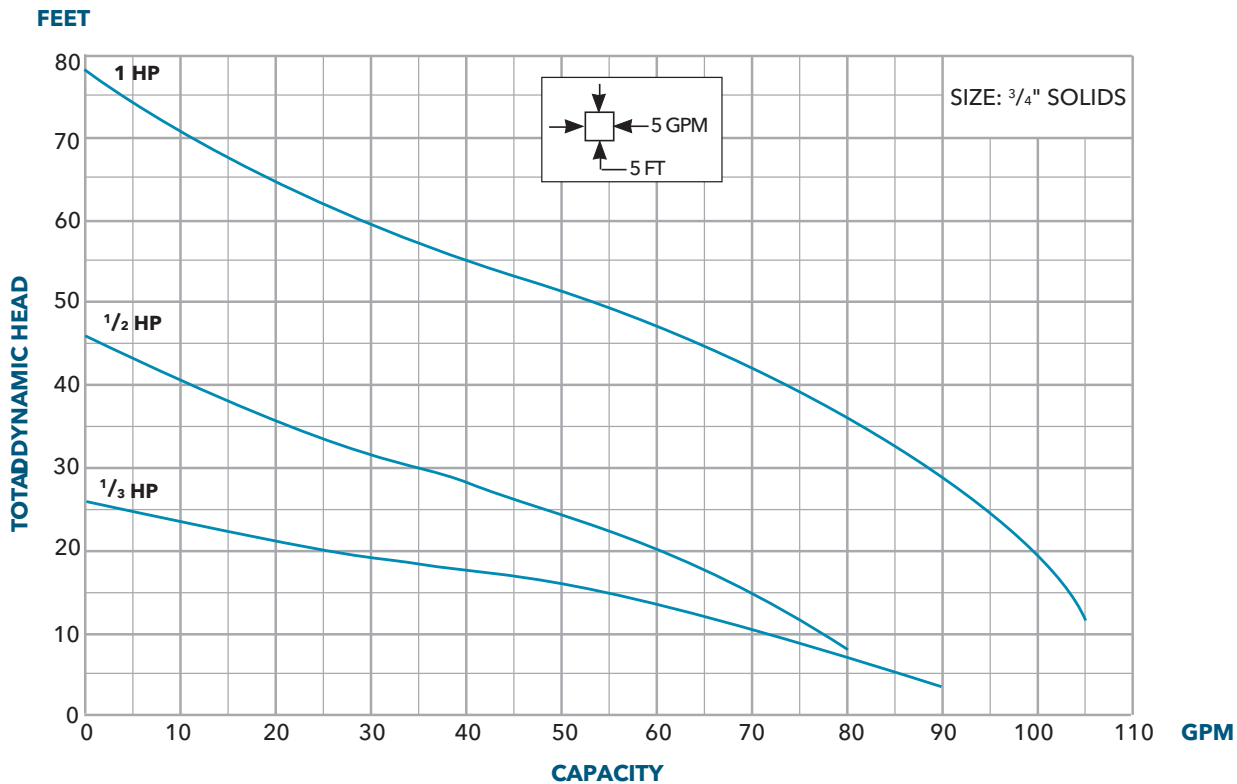

- Protects environment from hazardous waste
- The solid state device senses between oil and water
- Panel and switch kitted with effluent single phase pumps.
- Only operates pump if water is sensed by probes. Does not operate if oil is sensed by probes.

FEATURES FOR PUMP

- Effluent, 1/3, 1/2, 1 HP, single phase pump
- Hard faced seal
- Cast iron construction
