PS PATROL® SYSTEM

Outdoor Pedestal High Water Alarm System

Function

The newly enhanced PS Patrol® system features all the same functions you have come to expect, plus so much more over other traditional pedestal-style alarms.

The PS Patrol® features a **built-in high water alarm** and provides a convenient location to connect all wiring required for a pumping station application. It employs a **receptacle** to accept a 120V pump and piggy-back pump switch.

The sleek, angled design of the clear enclosure includes a **removable cover** for easy access for field wiring. All internal components are sealed within the cover for protection from the elements. The **red LEDs illuminate the top of the cover** in an alarm condition for easy 360° visual identification. Available with or without 32" mounting post.

Features

- Enclosure meets Type 3R water-tight standards

- Unique design allows alarm to accept a 5" square plastic post or 4" pipe/conduit for mounting

- Automatic alarm reset and green power on indicator

- Flush mount horn silence/alarm test switch

- Receptacle for easy connection of pump and piggy-back pump switch

- Auxiliary alarm contacts included for easy attachment of remote devices

- Includes cord seal for sealing switch and pump cables

- Electrical potting cavity to provide easy, reliable method to seal power cables *(electrical duct seal not included)*

- Options include various switch cord lengths, riser assembly adapter, dual alarm, and elapsed time meter

Part No.	Description	List Price
1022728	PSP2 120V, no pump switch, with post	$276.00
1019021	PSP2 120V, no pump switch, 20A breaker, with post	$338.00
1022575	PSP2 120V, ETM, with post	$351.00
1022577	PSP2 120V, DUO alarm, ETM, with post	$486.00
1018434	PSP2, 120V, TAAB indoor alarm, with post	$251.00
1011551	Assembly Kit (riser extension coupling and washers)	$62.50
