

Wilco ECO RFC

High Efficiency Circulators

Wilco ECO RFC

Accessories	Page
Flanges	55
Isolation Valves	57

Model Designation:
Stratos ECO 16 RFC

16 = Max Head
RF= Rotating Flange
C = Check Valve

Features and Benefits

- Patent-pending 360° flange rotates to 12/6 or 3/9 o'clock positions
- Installable hi-temp check valve included
- ECM technology for energy savings up to 80%
- Max. wattage 59, min. wattage 5.8 (115v)
- Automatically adjusts to system demands
- Flows to 14 USGPM, heads to 16 feet
- No more over-pumped, noisy zones
- Highest starting torque in the industry!

Application

- HVAC Applications
- Residential Heating
- Water/glycol concentrations up to 50%
- Geothermal Systems
- Solar Systems

Technical Data

- Fluid Temp Range: 60°F to 230°F (15°C to 115 °C)
- Ambient Temp Range: 14°F to 104°F (-10°C to 40 °C)
- Electrical Connection: 1~115v
- Max Working Pressure: 145 PSI
- Min. Suction Pressure (122°F): 1.0 PSI
- Min. Suction Pressure (203°F): 4.3 PSI
- Min. Suction Pressure (230°F): 14.0 PSI
