FCC STATEMENT

1. This device complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and

(2) This device must accept any interference received, including interference that may cause undesired operation.

2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Please notice that if the FCC identification number is not visible when the module is installed inside another device, then the outside of the device into which the module is installed must also display a label referring to the enclosed module. This exterior label can use wording such as the following: "Contains FCC ID: 2ALD3-MKQTWIFI08" any similar wording that expresses the same meaning may be used.
The module is limited to OEM installation ONLY.
The OEM integrator is responsible for ensuring that the end-user has no manual instruction to remove or install module.

The module is limited to installation in mobile application;
A separate approval is required for all other operating configurations, including portable configurations with respect to Part 2.1093 and difference antenna configurations.
There is requirement that the grantee provide guidance to the host manufacturer for compliance with Part 15B requirements.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. In order to avoid the possibility of exceeding the FCC radio frequency exposure limits, Human proximity to the antenna shall not be less than 20cm (8 inches) during normal operation.

Common problems and solutions

My app failed to download and install.	Phone must be compatible, iOS ver. 8+. Android ver. 4.0+. Check network connection.
What is the requirements of wireless router and the location of the air conditioning?	Wireless router has a 2.4 GHz radio. Range is less than 10 meters.
I get a failure when adding air conditioner.	1. Check voltage supply to the unit. 2. Is the air conditioner set to - Cooling, Low fan speed and temperature set to 86°F/30°C? 3.Wi-Fi password need to be 2-31 characters.

Wi-Fi Module

◀ Packing list

Please check you have all of the following items when you receive the WiFi box,

WiFi module ----------------- X1
WiFi module Instruction ----- X1
WiFi module

◀ Insert USB WiFi module into port

Note: Turn the air conditioner off, and disconnect power cord before installing.

◀ The application environment

A smart phone and wireless router with internet connection is required.

Smart phone version requirements:

 iOS system
Version 8.0 or higher.

 Android system
Version 4.0 or higher.

◀ Configuration method

Download the app from Google Play (Android) or The App Store (iOS), search for "Air Quality - GE Appliances".
Or scan the QR code below to download the app.

Scan QR code,Download APP

After downloading the App;
1. Open the app
2. Select Add device
3. Select Sign up (skip if an account has already been created)
4. Login and follow steps to connect to unit.

◀ Attention

1. Have wireless router information on hand including password to make connecting to WiFi module easier.

2. If the WiFi module is damaged, claims are handled by a local authorized service company.

3. Please keep the WiFi module away from children.

◀ Maintenance

1. The WiFi module is covered by a 1 year accessory warranty. The air conditioner unit is covered by standard warranties (see owners manual).

2. Do not disassemble the WiFi module. This will void warranty.

3. Dropping the WiFi module can also void warranty.
