

# MIJIA LED Desk Lamp – User Guide

## Basic Parameters

Product model: MJTD01YL

Operating temperature: -10 to +40°C

Working humidity: 0% - 85%RH

Desk lamp power input: 12V  $\equiv$  0.5A  $\ominus$   $\oplus$

Rated Input: 100-240V - 50/60Hz 0.2A

Rated power: 6W (42 lights  $\times$  0.15W/LED module)

Color temperature range: 2,700 - 6,500K

Luminous flux: 300 lm

Life expectancy: Approx. 25,000 hours

Power factor: 0.4

Supported platforms: Android & iOS

Wireless connections: IEEE 802.11 b/g/n 2.4GHz

## Product features

Eye protection

Brightness control

Temperature adjustment

Focus mode

Scene transformation

Timer switch

Delayed switch-off

Mobile control

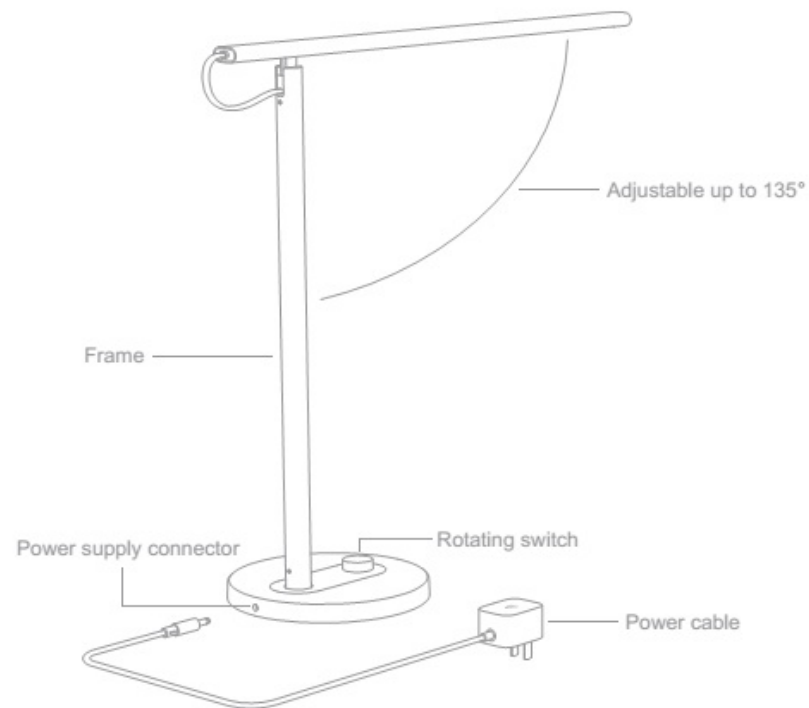

Firmware upgrade

## Installation Steps

### 01

#### Installation

1. Remove the desk lamp and insert the power cord into the power supply connector on the base of the lamp.
2. Press the rotating switch to turn on the lamp.

### Please read this guide carefully before using the product

Manufacturer: Qingdao Yeelink Information Technology Co., Ltd.

Address: F10-B4, Bldg B, International Innovation Park, #1 Keyuanwei Rd, Laoshan District, Qingdao City

Customer Service Number: 400-619-7969

<http://www.yeelink.com>

## 02 Usage

Press the rotating switch to turn the lamp on and off

Turn the rotating switch to adjust the brightness

Press and turn the rotating switch to adjust the color temperature

## 03 Intelligent Control

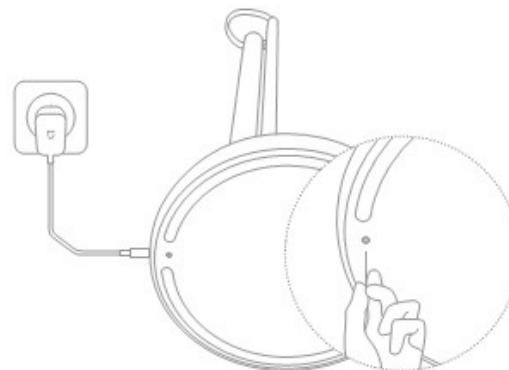

1. Scan the QR code below or download the Mi Smart Home mobile client from an app store;
2. Ensure the desk lamp is turned on and open the app. Follow the instructions provided in the app to operate the desk lamp.

\* Make sure that your Wi-Fi connection is working and you can connect to the Internet.

### Factory Reset

The reset button is located on the base of the desk lamp. After connecting the power supply, use a small thin object to press and hold the reset button for five seconds. After the desk lamp turns on, you can release the reset button. When the desk lamp turns off five seconds after having turned on, it has then been reset to its factory settings.

\* When the desk lamp is used on a new network, it must first be reset to its factory settings and then set up again on the new network.

Warning

- 1. Before using this product, please make sure that your voltage is appropriate for this product's working voltage. Using this product with a voltage other than the one specified may damage the product and cause safety hazards.
- 2. For indoor use only.
- 3. Regularly check the cord, the power supply and all other parts for damage. If any part is damaged, the product should not be used.
- 4. The external flexible cable or cord of this luminaire cannot be replaced. If the cord is damaged,the luminaire shall be destroyed.
- 5. Do not use where directly exposed to water.
- 6. The light source of this product is nonchangable light diodes (LED).
- 7. Do not disassemble the product, as the light diodes can cause damage to the eyes.

List of Functional Faults

Name	Functional Faults
Desk Lamp	No lights come on
	Cannot find desk lamp
	Rotating switch failure
	Reset button failure
Adapter	Cannot supply power to the desk lamp

FCC Compliance Statement

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- (1) Reorient or relocate the receiving antenna.
- (2) Increase the separation between the equipment and receiver.
- (3) Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- (4) Consult the dealer or an experienced radio/TV technician for help.

To satisfy FCC RF Exposure requirements for this transmission devices, a separation distance of 20cm or more should be maintained between the antenna of this device and persons during operation. To ensure compliance, operation at closer than this distance is not recommended. The antenna(s) used for this transmitter must not be co-located or operating in conjunction with any other antenna or transmitter. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
