

## qingping Temp & RH Monitor Lite

Green Ping Bluetooth hygrometer Lite can detect the ambient temperature and humidity, display the reading on the screen, and transmit it to the mobile phone or gateway through Bluetooth; with wall stickers and desktop brackets.

### Specification

Model:CGDK2

Weight:43 g (Excluding wall stickers and desktop supports)

Size:60.5\*60.5\*13.5mm (Excluding wall stickers and desktop supports)

Screen size:Φ50mm(visible area)

Temperature range:-9.9~50° C

Humidity range:0~99.9%

Wireless Connectivity: Bluetooth 5.0

Battery Type:CR2430 button cell

CMIIT ID:XXXXXXXXXX

Manufacturer: Qingping Technology (Beijing) Co., Ltd.

Address: Room 401, Block B, Fangheng Times Square, No.10

Wangjing Street, Chaoyang District, Beijing 100102, China

### Installation:

1. Open the battery cover on the back of the main body, put a cr2430 battery in the direction indicated, and replace the battery cover;
2. Paste the wall sticker on the plane in the space where you want to test the ambient temperature and humidity, such as the wall, and then attach the main body to the wall sticker; or attach the desktop bracket to the back of the main body, and then place the product on the desktop.

After installation, you can receive the temperature and humidity readings through the specified mobile app. If you want to receive notifications remotely, view historical data, and set up linkage with other devices, you need to be equipped with a matching gateway.

## **FCC Warning**

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment complies with FCC RF exposure limits set forth for an uncontrolled environment.
