17 Federal Communication Commission Interference Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

Reorient or relocate the receiving antenna.
Increase the separation between the equipment and receiver.
Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
Consult the dealer or an experienced radio/TV technician for help.

FCC Caution:
Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.
This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

Warranty

EQL warrants that the product will be free from defects in materials and workmanship under normal use for a period of 24 months after its original purchase date. If the product proves defective during this warranty period, EQL, at its option, will either repair the defective product or will provide a replacement in exchange for the defective product.

A service fee may be charged in the following situations:

- Improper handling of the product without referencing the product manual.
- Damages due to human error, humidity, or self-disassembly/assembly.
- Damages due to unforeseen disasters and circumstances, such as fires, floods, typhoons, and earthquakes, etc.
- Damage to software, consumables, and natural wear-and-tear.
- If the product is not purchased from EQL authorized channels
