

CONGRATULATIONS!

You are now the proud owner of a ROCCAT® Skeltr! The Skeltr smart communication RGB gaming keyboard significantly expands your command power by putting your smartphone or tablet right at the heart of your gameplay experience. No longer does your phone lie on your desk unused while you're busy gaming, the Skeltr seamlessly integrates its wealth of powerful features into your computer usage, leaving you wondering how you gamed without it.

QUICK-INSTALLATION GUIDE IMPORTANT DOCUMENT

MANAGE AUDIO AND CALLS

Use the included audio cable to plug your smartphone into the Skeltr, then hook up your favorite headset, and you're good to go. Take calls through your headset and toggle PC/device audio rapidly.

TYPE TO DEVICE VIA BLUETOOTH

Tired of picking up your phone to respond to a WhatsApp message while you're gaming? Connect your phone to the Skeltr via Bluetooth and respond to messages with your keyboard - no stress.

ROCCAT® SWARM

Swarm is the software incarnation of ROCCAT's future ready philosophy. It'll cover you for all relevant gaming platforms and devices. It's the next-gen system that keeps on top all games, apps and ROCCAT products in one place.

MASTER WORLDS.

- Membrane keys (anti-ghosting optimized)

Federal Communication Commission Interference statement
 This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: -Reorient or relocate the receiving antenna. -Increase the separation between the equipment and receiver. -Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. -Consult the dealer or an experienced radio/TV technician for help.

You are cautioned that changes or modifications not expressly approved by the party responsible for compliance could void your authority to operate the equipment.
