

### Portable Digital Wireless Stereo Headphones

Please read this user's guide before using your new headphones.

### User's Guide

### Package contents

- Headphones
  - Transmitter
- AC Adapter Charging Hub Carrying Pouch
  - User's Guide
- Quick Start

### **Features**

- Up to 30-foot (9.14m) wireless range (based on line-ofsight operation)
- Padded earcups and adjustable headband for comfort
- Charging hub charges the transmitter's built-in battery, as well as the headphones if rechargeable batteries (not included) are used

## (1) Install batteries

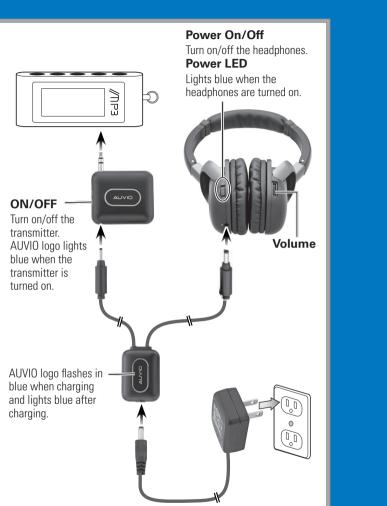

2. Insert two AAA alkaline or NiMH rechargeable batteries (neither included), matching the polarity symbols (+ and -) marked

3. Use a small tool to switch ALK/RCH to **ALK** for alkaline or **RCH** for rechargeable batteries.

4. Replace the cover.

/!\ Warning: Never install alkaline batteries with the **ALK/RCH** switch set to **RCH**. Alkaline batteries can get hot or explode if you try to recharge them.

### Battery Notes:

- Dispose of old batteries promptly and properly. Do not burn or bury them.
- Use only fresh batteries of the required size and recommended type. Do not mix old and new batteries of different sizes or types.
- If you do not plan to use the headphones for an extended time, remove the batteries. Batteries can leak chemicals that can damage electronic parts.
- When the power LED on the headphones turns off, replace vour alkaline batteries or charge the rechargeable batteries.
- When using NiMH rechargeable batteries, capacity of 750mAh or above is recommended.

- Connect the AC adapter plug into your charging hub's DC 5.0V jack.
- Connect the charging hub's larger plug to your headphones' — iack. Make sure rechargeable batteries are installed and ALK/RCH is set to RCH.
- 3. Connect the charging hub's smaller plug to your transmitter's - jack.
- Connect the AC adapter to a standard power outlet. **AUVIO** logo on the charging hub flashes blue when charging and lights blue after charging.

- Charge the built-in battery for at least 2 hours before the first
- Music does not play while charging.
- Charge your transmitter when the AUVIO logo does not light.

Recycle your old rechargeable batteries at one of the many collection sites in the U.S. and Canada. To find the site nearest ou, visit <u>www.call2recycle.org</u> or call toll-free 1-877-2-RECYCLE.

# 3 Use your headphones

- **1.** Connect the transmitter to the 3.5mm headphones iack on your audio device.
- 2. Turn on the transmitter. AUVIO logo lights blue.
- 3. Turn on the headphones. The power LED lights blue.
- **4.** Set the headphone volume to minimum.
- **5.** Turn on the audio source, and gradually increase the volume to a comfortable level.

- Remove objects between the transmitter and headphones.
- To preserve battery life, be sure to turn off the headphones and transmitter when you are not using them.

### Handling and Disposal:

- Do not burn or bury batteries. Do not puncture or crush. Do not disassemble
- Recycle lithium batteries. Do not dispose of in the trash.
- Never allow loose cells to short circuit against battery tabs or other conductive items. Keep loose cells and battery packs out of reach of children.
- If the electrolyte in the cells should get on your skin, thoroughly wash with soap and water. If in the eyes, rinse thoroughly with cool water. Immediately seek medical

- Use only the supplied charging hub for the transmitter built-in lithium battery charging. Be sure the charging hub is powered by the provided AC adapter.
- Charge batteries on a fireproof surface away from flammable items or liquids
- Do not charge inside an automobile, especially while driving.

Follow the manufacturer's instructions for charging the product and do not charge longer than recommended. Unplug the charger when the battery is charged.

### Listening Safely

- Set the headphone volume to the lowest setting before listening. After you begin listening, adjust the volume to a comfortable level.
- Do not listen at extremely high volume levels. Extended highvolume listening can lead to permanent hearing loss.
- If you connect the transmitter to an audio source headphone iack, set the audio source's volume to the middle position. Then adjust **VOLUME** on the headphones to the desired level.
- Turn off the headphones before turning off the transmitter. This prevents you hearing a loud click that may be generated when you turn off the transmitter.

### Specifications Operating Frequency

crating requertey

### FCC Information

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no quarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

2.4GHz
