### USER GUIDE

Thank you for purchasing a RadioShack Low-Cost 3-in-1 Remote. Your remote lets you control up to three different electronic devices with one easy-to-use, compact unit.

After installing batteries, your remote lets you control up to three different electronic devices with one easy-to-use, compact unit.

To install batteries, follow the steps on page 2.

For best results, please read and perform all the programming instructions. Also, keep this guide for future reference.

### INSTALLING BATTERIES

Your RadioShack Low-Cost 3-in-1 Remote requires two AA batteries (not supplied).

### Battery Use And Safety

\* Use only fresh batteries of the required size and recommended type.

\* Do not mix old and new batteries, different types of batteries (that is, standard, alkaline, or rechargeable) or batteries of different capacities.

\* If you do not plan to use the remote for extended periods of time, remove the batteries.

\* They can leak chemicals that can destroy electronic parts.

\* Never dispose of batteries by burning them.

**To Install Batteries:**

1. Open the battery compartment cover located on the back of the remote.

2. Place the AA batteries in the compartment and match the + and - polarity symbols inside.

**NOTE:** When the RadioShack Low-Cost 3-in-1 Remote stops operating properly, replace the batteries within 10 minutes to protect the programming information.

After installing batteries, follow the steps on page 2.

If you do not see the remote channel or program information, turn the remote channel or program information.

After installing batteries, turn the remote channel or program information.

View the current channel and program information.

### INTRODUCTION

The RadioShack Low-Cost 3-in-1 Remote lets you control up to three different electronic devices with one easy-to-use, compact unit.

After installing batteries (see next section), you can immediately begin using the RadioShack Low-Cost 3-in-1 Remote to control an RCA VCR, VCR/DVD, Satellite receiver, or other brand's VCR, VCR/DVD, or satellite receiver. To control other brands, perform the instructions following the steps on page 2. For best results, please read and perform all the programming instructions. Also, keep this guide for future reference.

### PROGRAMMING A DEVICE

The RadioShack Low-Cost 3-in-1 Remote comes pre-programmed to operate an RCA VCR, DVD, and Satellite receiver. To control another key (like a VCR/DVD), press **CH+**, then **VOL+**. The **VCR/DVD** key is now ready to be programmed as your second TV channel. To use another unused device key, substitute the desired key for the **VCR/DVD** key in step 5.

To use the RadioShack Low-Cost 3-in-1 Remote in its original device type, perform steps 1 and 2 above, then press the mode to be cleared twice.

### PROGRAMMING FAVORITE CHANNEL SCAN

The remote allows you to store a list of up to 10 favorite channels, in any order, that you frequently watch. To use the Favorite Channel Scan feature:

1. Press and hold **P** until the LED blinks twice.

2. Press and hold **P** until the LED blinks twice.

3. Enter **8 9 8**. The LED blinks twice.

4. Use the keypad to enter a favorite channel number (for example, **051**), and then press **CH+** to enter.

5. Repeat steps 1-4 for each favorite channel to be stored, up to a total of 10 channels.

**NOTE:** If you have programmed 10 favorite channels, press **CH+** to clear the last channel and program new channels. See "Troubleshooting."

### USING CHANNEL SCAN

To use Channel Scan to start a three-second scan of all favorite channels (if programmed), see "Programming Favorite Channel Scan" on page 2.

The remote will scan all channels if Favorite Channel Scan is not set.

If the remote does not respond, the LED blinks twice.

If the code is correct, the LED blinks twice.

If you have entered less than 10 favorite channels, press **CH+** to clear the last channel and program all of the channels.

**NOTE:** If you have programmed 10 favorite channels, press **CH+** to clear the last channel and program new channels. See "Programming Favorite Channel Scan" on page 2.

### CHANGING VOLUME LOCK

The RadioShack Low-Cost 3-in-1 Remote comes pre-programmed to operate Global Volume Control of each selected device (Global Volume Lock).

After you have programmed the Global Volume Lock, you may change the Volume Lock setting to Global Volume Control for each individual device or to control volume in all other modes. After that, you can use the Global Volume Lock to unlock a selected device to set it to volume control for independent operation.

### Locking Volume Control To One Global Volume Lock
