

BEFORE YOU BEGIN

Realize that because individual dogs have unique temperaments there is no way of knowing how your dog will react to its introduction to this product. For the safety of your dog, initial training should take place using a long lead to keep you in control of the situation. Also realize that an aggressive animal could turn against the handler upon receiving the stimulus. Therefore, if you feel your dog has an aggressive behavior and/or has a history of such behavior, we suggest you consult a certified animal behaviorist before using this training aid. KEEP OUT OF REACH OF CHILDREN

FCC Notice

This device has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This device generates, uses, and can radiate radio frequency energy and, if installed and used in accordance with the instruction, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this device does cause harmful interference to radio or television reception, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications not expressly approved by Innotek Pet Products, Inc. could void the user's authority to operate the equipment.
