Social Pet™
Quick Start Guide

1. Attach the antenna to the camera; connect power adapter to the camera and plug into outlet.
2. Connect the camera to your router with the network cable, included.
3. Go to http://socialpet.petsafe.net
4. Follow the wizard to setup your user and pet profiles
5. Connect to your Wi-Fi account
6. Place camera in area pet frequents most and that you are comfortable sharing
7. Launch Facebook app from link on wizard.

CONGRATULATIONS - You can now view your pet remotely, take and share photos with your Facebook friends and even allow your friends access to your camera.
