

BreadCrumb[®] LX User Guide

RAJANT

Note: This device has been tested and found to comply with the limits for a Class A digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the device is operated in a commercial environment. This device generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with this instruction manual, may cause harmful interference to radio communications. Operation of this device in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at their own expense.

This Class A digital apparatus complies with Canadian ICES-003.

Cet appareil numérique de la classe A est conforme à la norme NMB-003 du Canada.

CAUTION: Changes or modifications not expressly approved by Rajant Corporation could void the user's authority to operate the device.

Operation of this device in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at own expense.

1.0 PREFACE

1.1 PURPOSE AND SCOPE

This manual refers to the BreadCrumb LX model.

This manual provides information and guidance to all personnel who are involved with and use Rajant Corporation's BreadCrumb® Wireless Network devices ("BreadCrumb® devices").

This manual begins with an introduction to the BreadCrumb Wireless Network (BCWN) and a brief overview of the various BreadCrumb device models available. This is followed by a guide to BAdmin™, the management application used to configure BreadCrumb devices before or during a deployment. Finally, common deployment scenarios are described and concise step-by-step instructions for each scenario are provided.

1.2 USER INFORMATION

The user of this manual is encouraged to submit comments and recommended changes to improve this manual. Please send any comments or changes to support@rajant.com. Be sure to include the version number of the manual you are using and please provide the page numbers related to your comments wherever possible.
