

Thank you for purchasing a JooJoo. With JooJoo, the internet is the application.

JooJoo makes connecting to the internet quick and easy from wherever you are.

#### Operating Temperature & Rating Output

Operating temperature: 10 ~ 35 degree  
Rating output (輸出/輸入): 19V, 2.1A

#### CPU & Chipset Information

Intel Atom N270  
Nvidia Ion Chipset

#### Handling JooJoo

Failure to follow the handling information could result in damage to the device.

#### Transporting JooJoo

JooJoo contains sensitive components including a large glass touchscreen. Do not drop, knock or crush the device.

#### Using Connectors and Ports

Never force a connector into a port. Check for any obstructions on the port. Ensure that the connector matches the port and that you have positioned the connector correctly in relation to the port.

#### Keeping JooJoo Clean

Use a soft, lint-free cloth to clean the touchscreen. Avoid getting moisture in openings. Do not use aerosol, sprays, solvents, alcohol or abrasives to clean the device.

#### Glass Parts

The glass touchscreen could break if the device is dropped on a hard surface or suffers a substantial impact. Glass cracked due to abuse or misuse is not covered under warranty.

#### Battery

The battery is non-replaceable

#### Regulatory Notices

##### Class B: FCC Warning!

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

#### CAUTION:

Any changes or modifications not expressly approved by the grantee of this device could void the user's authority to operate the equipment.

#### RF exposure warning

The equipment complies with FCC RF exposure limits set forth for an uncontrolled environment. The equipment must not be co-located or operating in conjunction with any other antenna or transmitter.

SAR Value: 1.56W/Kg (3G)  
0.419W/Kg (WLAN)

Use only shielded cables to connect I/O device to this equipment. You are cautioned that changes or modifications not expressly approved by the party responsible for compliance could void your authority to operate the equipment.

この装置は、クラス B 情報技術装置です。この装置は、家庭環境で使用することを目的としていますが、この装置がラジオやテレビジョン受信機に近接して使用されると、受信障害を引き起こすことが有ります。取扱説明書に従って正しい取り扱いをしてください。VCCI-B
