changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.
If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-- Reorient or relocate the receiving antenna.
-- Increase the separation between the equipment and receiver.
-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) this device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.

Light & Features:

Light control: the "Bulb Color" section of the homepage is where you can control all of the light bulb specific features, such as:
• Turning the light off & on
• Changing the color of the light (press the center bulb icon to turn the light back to white)
• Change the feature of the lights to Normal, Rainbow, Random, Flashing, or Candle

Main Menu: in the upper left of the app there is a menu button

Here you can control the Timer & Sleep Assistant
• Timer: set an alarm and customize the music and lighting effects
• Sleep Assistant: program a time that the bulb will turn itself off

Tips & Troubleshooting:

Changing the device that is controlling the Chroma-Melody Light Bulb
Switch the mobile device by disconnecting the Chroma-Melody speaker in the settings app of your mobile device. If you are unable to Pair your phone's Bluetooth to the bulb, make sure the bulb is not connected to a different device at that time.

**Once the bulb is connected to a device, it will not be able to connect to a second device unless it is disconnected in the Bluetooth settings app or the first device loses its Bluetooth connection by being out of range.

Bluetooth distance: No obstacle 10M

Chroma-Melody Lightbulb
Bluetooth® Speaker and Color Changing LED Bulb

Connection/Pairing for Lighting Function:

•To control the light function of bulb, open the "Chroma-Melody" App.

•Under the CONNECT tab, connect the Bluetooth AGAIN inside the "Chroma-Melody" App.

After a successful pairing inside the App, you can:

•Control the bulb color and brightness under the LIGHT tab

•Control the On/Off function on the LIGHT tab

•Have the color of the light change to the music's beat by selecting the Automatic function

•Control the light turning off via the TIMER tab

Installation:
• To install the Chroma-Melody lightbulb, screw the bulb into any light socket.
• Next you'll need to download the "Chroma-Melody" App from the iTunes App or Google Play Store
Caution: Always turn off your light switch before screwing in your Chroma-Melody Bulb.
Bulb screws into any B22 socket.

Installation of APP software:
•Applicable Apple devices: Supports iPhone 4S and later with iOS 7.0 and later versions.
•Applicable Android devices: Supports Android 2.3.3 and later.

Note: APP software can be downloaded by searching "LM Chroma-Melody" in your phone's APP Store

Connection/Pairing for Bluetooth Speaker
If you're using the Chroma Melody for the first time, follow the steps below:
•Power on the Chroma-Melody lightbulb
•Download the "Chroma-Melody" App from the iTunes App Store or Google Play Store.
•To play music through the Chroma Melody Bulb, power on your Chroma-Melody Lightbulb and connect the bulb via Bluetooth under your device's system settings.
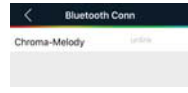

For iOS
• After a successful Bluetooth connection, you will hear a Bluetooth connection tone.
• Next, exit the Settings App and open the "Chroma-Melody App"

Installation of APP software:

For Android open the APP and click "Connect"

After successfully connecting to the Chroma-Melody App via Bluetooth, reopen the Chroma-Melody App

Click on the Menu icon on the top and go to "Bluetooth Conn" and click on the "Chroma-Melody' icon at the top"

Bluetooth Conn
Chroma-Melody

Navigation of APP
After installing and connecting to the Chroma-Melody lightbulb, you must swipe to the left for 4 screens until you see the "Enter" icon. →Then click "Enter" to gain access to the APP

1.   2.   3.   4.

After entering, you can choose the color of the bulb that you want to be activated by picking a color on the color wheel

•If you choose the icon in the middle of the wheel, the bulb will become a solid white light
• You can also choose between the 5 lighting options to go with your color choice. This can be done by toggling the top menu bar with the below options.
Normal (solid white light), Rainbow, Pulse, Flashing, Candle

Options
• Bluetooth Connect (connects the Chroma-Melody App to the Bulb)

If you hit the icon on the top left screen, this will bring you some alternate features

• Timing lights (can set bulb on a timer)

• Sleep assistant (can set the bulb & music to turn off after a predetermined time)

• Click the "+" icon to choose your timing settings

• Sleep Assistant (to choose sleep time)

• About (shows the current version of the Chroma-Melody APP)

• To listen to music that is stored on your phone, click the "Music" icon on the bottom of the screen

• After clicking Music Tab, there will be an Overview section. You can click "My Music" at the top to load all the music on your phone.

• You can listen to your favorite music apps by closing the app, opening your favorite music app and pushing play → ensuring your Bluetooth is connected correctly, the music will begin playing through the bulb.

• To have the light bulb pulse to the beat, simply click the button!

Shake Features
Click on the "Shake" button at the bottom of the screen
Clicking "Settings" allows you to change the feature "shaking" your phone controls

Disconnect:
•To disconnect your phone from the Chroma-Melody bulb, disconnect the Bluetooth pairing inside the Settings app of your phone
