

20W Dual Wireless Desk Charger

RWC30

Product Information

20W Dual Wireless Desk Charger

1. Wireless Charging Zones
2. DC Power input
3. Anti-slip feet

Instructions

Compatible Devices

The wireless charger supports fast wireless charging up to 10W for Samsung/Android devices, and up to 7.5W charging for iPhone. The TwoFold can charge two devices simultaneously in any combination of the below compatible devices.

Wireless Device Compatibility (Smartphones)

iPhone X, iPhone 8 Plus, iPhone 8, Galaxy Note 8, Galaxy S8+, Galaxy S8, Galaxy S7 Edge+, Galaxy S6 Edge, Galaxy S7 Edge, Galaxy S6, Galaxy S7.

Note: All devices must be Qi standard.

Please note that when using Wireless charging and USB outputs at the same time, charging speed will be slower.

Product Specification

20W Dual Wireless Desk Charger

Input: 12V/2.5A
Output 1: DC 5V/1A-9V/1.1A-10W
Output 2: DC 5V/1A-9V/1.1A-10W
Max output: 20W

Operation Frequency: 110.1-175.2kHz
H-field Strength: 1.13dBµA/m @10m distance

Troubleshooting steps

No Charging or Slow Charging

1. For optimum charge speed the base stand should be adjusted so the centre of the phone is aligned to the wireless charging zone of the Wireless Charger.
2. Please ensure that the case on your phone is not affecting the wireless charging by removing it and checking the performance. Some cases interfere with wireless charging if they contain metallic material or are overly thick..

Manufacturer: Shenzhen Reflying Electronic Co., Limited

This equipment has been tested and found to comply with the limits for a WPC device, pursuant to Part 18 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

NOTE: This equipment has been tested and found to comply with the limits for a wireless power charger, pursuant to Part 18 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

CAUTION: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the product.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
