

Bluetooth Adapter Quick Start Guide

Charge your Adapter

1. Plug the supplied charging cable into your Adapter. Plug the USB end to a charging device or to a USB port on a computer.
2. The light on your adapter will flash red to indicate that it is charging.
3. Charge for approximately 2 hours.
4. Unplug when you are finished.

Connect your adapter to a Stereo/Speaker System

1. Plug the supplied 3.5mm cable into your Adapter (the 3.5mm jack is located on top of the adapter). Plug the other 3.5mm end into a headphone/3.5mm jack on your stereo or speaker.
2. Make sure your speaker is turned on.

Pairing your Adapter with your Music Player

1. Turn the Adapter On by pressing and holding the Power Button for 5 seconds.
2. Go to the Settings on your Bluetooth MP3 Player/Phone. Tap General to take you to the Bluetooth Setting.
3. Make sure Bluetooth is turned on.
4. Bluetooth Audio will show up on your Bluetooth devices list.
5. Connect to Bluetooth Audio.
6. Play your music on your Music Player.

You are now ready to listen to your tunes wirelessly. This adapter can turn any speaker with a headphone jack into a Bluetooth Speaker.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
