

Bluetooth Handset Quick Start Guide

Charge your Handset

1. Connect the mini end of the supplied cable to your Handset and the standard USB end to a charging device or to a USB port on a computer.
2. The light will flash red on your Handset to indicate that it is charging.
3. Charge for approximately 2 hours.

Pairing your Handset with your Phone

1. Press and hold the power button for about 8-10 seconds. After 5 seconds, the blue LED light will start to blink. Continue to hold the Power button for another 3-5 seconds until the Blue light is solid and stops blinking.
2. Go to the Settings on your Bluetooth Phone. Tap General to take you to the Bluetooth Setting.
3. Make sure Bluetooth is turned on.
4. RPHONE-02 should show up on your recognized Bluetooth devices. Click/tap connect.
5. Enter 0000 as the password

Using your Handset

1. Your Handset will now work after it is paired.
2. After your Phone is paired with the Handset, you will have the option to use your Handset wirelessly or to use your Phone like you normally do.
3. For iPhone®-During your call, Tap Audio Source on your phone screen. You can switch between using the Handset and your iPhone® by tapping RPHONE-02, iPhone®, and Speaker when you wish to use them in this mode. If you only wish to use your Handset, tap on RPHONE-02 and leave it as such.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

iPhone® is a registered trademarks of Apple Computers, INC. This product is not licensed, sponsored, endorsed, or manufactured by Apple Computers, INC. Bluetooth® is a registered trademark of Bluetooth® SIG Inc. Bluetooth® technology is incorporated under license from Bluetooth® SIG Inc. All other trademarks are those of their respective owners.

changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
