Redial	Double click Main button to redial the latest phone number	N/A																											
<p>◆ Initial Setup</p>	<p>◆ How to Use</p> <p>Place the Himbox</p> <ol style="list-style-type: none"> Select a convenient location with a level surface on the dashboard; Remove the protective backing from the adhesive on the back of the mounting disc and stick it to the dashboard; The controller will magnetically adhere to the mounting disc. The Controller can be easily removed and stored when not in use. <p>Cable connection</p> <ol style="list-style-type: none"> Plug the USB power connector into USB power port of the car charger; Plug the car charger to the cigarette lighter socket of your vehicle; Plug the 3.5mm audio connector into the AUX interface of your car; Set the Audio source of your car audio system to LINE IN or AUX mode. 	<p>Pair your phone</p> <ol style="list-style-type: none"> Press and Hold the button for about 5 seconds until the LED ring start flashing rapidly, indicating the Bluetooth car kit has entered into pairing mode. Turn on your phones Bluetooth and search for the Bluetooth car kit "HB01 PLUS" and select it. If asked for a pass code, type in "0000". When pairing is finished, the LED ring will turn solid blue. <p>Notes:</p> <ul style="list-style-type: none"> If no device is paired within 3 minutes when HB01 PLUS is in pairing mode, it will enter sleep mode automatically with the LED ring flashing blue once every 5 seconds. At this time, if you want to pair you device with HB01 PLUS, simply repeat the above steps. HB01 PLUS will connect to the last paired phone automatically when it is turned on. 	<p>◆ FAQ</p> <p>1. How to activate Siri via HB01 PLUS? Usually, you just need to press the control button for 1-2 seconds and then release it. Yet, sometimes you will need to press the control button twice (short-press to wake it up and then long-press for 1-2 seconds). Note: The above information is only applicable to IOS 6 or later.</p> <p>2. How to call back the last incoming call via HB01 PLUS? You just need to press the control button twice in a row.</p> <p>3. How to connect HB01 PLUS with two phones simultaneously? Please follow the steps below: 1. Let HB01 PLUS enter pairing mode and then pair the first phone with it. 2. Long-press the Main button to make HB01 PLUS enter pairing mode again and then pair the second phone with it. 3. Set the first phone to search HB01 PLUS and then reconnect.</p>	<p>4. Now both phones are connected.</p> <p>4. How to play music between the two devices?</p> <ol style="list-style-type: none"> The HB01 PLUS supports pairing two devices simultaneously. Only one device can stream audio at same time. If first phone is playing music, second phone has an incoming call, the music will stop, and incoming call is output through car stereo. You can simply pause the music on the first device and play music on the second device. <p>5. After connecting and pairing with my device, I cannot hear any sound from car. Please check the following steps:</p> <ul style="list-style-type: none"> Make sure your car supports AUX and its audio source has been set to LINE IN or AUX. Make sure the music volume is at an audible level on both your Bluetooth audio device and your sound system. Please make sure Bluetooth audio has been selected as the audio output. 	<p>4. Himbox cannot automatically connect with my phone. Please try following ways for help:</p> <ol style="list-style-type: none"> Delete HB01 PLUS on your phone's Bluetooth list, and repeat the pairing steps. Try to connect HB01 PLUS with another phone, and check whether it can automatically connect with the phone or not. If the above steps cannot solve your problem, please contact our customer service team for help. <p>◆ Warranty This Bluetooth Car Kit has a 18-month warranty against manufacturing defects starting from the purchase date.</p> <p>◆ Recycling Always dispose of the used car kit in accordance with federal, state and local rules and regulations. Our policy is one of continuous research and development. We therefore reserve the right to amend the specifications given within this document without prior notice.</p>																								
<p>Warning Statement</p> <p>This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:</p> <ul style="list-style-type: none"> Reorient or relocate the receiving antenna. Increase the separation between the equipment and receiver. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. Consult the dealer or an experienced radio/TV technician for help. <p>Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment. This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.</p>
