### FAQ

- Q1: Keyboard and touch pad do not respond, and the indicators can not be illuminated.  
A: Check whether the switch is in the "ON" position.
- Q2: How long is required to charge the battery?  
A: The red indicator will be lighted during charging and off when it is fully charged. It requires about 3 hours to charge the battery fully.
- Q3: The USB cable supplied can be used for data transmission?  
A: No, it is only used to charge the battery.
- Q4: The keyboard works but the touch pad does not respond.  
A: Press FN+ALT.
- Q5: The Blue Indicator (the first one) keeps blinking.  
A: It is to indicate that the battery power is low. You need to charge the battery.

### Overview

Thank you for purchasing this Wireless Mini QWERTY Keyboard & Touchpad Combo. You can use it for emails, chat, remote control, message input and games. It is compatible with PC, Laptop, Raspberry Pi 2, Mac OS, Linux, HIPC, IPTV, Google Android Smart TV Box, XBMC, Windows 2000 XP Vista 7 8 10. Use it with your Android box or smart tv on your sofa or browse the internet in the most comfortable fashion.

### Quick Start

### System Requirements

- HID compatible device
- Terminal with USB port
- Window 2000 • Window XP
- Windows Vista, Windows CE, Windows 7, Window 8
- Linux(Debian-3,1,Redhat-9,0,Ubuntu-8,10, Fedora-7,0 tested)
- Android OS (With standard USB interface)

### Please note

1. It can work on Amazon Fire TV with an App-app2 file on android. You can install any App to fire TV . Note that it only works on side loaded applications. For example Google chrome, Firefox, show box, KODI is a native app on fire.
2. Not suitable for all smart TV. Some smart TV does not support external input device. Before you place the order, please use a wired keyboard to check if it can work.

### Quick Guide

1. Battery Chamber  
  
USB Receiver Inside
2. Connect  
  
Plug the USB Receiver into the USB port
3. Switch
4. Touchpad  
  
Fn + Space = Adjust touchpad speed

### Specifications

Receiver (dongle): Nano style  
Connection port: With USB2.0 or above  
Transmission mode: GFSK 2.4GHz wireless, up to 10 meters  
Transmission Power: Less than -4db  
Power supply: Rechargeable polymer Lithium-Ion battery  
Charging voltage: 4.4V - 5.25V Charging current: 300mA  
Sleeping current class1: 30uA Operation voltage: 3.7v  
Operating current: <15mA Product weight: 110g  
Product size: 146.8\*97.5\*19mm

### Installation

1. Take off the USB receiver from back cover of the keyboard
  2. Plug the USB Receiver into your device's USB port
  3. Turn on the keyboard.
- A Blue LED will stay on. That means the keyboard has paired with your device.
- Note:  
1. The three-port extension USB cable can not only be used for charging

but also lowering the signal interference, it can not be used for digital connection.  
2. If the Blue LED does not stay on and Orange LED keeps flashing, it means the keyboard needs to be paired with your device. As for how to pair, please try following steps:

Step 1 Press ESC button and turn on the keyboard at the same time, then release the ESC button and the Blue LED will flash fast.

Step 2 Insert the USB dongle into your main device's USB port. The Blue LED will be off in 60s which means the pairing succeeds. If it fails for the first time, you could repeat Step1-2 again. Please keep the keyboard full power before pairing.

3. Meaning of the three LEDs (Yellow, Blue and Red)

Blue - means pair status. When it is on, it means keyboard is paired with your device successfully. If it is off, it means not be paired. You need to do the above 4 steps to re-pair.

Yellow - means sync. It will flashing whenever you type any button or operate the touchpad. If it does not flash, it means it has something wrong on keyboard or the compatibility.

Red - means charging status. When start to charge, it will be on. When it is powerful, it will be off automatically.  
4. About signal interference: specialing for android TV box and smart TV. Large size monitor device always has some signal interference. Signal interference may result in short distance and buttons do not work as well. When you press a, "aaaaaaa..." will appear. In this case you can use the three-port extension cable to solve it. Please plug the extension cable to your smart TV, and plug USB receiver to the available port, then pair and use remote keyboard.

5. Shortcut Keys:

FN + ESC = F11	FN + 1 = F2	FN + 2 = F3
FN + 3 = F4	FN + 4 = F5	FN + 5 = F6
FN + 6 = F7	FN + 7 = F8	FN + 8 = F9
FN + 9 = F10	FN + 0 = F11	FN + - = F12
FN + BACK = DEL	FN + ENTER = CTRL + ALT + DEL	
FN + ALT = Close touch pad	FN + Space = Overdrive the mouse	

6. Special keys used in special layout such as @ in UK layout This keyboard has different layout. Please know exactly which layout you want. For example, if you want and buy UK layout. And you want to use @.

You need to first change your device's system language to British English. Then it can work by shift+@  
7. Auto Sleep Mode  
This keyboard has auto sleep / wake up function, when there is no any operation in 3 minutes. It will into sleep automatically.  
Press any button to wake it up. Make sure it is on enough power.

### Using the Touch pad

The touch pad is activated together with the keyboard. When the keyboard is on, the keyboard is ready for you to use. FN+ALT can turn on/off touch pad. You will enjoy more convenience and control on-screen menu easier.

### Auto Sleep and Wake-up feature

The keyboard supports auto sleep and wake-up. Without operation around 3 minutes, the keyboard will enter sleep mode. In sleep status, all LED indicators are off. Pressing any key can wake it up.

### Switching off the keyboard after use

After use, push the switch to the "OFF" position. The USB receiver does not

need to be pulled out from the terminal. You can use it next time directly.

### Charging the battery

The device uses built-in Lithium-Ion battery. Please use only approved USB cables and chargers.

Note: Fully charge the unit before initial operation. This device can be used when charging. But charging time will be extended. When the battery is low, the low-voltage light will blink to warn the user. The unit will be automatically turned off if the battery has been depleted.

### Multi-finger Functions Touchpad(Only for Backlit versions)

This touchpad supports multi-finger functions.

1. Single-finger click functions as mouse left click.
2. Two-finger click functions as mouse right click.
3. Two-finger dragging functions as mouse Scrolling.
4. Single-finger functions as sliding pointer.

### Turn on/off the Backlit LED(Only for Backlight versions)

Two Modes: Software Control and Manual Control

When the wireless connection is successful, the Backlit LED will be automatically on 3 seconds, then off, to save power and lengthen standby time. You can click the Backlit LED button to turn the LED on. Users can turn on the LED in dark environment for better operation.

### Backlit(Only for backlight versions)

The Backlit LED will be automatically turned on three seconds after the keyboard is being turned on. When the backlight is lighted, it will stay on 1 minute. If there is no operation after 1 minute, the backlight LED will be off automatically.

### Warning

- When charging finishes, pull out the charging cable.
- Never try to open or repair this product yourself.
- Keep this device away from fluids, such as water.

### Maintenance

- Do not attempt to disassemble the device or replace the rechargeable battery yourself.

- The battery will discharge when it is stored for a long time without operation.
- Use the specified charger. Disconnect the device when the battery is fully charged.
- Overcharging will shorten the battery life.

### Disposal

Always dispose the used appliance at a recycling center. Do not dispose the used appliance together with the household waste.

Note:

Due to 2.4G wave technology adoption, the connection can be subject to interference from obstacles like walls, metals, or other electronic devices. Please keep the space between the keyboard and USB receiver free of obstacle.

In line with the policy of continued development, the manufacturer reserves the right to amend the specifications without prior notification. The illustrations in the user manual are for reference only. Please operate according to the real design.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
