Installation

- Open the battery compartment located on the backside of the wireless keyboard and pick up USB receiver.
- Insert the USB Receiver into an available USB port.
- Place 2PCS AAA batteries into the remote battery chamber.
- Turn on the keyboard with Press any keys
- The remote is found and installed automatically. No further actions are required – you are now ready to use your remote!

NOTE: When the battery is low, the low-voltage light will blink to warn the user. The unit will be automatically turned off if the battery has been depleted. Need to replace AAA * 2 batteries

Using the Touchpad

The touchpad is activated together with the 2.4Gcontroller. When the controller is on, the keyboard is ready for use. You will enjoy more convenience and control on-screen menu easier.

Auto Sleep and Wake-up feature

The controller supports auto sleep and wake-up. Without operation around 3 minutes, the controller will enter sleep mode. In sleep status, all LED indicators are off. Pressing any key can wake it up.

Warning

- Never try to open or repair this product yourself.
- Keep this device away from fluids, such as water.

Maintenance

- Do not attempt to disassemble the device.
- Doing so will void the warranty.
- The battery will discharge if it is stored for a long time without operation.
- Do not expose the device in extreme heat or cold environment, which will shorten the battery life.

Disposal

Always dispose the used appliance at a recycling centre. Do not dispose the used appliance together with the household waste.

Notice:

Due to 2.4G wave technology adoption, the connection can be subject to interference from obstacles, like walls, metals, or other electronic devices. Please keep the space between the controller and USB receiver free of obstacle.

In line with the policy of continued development, the manufacturer reserves the right to amend. The specifications without prior notification. The illustrations in the user manual are for reference only. Please operate according to the real design.

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- o Reorient or relocate the receiving antenna.
- o Increase the separation between the equipment and receiver.
- o Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- o Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules.

Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.
