1. Bluetooth channel switch button
2. Bluetooth channel indicator
3. Play key
4. Power Indicator
5. Power switch

Operation Procedure

- Step 1. Put 2 x AAA batteries into the battery compartment;
Step 2. Pull the Power switch to ON;
Step 3. Press the bluetooth channel buttons for 3 seconds to pair and the corresponding LED will flash;
Step 4. Activate the Bluetooth function of your devices to search for "BLE KEYBOARD";
Step 5. Click on "BLE KEYBOARD" to pair. The LED will be solid on when the connection is success.

How to connect three devices?

Repeat step 3- 5 in operation procedure for the other two channels and you'll get all three devices paired and connected.

How to switch three devices?

First of all, three Bluetooth devices must be paired with this Bluetooth keyboard. When you need to switch a channel, press the corresponding Bluetooth channel button, and the keyboard will be automatically connected to the corresponding Bluetooth device.

Quick Guide

1. Install batteries

2. Pull the power switch to ON

3. Press one of the three channel buttons, and the corresponding LED will flash

4. Activate the Bluetooth function of your phone or computer and search for "BLE KEYBOARD", click on "BLE KEYBOARD" to pair.

Caution

If the battery is not replaced properly, there may be danger of leakage or explosion and personal injury. If the battery is improperly disposed, there may be a risk of fire or chemical burns. Do not open, damage, or expose the battery to conductive material, humidity, liquid, or excessive temperature. Do not use or charge the battery in case of leakage, discoloration, deformation, or any other abnormalities. Do not let the battery stay in or out of use for a long time.

FCC Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
