Multi-finger Functions Touchpad

Auto Sleep and Wake-up feature

The keyboard supports auto sleep and wake-up. Without operation around 3 minutes, the keyboard will enter sleep mode. In sleep status, all LED indicators are off. Pressing any key can wake it up.

Switching off the keyboard after use

After use, push the switch to the "OFF" position. The USB receiver does not need to be pulled out from the terminal. You can use it next time directly.

Charging the battery

The device uses built-in lithium-ion battery. Please use only approved USB cables and charges.
 Note: Fully charge the unit before initial operation. This device can be used when charging. But charging time will be extended. When the battery is low, the low-voltage light will blink to warn the user. The unit will be automatically turned off if the battery has been depleted.

Scroll wheel

This new design can help you scroll through long documents or web pages faster and easier, same as using your mouse.

Disposal

Always dispose the used appliance at a recycling center. Do not dispose the used appliance together with the household waste.

Note:
 Due to 2.4G wave technology adoption, the connection can be subject to interference from obstacles, like walls, metals, or other electronic devices. Please keep the space between the keyboard and USB receiver free of obstacles. In line with the policy of continued development, the manufacturer reserves the right to amend the specifications without prior notification. The illustrations in the user manual are for reference only. Please operate according to the real design.

Warning

- The attached USB cable just can be used for charging. It can not be used for data transfer.
- When charging finishes, pull out the charging cable.
- Never try to open or repair this product yourself.
- Keep this device away from fluids, such as water.

FCC Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE 1: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
