

TXB-ZB Transceiver Module Installation Instructions

Purpose of the *TXB-ZB Transceiver Module*

The TXB-ZB Transceiver Module is a module that can be installed in applicable Remote Technologies Inc. (RTI) products only. This module is not sold retail, nor is it provided as an OEM product to other manufacturers or companies for installation into their products. RTI and its authorized Contract Manufacturers are the only authorized installers of this module and it is not provided as a field or end-user upgrade. When properly and permanently installed in an applicable RTI product, the module will provide 2.4GHz transceiver communication with other TXB-ZB Transceiver Module equipped RTI products or like 2.4GHz transceiver RTI products.

Installation Instructions

When a TXB-ZB Transceiver module is installed in an RTI product it is permanently affixed to the host product and cannot be removed without the use of additional equipment. This TXB-ZB module is also not visible, nor accessible by the end-user. Any attempted access or removal of the TXB-ZB module by anyone other than RTI or its authorized Contract Manufacturers is strictly prohibited.

When installed in a host RTI product, the host RTI product will display verbiage to the effect of the following in accordance with FCC 47 CFR Part 15 Section 15.212:

Contains Transmitter Module FCC ID: MMURTI1300

or

Contains FCC ID: MMURTI1300

The Operation Manual of the host RTI product will also display the following information in accordance with FCC 47 CFR Part 15 Section 15.19:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference.

(2) This device must accept any interference received, including interference that may cause undesired operation.
