SIM Card Insertion (KS4 only)

- 1) Remove the two fixing screws from the SIM card cover using the tool provided. **EN**
- 2) Insert the SIM card as per the illustration.
- 3) Fix the SIM card cover back in place. Ensuring the screws are tightened to maintain waterproofing.

Insertion Carte SIM (KS4 Seulement) **FR**

- 1) Retirer les 2 vis du cache de la carte SIM avec les outils fournis.
- 2) Insérer la carte SIM comme sur l'illustration.
- 3) Revisser le cache de la carte SIM. Fixez les vis pour vous assurer de l'étanchéité.

SIM-Karte einsetzen (Nur KS4) **DE**

- 1) Entfernen Sie die beiden Schrauben der SIM-Kartenabdeckung mit Hilfe des bereitgestellten Werkzeugs.
- 2) Setzen Sie die SIM-Karte wie abgebildet ein.
- 3) Montieren Sie die SIM-Kartenabdeckung. Um sicherzustellen, dass der Kartenslot wasserdicht verschlossen ist, ziehen Sie die Schrauben fest.

Inserimento della scheda SIM (solo KS4) **IT**

- 1) Rimuovere le due viti di fissaggio dal coperchio della scheda SIM utilizzando lo strumento fornito.
- 2) Inserire la carta SIM come da illustrazione.
- 3) Riposizionare il coperchio della scheda SIM. Assicurarsi che le viti siano serrate per mantenere l'impermeabilità.

Inserción Tarjeta Sim (Sólo KS4) **ES**

- 1) Quitar las dos fijaciones de la cubierta de la tarjeta SIM utilizando la herramienta proporcionada.
- 2) Inserte la tarjeta SIM según la ilustración.
- 3) Fije de vuelta la cubierta de la tarjeta SIM. Asegúrese de que los tornillos están apretados para mantener la impermeabilización.

Mounting

The KS-Series camera has several mounting options including:

1. Magnet Mount (pre-attached)
2. Klick Fast Stud (supplied in the box)
3. Crocodile clip (supplied in the box)
4. Lanyard (supplied in the box)

Guidance for camera mounting can be found on the Reveal Website: <https://www.revealmedia.co.uk/support>

Système d'accroche **FR**

La caméra de la série KS dispose de plusieurs options de montage, notamment :

1. Support magnétique (pré-attaché)
2. Goujon Klick Fast (fourni dans la boîte)
3. Pince crocodile (fournie dans la boîte)
4. Lanyard (fourni dans la boîte)

Des conseils pour le montage de la caméra sont disponibles sur le site Web de Reveal.

Montaggio **IT**

La telecamera della serie KS ha diverse opzioni di montaggio, tra cui:

1. Supporto magnetico (premontato)
2. Klick fast a vite (fornito nella confezione)
3. Clip a coccodrillo (fornita nella confezione)
4. Cordino (fornito nella confezione). Le istruzioni per il montaggio della telecamera sono disponibili sul sito web Reveal

Befestigung **DE**

Befestigung Die KS-Serie Kamera beinhaltet folgende Befestigungsmöglichkeiten:

1. Magnet Halterung (bereits montiert)
2. Verschraubte Klick Fast Halterung (in der Box)
3. Hemdklemme (in der Box)
4. Trageschleife (in der Box)

Anleitungen zur Befestigung der Kamera sind auf der Reveal Webseite zu finden.

Montura **ES**

La cámara KS-Series tiene diferentes tipos de montura. Incluye:

1. Montura Magnética (pre-fijada)
2. Adaptador Klick Fast (suministrado en la caja)
3. Clip de Camisa (suministrado en la caja)
4. Colgante (suministrado en la caja)

Manuales de como montar las cámaras se pueden encontrar en la Web de Reveal.

Product conformance

How to recycle your equipment

The symbol shown here and on the packaging means that the product is classed as electrical or electronic equipment, so DO NOT put it in your normal garbage bin.

It's all part of the Waste Electrical and Electronic Equipment (WEEE) directive to recycle products in the best way, and get rid of dangerous things more safely.

You should contact your retailer, supplier, or local city office for advice on how to dispose of this product in an environmentally friendly way.

Reduction of hazardous substances

This product is compliant with the EU Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) Regulation (Regulation No 1907/2006/EC) and the EU Restriction of Hazardous Substances (RoHS) Directive (Directive 2011/65/EU).

Radio Equipment Directive (RED)

The KS-Series product is compliant with the requirements of the Radio Equipment Directive (2014/53/EU).

FCC statement

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

Product conformance

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

RF Exposure Information

FCC RF Exposure requirements: The highest SAR value reported under this standard during product certification for use next to the head with the minimum separation distance of 0mm. This transmitter must not be collocated or operating in conjunction with any other antenna or transmitter.

This product is compliance to FCC RF Exposure requirements and refers to FCC website
<https://apps.fcc.gov/oetcf/eas/reports/GenericSearch.cfm>
search for FCC ID: 2AL26-KS2 and FCC ID: 2AL26-KS4-US

Product conformance

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

EN

- (1) This device may not cause interference.
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

This EUT is compliance with SAR for general population/uncontrolled exposure limits in IC RSS-102 had been tested in accordance with the measurement methods and procedures specified in IEEE 1528 and IEC 62209. This equipment should be installed and operated with minimum distance 0 mm between the radiator and your body. This device and its antenna(s) must not be co-located or operating in conjunction with any other antenna or transmitter.

For Canada: The frequency stability of all transmission frequencies of U-NII-1, U-NII 2A, U-NII 2C and U-NII-3 meets the 47 CFR FCC Part15.407(g) requirements, and the manufacturer states that their transmissions remain within the U-NII-1, U-NII 2A, U-NII 2C and U-NII-3 bands.

FR

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

- (1) L'appareil ne doit pas produire de brouillage;
- (2) L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Cet EST est conforme au SAR pour la population générale/limites d'exposition non contrôlées dans IC RSS-102 a été testé conformément aux méthodes et procédures de mesure spécifiées dans IEEE 1528 et CEI 62209. Cet équipement doit être installé et utilisé avec une distance minimale de 0 mm entre le radiateur et votre corps. Cet appareil et ses antennes ne doivent pas être situés ou fonctionner en conjonction avec une autre antenne ou un autre émetteur.

Pour le Canada : La stabilité de fréquence de toutes les fréquences de transmission de U-NII-1, U-NII 2A, U-NII 2C et U-NII-3 est conforme aux exigences 47 CFR FCC Part15.407(g), et le fabricant déclare que leurs transmissions restent dans les bandes U-NII-1, U-NII 2A, U-NII 2C et U-NII-3.

Battery Safety and Storage

Battery safety

Reveal's body cameras use lithium Ion batteries which are common in most portable devices such as radios and mobile phones. Reveal's cameras are safety tested with the appropriate certification.

Damage to a lithium Ion battery can cause excessive heat build-up often associated by an audible "hissing" sound, smoke and, in extreme cases, combustion. The KS-Series casing provides a significant degree of battery protection, however, if the case becomes punctured or crushed by excessive forces, then there is a risk of battery damage. Therefore, we recommend that the user of cameras performs a risk assessment as to the role of the wearer and likelihood of excessive trauma to the camera.

If a camera becomes excessively hot or emits any unusual sounds or smoke then:

- Immediately detach the camera and place in a safe area.
- Do not charge the camera.
- Contact Reveal Support.

Storage

Store in dry place, away from direct sunlight and sources of heat, at a temperature between -20°C and 50°C (-4°F to 122°F).

Lithium ion battery discharge naturally over extended periods of time and if not charged for prolonged periods of time, may deteriorate resulting in reduced performance and failure.

If your KS-Series camera is kept in long-term storage it should be charged to at least 50% of full charge every six months. Your warranty may be invalidated if you fail to recharge your battery regularly or to follow other instructions for the storage, installation, commissioning, use or maintenance of the camera.
