Bluetooth Car Kit with FM Audio Connection

Model: **GB01**

1 Overview

This bluetooth car kit is developed for easy installation in motor vehicles to enable hands-free operation of mobile phones and use of individual features. With this kit, you can use the car stereo to relish the music saved in your cell-phone and answer incoming calls without having to pick up your phone.

2 Features

- The latest Full-speed transmission and low power consumption Bluetooth 3.0 (perfect compatibility with earlier Bluetooth versions).
- Provides a simple hands-free solution for answering and receiving phone calls and streaming music from your Bluetooth-enabled phones while on the go
- Echo and noise cancelling technology supplies a clearer voice communication quality
- Built-in microphone and built-in high performance stereo audio codec
- Activates Siri when the control button is pressed 1~2s
- Automatically calls back the last outgoing call when the control button is pressed twice quickly

- Magnetic base is more easily detachable from the controller compared with sticky bases
- FM transmitter function configuration with LCD display. Easy connection with the car stereo radio
- Free Dual USB car charger included, capable of charging two devices simultaneously

5 ILLUSTRATED INTRODUCTION

6 Initial setup

• Connect to Power

1. Insert the adapter plug into your car's 12V/24V power outlet (a.k.a. the cigarette lighter).
2. Insert the car kit's USB plug into the adapter's 1A or 2A port.

NB: Either the 1A or 2A output port can be used to power the car kit.

• Place the Button

1. Select a convenient location with a level surface on the dashboard.
2. Remove the protective backing from the adhesive on the back of the mounting disc and stick it to the dashboard.
3. The controller will magnetically adhere to the mounting disc. The controller can be easily removed and stored when not in use.

• Pair your phone

1. Press and hold the button until the backlight starts flashing rapidly, indicating the bluetooth car kit enters into pairing mode.
2. Turn on your phone's Bluetooth and search for the Bluetooth car kit "GB01" and select it.
3. If asked for a pass code, type in "0000".
4. When pairing is finished, the backlight will turn solid white.

• Set FM frequency

1. Firstly, you should set your car FM to a blank channel (The Blank channel means some frequency without FM channel)
2. Press the FM button, the frequency on the LCD will flash.
3. Repeatedly press the B key, or C key, to make the frequency on the LCD match the FM frequency of the car.

• Warranty

This car charger has a 12-month warranty against manufacturing defects starting from the purchase date.

• Recycling

Always dispose of the used car kit in accordance with Federal, State and Local rules and regulations.

Our policy is one of continuous research and development. We therefore reserve the right to amend the specifications given within this document without prior notice.
