

Exhibit 3 – Installation and Operating Manuals

Rockwell Collins does not supply operating instructions with the SRT-2000, which is designed to meet the requirements of ARINC 429, 600, 604, and 741, and RTCA documents DO-160D, and DO-178B and is operated by trained pilots as part of standard, Douglas, and Airbus aircraft systems. Rockwell Collins does produce a comprehensive installation manual which, pursuant to an agreement with the FCC staff, is available upon request but is not included in this electronic exhibit.
