

## **EXHIBIT H- USER'S MANUALS**

### **1. MANUALS**

Rockwell Collins, Inc. does not supply an instruction book with the DME-4000 transceiver. The transceiver is supplied to airframe manufacturers and airlines, and is designed to meet the requirements of ARINC 709-8. Operating instructions are not necessary because the unit is part of a larger Navigation system used by trained pilots. Rockwell Collins does produce the DME-4000 Component Maintenance Manual, a comprehensive installation manual which, pursuant to an agreement with the FCC staff, is available upon request but is not included in this electronic exhibit.
