* Rear

1. Lapel Clip

1. How to Use

a. Charging
- Open the Power Connector Outlet cover.
- Connect the supplied charger to the Power Connector Outlet.
  - ➔ When the Charger is plugged in, the LED light of the SFK509 will be Red.
    When fully charged, which may take up to 3 hours, the Red LED light will be turned off.

Tip)
- Low battery status will be indicated with a beep every 10 seconds.
  It is recommended that the device should be charged immediately.

b. Power On
- Press and hold the Call/Power Button for 2 ~ 3 seconds.
  - ➔ An ascending tone indicates the device is switched on.

c. Power Off
- Press and hold the Call/Power button for 3 ~ 4 seconds.
  - ➔ A descending tone indicates the device is switched off.

d. Bluetooth Pairing
- After turning the SFK509 on, press and hold the Volume Up & Down button for more than 3 seconds.
  - ➔ You will hear a melody and the blue LED light will blink every second.
- To search and register the SFK509 to your Bluetooth enabled handset.
  - ➔ Please refer to the user manual of the handset.
  - ➔ When asked for the Pass/PIN code during the pairing procedure, please enter "0000" (4 Zeros).
  - ➔ Once pairing has completed successfully, you will hear a beep and the blue LED light will blink every 4 ~ 5 seconds.
    If the LED light still blinks every second, please repeat the pairing procedure from the beginning.

e. Adding Mutiple Handsets

- The SFK509 can store up to 3 different handsets in its memory. However it can only connect up to one Bluetooth device at a time.
- In the case of adding a 4th handset, the first unused registered handset will automatically be removed.
- If you want to permanently keep the first registered handset onto your SFK509, manually connect the handset to the SFK509 before adding a 4th device.

Tip)

- Once the handset is registered to SFK509, it will stay in a paired mode until it is deleted.

f. Answering a call

- When the handset receives an incoming call, the SFK509 will ring and the blue LED light will blink rapidly 4 times.
- Press the Call/Power Button while the handset is ringing.
- To answer an incoming call while listening a song, press the Call/Power Button and get back to the current song automatically after ending a call

g. Last Number Redial / Voice Dialing

- For last number redial, press the Call/Power Button once until a short beep is heard.
  ➔ With certain types of Bluetooth handsets, the user may need to press the Call/Power Button twice.
- To activate Voice dialing, press and hold the Call/Power Button until it beeps twice.
  ➔ Please note that some handsets don't support this function

h. Ending a call

- To end the call, press the Call/Power Button.

i. Call Waiting

- To answer an incoming call while on the phone, press and hold the Call/Power Button for more than 2 seconds.
- To get back to the first call, press and hold the Call/Power Button again.

j. Speaker Volume Control

- Press the Volume (+) Button to increase the speaker sound, and the Volume (-) Button to lower the sound.
    - ➔ The volume level can be adjusted from 1 to 8.

k. Transferring Audio

a) Handset to SFK509

- To switch from the handset to the SFK509 while on a call, press the Call/Power Button.
    - ➔ The call will be transferred to the SFK509.

b) **SFK509 to Handset**

- Switching from the SFK509 to the handset can be operated from the handset menu options. This functionality may vary based on the type of handset.
    - ➔ Refer to the user manual of your handset to use this function.

l. Listening Music

- After pairing the SFK509 with Handset, play the memorized song on your handset.
- Press and hold Volume(+) Button to play next song
- Press and hold Volume(-) Button to play the previous song
- To stop playback the current song, press the Call/Power Button on the SFK509 or stop playback on your handset

m. Using the Earphone

- Flip over the earphone outlet cover.
    - ➔ Do Not use sharp materials or nail to flip over the cover as this could cause damage to the SFK509 as well as to yourself.

- Plug in the supplied earphone into the earphone outlet of the SFK509.
    - ➔ No additional key presses are needed to initiate or continue a conversation when the earphone is plugged in.
    - ➔ When using the earphone, the speaker will automatically be muted.

2. LED Indication
