## Product Specification

---

Item	Specification
Standards	IEEE 802.16e
Model	SWU-3400AN
Frequency Band	Wide Band (2.496~2.690GHz)
Channel Bandwidth	5 and 10MHz
Size	32mm x 67mm x 8.8mm
Weight	16g
Output Power	200mW (23dBm)
Operating Temperature	- 10degree ~ + 50degree
Relative Humidity	0% ~ 85%

## Care and Maintenance

---

Read following instructions carefully.  
It will help you protect your warranty coverage.

- ▶ Use the device in clean and dry areas. The device is not water-resistant. Dusty environments could affect electronic components.
- ▶ Do not disassemble the device. In need of help or repair, contact an authorized service center.
- ▶ Do not drop/bend the device. Keep it from colliding with other objects in the event of operation, storage, and transportation.
- ▶ Do not attempt to make any changes on the design, parts, and performance of the device unless authorized.
- ▶ Use only the supplied or an approved replacement antenna. Unauthorized antennas, modification could damage the device or cause legal problems.

## Safety Information

---

- ▶ Do not use the device in any potentially explosive/inflammable area. Abide by all instructions and signs.
- ▶ Do not use the device where using wireless devices is prohibited or may cause interference or danger, such as in hospitals and airplanes.
- ▶ Do not store the device near electronic appliances that generate strong magnetic or electric fields.
- ▶ Keep the device and its accessories out of the reach of children. Children could damage the device or may mistakenly swallow the components of the device and its accessories.

# Legal Information

---

## FCC ID : V7MSWU-3400AN

### FCC Part 15.19

This device complies with part 15 of the FCC Rules. Operation is subject to The following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

### FCC Part 15.21

Any changes or modifications (including the antennas) made to this device that are not expressly approved by the manufacturer may void the user's authority to operate the equipment.

### RF Exposure Statement (2.1091)

FCC RF Radiation Exposure Statement: This equipment complies with FCC RF Radiation exposure limits set forth for an uncontrolled environment. This device and its antenna must not be co-located or operating in conjunction with any other antenna or transmitter.

### Part 15.105 (B)

Note : This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Modifications not expressly approved by the manufacturer could void the user's authority to operated the equipment under FCC rules.

# Warranty Information

---

## Quality Warranty

This product is the result of high-class craftsmanship based on strict quality control procedures.

- In case of Product failure or malfunction during normal usage, your product will be repaired free of charge within the Limited Warranty period.
- The Consumer shall bear any labor or parts charges not covered by this Limited Warranty.
- At the request for repair, you must provide the proof of purchase and the warranty.
- Keep the warranty in a safe location because it is not reissued.
- This USB modem is for use only with compatible UL Listed Product that have limited power source of the USB output connector.

Purchase date
