1. Subscribe to the SiriusXM Music for Business Internet Service

To listen to the SiriusXM Music for Business Internet Service, you will need to subscribe to the service. Call **1-866-345-SIRIUS** (7474) to subscribe and obtain your SiriusXM username and password (credentials).

2. Connect the Radio

These instructions are for a wired connection to the Internet. **Sirius XM strongly recommends a wired internet connection for all business installations.** An Ethernet cable is included.

- Connect the Ethernet cable to the **LAN** connector of the Radio. Connect the other end to your local network.
- Connect the Power Adapter to the **DC 5V** connector, and plug the Power Adapter to an AC outlet. The Radio will power on automatically (Figure 1).
- If the Radio has successfully connected to the network, and has Internet connectivity, the Main Screen will be displayed (Figure 2).

If necessary, refer to the User Guide for more detailed network setup information.

3. Enter Your SiriusXM Credentials

- From the Main Screen, turn the **Scroll knob** to the right to highlight **Settings** and press the knob to select.
- Turn the **Scroll knob** to highlight **Credentials** and press the knob.
- First enter the username that SiriusXM provided to you (Figure 3). The username is case sensitive. Turn the **Scroll knob** right and left to select a letter or number and press the knob to select the letter. If you make a mistake, press the **BACK** button to erase the last entry.
- Continue until you have finished entering the username. Then turn the **Scroll knob** until **END** is displayed and press the knob.
- The Radio will display **LOADING...** while the username is being verified (Figure 4). **Username updated** will be briefly displayed if you entered the correct username. If you have entered an incorrect username, **Username does not exist** will be displayed. You will need to correct the username.
- Next you will be prompted to enter your password. Enter your password in the same way as you entered your username. The password is also case sensitive. Then turn the **Scroll knob** until **END** is displayed and press the knob.
- After your password has been entered and successfully verified, you will be returned to the settings screen. Press **BACK** to return to the main display screen.

4. Selecting a Channel

The first time the Radio successfully connects to the SiriusXM Music for Business Internet Service, no channel will have been selected to play.

- If you are not at the main display screen, press and hold **BACK** until it is displayed.
- Highlight **Category List** and press the **Scroll knob**. The category list will be displayed (Figure 5).
- You can select All Channels to browse through every available channel, or narrow the category list of channels by selecting Music, Talk & Entertainment, or Latin & World. Turn the **Scroll knob** to highlight your selection and press the knob (Figure 6).
- Use the **BACK** button to return to the previous screen as you search for a channel.
- Once you have located the channel to which you want to listen, highlight the channel and press the **Scroll knob**. When the Radio connects to the channel, the audio will begin playing and the Now Playing screen will be displayed. For the initial audio check, press the **Speaker button** to turn the speaker on.
