

# TST FFS10

## manual radio transmitter 433 MHz - AM

**TST FFS10-B**      **10- channel transmitter**

Remote-controlled opening and closing of industrial doors and barriers

### Special features:

- remote control radio transmitters in compact case
- frequency range AM 433 MHz
- LED display

#### Technical data

dimensions:	W x H x D: 130 x 60 x 23 mm
Mains voltage:	9V block battery
Current consumption:	approx. 35 mA
Operating frequency:	433,920 MHz
Modulation method.	AM
degree of modulation:	min. 95%
Transmission power:	typical <10 mW

*This device complies with part 15 of the FCC Rules.*

*Operation is subject to the following two conditions:*

- (1) This device may not cause harmful interference, and*
- (2) this device must accept any interference received, including interference that may cause undesired operation.*

*Changes or modifications not expressly approved by the party responsible for compliance could avoid the user's authority to operate the equipment.*

**FCC ID: QV2-SMD-53200TXX**

#### Construction:

**main frequency selection  
(DIP switches, inside):**

**channel selection  
(selector switch, outside):**
