Technical Data

Bluetooth Version	2.1+EDR	Frequency response	80Hz to 18KHz
Output power	4.5W	Maximum SPL	86dB
Impedance	4 Ω	Net weight	195g
Dimension	L86*W34.5*H86mm	Charging time	2~3 hours
Battery	Li-ion battery 3.7V 1200mAh	Play time	7 hours (default volume)

Important Safety Instructions

- Study this user guide carefully before using this speaker
- Keep speaker away from high temperatures. Do not leave it in the sun
(Heat degrades battery life span) Keep away from open flames
- Do not expose speaker to liquids or moisture
- Refrain from destroying, modifying, dropping, or throwing speaker
- Always check for power compatibility before charging
- Loud music may impact hearing loss
- Disassembling the speaker will void warranty for speaker
- At the end of the speaker's lifecycle and warranty period, properly discard speaker according to state law
- Do not store speaker for over a month without usage. We suggest charging the battery from low power to full once a month to preserve battery life

FCC Caution:

This device complies with part 15 of the FCC Rules. Operation is subject to the condition that this device does not cause harmful interference (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
