

1. IMPORTANT INFORMATION

1.1 Bumper Cars Battery Installation

- Turn the Bumper Cars over so that you can gain access to the underside of the vehicle.
- Making sure that the Power switch is in the OFF position, remove the screw from the battery cover and remove the battery compartment cover.
- Insert 3x AAA batteries (supplied) into the battery compartment observing the correct polarity as indicated.
- Re-fit the battery cover and secure with the screw.

(Warning - Remove the batteries if the Bumper Car is not going to be used for a long time.)

1.2 Remote Battery Installation

- The battery compartment is located on the underside of the controller.
- Remove the screw from the battery cover and remove the battery compartment cover.
- Insert 2 AA batteries (supplied) into the battery compartment observing the correct polarity as shown.
- Re-fit the battery cover and secure with the screw.

WARNING

Do not mix old and new batteries.

Keep batteries away from small children.

Do not short-circuit batteries or dispose of in a fire.
Remove the batteries if the Bumper Car is not going to be used for a long time.

2. OPERATING INSTRUCTIONS

2.1 Controlling the Bumper Cars

- Load the batteries in the controller and Bumper Cars.
- Switch on the power of the controller and Bumper Cars.

- Press the Left Stick on the controller Forward/Backwards.
- The Bumper Car will move Forward/ Backwards.

- Whilst pressing Forward on the controller, press the right stick Left/ Right.
- The Bumper Car will turn Left/Right in a forward direction.

2.2 Controlling the Bumper Cars Continued

- Whilst pressing Backwards on the controller, press the right stick Left/ Right.
- The Bumper Car will turn Left/Right in a Backwards direction.

- Hitting the buttons on the side of the Bumper Cars will cause the driver to be ejected out of the Bumper Car.

- With 2 Bumper Cars being controlled the aim is to strike the opposition bumper Car until the driver is ejected.
- The Bumper Car with the driver still remaining in the seat is the winner.

2.3 Adjusting the Directional Movement

- It may be necessary to fine tune the steering via the steering adjustment control, located on the underside of the Bumper Cars.
- If while travelling in a straight line you find that the Bumper Car strays to the left or right, then you will need to adjust the steering control to correct this issue.
- It is best to make several small adjustments to the steering this allows for an accurate adjustment of the steering.
- If the Bumper Car strays to the left, then you will need to move the steering adjustment to the right (R).
- If the Bumper Car strays to the right, then you will need to move the steering adjustment to the left (L).

Steering Adjustment Control

2.4 Troubleshooting

If you are experiencing problems with your Bumper Cars, here are some quick and easy checks that you can carry out, which may help to resolve the problem.

No Response from the Bumper Car:

- Please ensure that the Bumper Car is in range of the controller and that there are no obstructions between the controller and the Bumper Car which could block the signal.
- Make sure that the batteries in the Controller are fitted correctly and that they have not reached the end of their life. If required replace the batteries in the controller.
- Make sure that the batteries in the Bumper Cars are fitted correctly. If required replace the batteries in the Bumper Cars.
- Please ensure that the power switch on the Bumper Car and Controller is switched to 'ON'.

The Bumper Car does not travel straight:

- Please adjust the steering using the steering adjustment control located on the underside of the Bumper Car.

The Bumper Car Starts to Run Slow:

- The batteries in the Bumper Car are running low, please insert new batteries.

3. WARRANTY

3.1 Warranty Information

What is Covered:

This warranty covers any defects in materials or workmanship, with the exceptions stated below.

How Long Coverage Lasts:

This warranty runs for 1 Year from the date your Bump 'n' Eject Bumper Car is delivered.

What is not covered:

Any problem that is caused by abuse, misuse, or an act of God (such as a flood) are not covered.

What We Will Do:

If the Product proves defective during the warranty period, we will provide you with the instructions for the return, and we will take one of the following actions: (i) replace the Product with a product that is the same or equivalent to the Product you purchased; (ii) repair the Product; or (iii) refund to you the whole of or part of the purchase price of the Product.

How To Get Service:

To obtain instructions on how to obtain service under this warranty, contact our customer service by phone or email. You will find the contact details of our customer service below. Customer service may ask you questions to determine your eligibility under this warranty, and if you are eligible you'll be given instructions for returning the defective Product. If we send you a replacement or repair your Product, we will pay the cost of delivering the replacement or repaired Product to you.

Do not return the item to the original place of purchase, please contact Think Gizmos direct.

Federal Communications Commission (FCC) Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning: Changes or modifications made to this device not expressly approved by STORMFORWARD RETAIL LTD may void the FCC authorization to operate this device.

Note: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.
