

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance may void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not properly installed and used, may cause interference to radio communications. It may also receive interference from radio communications devices. Frequent or excessive use of this equipment may cause interference to radio communications. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures: reorient or relocate the receiving antenna; increase the separation between the equipment and the receiver; move the equipment into another room or connect it to an outlet on a circuit different from that to which the receiver is connected; or consult the dealer or an experienced radio/TV technician for help.

RF Warning for Portable device:

RF radiation can cause a radio interference problem if you use equipment near a radio receiver. To reduce the risk of radio interference, do not use the equipment near a radio receiver.

RF warning for Portable device:
The device has been evaluated to meet general RF exposure requirements.
The device can be used in portable exposure conditions without restriction.
