

WARNING

SAGEM TEST TOOLS PRODUCT LINE OT 1xx

This product has specific features for network and radio testing.

It has been developed for people who know the radio aspect, the GSM environment. The knowledge of security rules and protections applicable to a radio product are required before using these test tools.

This product passed the necessary tests for use on a GSM network. In case of exchange of any original component, SAGEM SA will not be responsible if any characteristics are modified.

In this case, a new agreement and/or test approval could be necessary, SAGEM SA advises its customers to check with their local regulation administration.
