8. To stop recording, press the [Record/Stop] button again.

[Note]

- ❖ The quality of an input signal recorded through the Line input terminal cannot be guaranteed unless it comes from digital devices (DVD, DVC, etc.).

Miscellaneous Information : Printing Photos

Printing with DPOF

DPOF (Digital Printing Order Format) defines the print information for each photo on the memory card. You can easily make prints using a DPOF-compatible printer or order copies from commercial digital image developers.

Printing DPOF files in the memory card

1. Set the DPOF information for the photo you want to print. ➡page 72
2. Insert a memory card into the DPOF- supporting printer.
3. Follow the steps of the printer to print out photos.

[Notes]

- ❖ For further details about printing photos, refer to the user's manual of the printer.
- ❖ Printing may not be performed depending on types of printers.
In this case, download JPEG files directly to the PC and print them.

Maintenance : Cleaning and Maintaining the Sports Camcorder

After using the Sports Camcorder

- ✦ **For safekeeping of the Sports Camcorder, follow these steps.**
 - ✓ Turn the Sports Camcorder off.
 - ✓ Remove the Battery Pack ➡ page 22.
 - ✓ Remove the Memory Card ➡ page 34.
- ✦ **To prevent any damage to the LCD monitor, do not apply excessive force on its moving parts.**
- ✦ **Do not drop or in anyway shock the Sports Camcorder.**
- ✦ **For prolonged use of the Sports Camcorder, avoid using it in places subject to excessive humidity or dust.**
- ✦ **Do not leave the Sports Camcorder in places subject to:**
 - ✓ Excessive humidity, steam, soot or dust.
 - ✓ Excessive shock or vibration.
 - ✓ Extremely high (over 50°C or 122°F) or extremely low (under 0°C or 32°F) temperatures.
 - ✓ Strong electromagnetic fields.
 - ✓ Direct sunlight or in a closed car on a hot day.
- ✦ **For the safe use of the Battery Pack, follow these.**
 - ✓ To conserve battery power, be sure to turn off the Sports Camcorder when not in use.
 - ✓ Battery consumption may vary depending on the condition of use. Recording with many starts and stops, frequent zooming, and recording in low temperatures will shorten actual recording times.
 - ✓ Dispose of used Battery Packs promptly. Do not dispose of them in fire.
 - ✓ The Battery Pack will become warm during charging and use. This is not a malfunction.
 - ✓ The Battery Pack has a limited service life. If the period of use becomes noticeably shorter with a normal charge, the Battery Pack is at the end of its service life. Replace it with a new Battery Pack.
- ✦ **For the safe use of the Memory Card, follow these.**
 - ✓ The Memory Card should be stored away from heaters and other heat sources. Avoid storing Memory Cards under direct sunlight and avoid electromagnetic fields.
 - ✓ Do not power off any devices while transferring data, as this may destroy the data.
 - ✓ Back up your image data often to a hard disk or other permanent storage media.
 - ✓ Format the Memory Card periodically.
 - ✓ When formatting the Memory Card, format in the Sports Camcorder.

Maintenance : Cleaning and Maintaining the Sports Camcorder

Cleaning the Body

✧ To Clean the Exterior of the Sports Camcorder

- ✓ To clean the exterior, use a soft dry cloth. Wipe the body gently.
Do not apply excessive force when cleaning, gently rub the surface.
- ✓ The LCD monitor surface should not be pressed. Use a soft dry cloth to clean the surface.
- ✓ To clean the lens, use an optional air blower to blow out dirt and other small objects. Do not wipe the lens with cloth or your fingers. If necessary, use lens cleaning paper.
- ✓ Do not use thinner, alcohol or benzene for cleaning. Otherwise, the finish may be damaged.
- ✓ Cleaning should be done only after the Battery Pack has been removed, and other power sources have been disconnected.

[Note]

- ✧ If the lens looks dimmer, turn off the Sports Camcorder and leave it for about 1 hour.

Using the Built-in Rechargeable Battery

The Sports Camcorder incorporates a rechargeable lithium cell that maintains the date and other settings even when the AC Power Adapter and the battery are removed. The rechargeable lithium cell is automatically recharged when the Sports Camcorder is used.

Charging the Built-in Rechargeable Battery

- ✧ If the Sports Camcorder is not used at all, the cell runs down in 5 days. In this case, connect the AC Power Adapter to the Sports Camcorder and press the [POWER] button to turn on the Sports Camcorder. Then leave it for 24 hours.
After that, set the date and other settings again.

Maintenance : Cleaning and Maintaining the Sports Camcorder

Regarding the Battery

- Battery pack performance decreases when the surrounding temperature is 10°C (50°F) or below, and shortens the battery life. In that case, do one of the following so that the durability of the battery life can be extended for a longer period of time.
 - Put the Battery Pack in a pocket to warm it up, and insert it in your Sports Camcorder immediately prior to use.
 - Use a large capacity Battery Pack.
- Be sure to set the power button to off when not recording or playing back. The battery power is also consumed in standby, play back and pause mode.
- Have your Battery Packs ready for two or three times the expected recording time, and make trial recordings before making the actual recording.
- Do not expose the Battery Pack to water. The Battery Pack is not water resistant.
- Keep the battery out of reach of children. If it is swallowed, seek medical assistance immediately.
- Wipe the battery with a clean dry cloth to ensure proper contact.
- Do not pick up the battery using metal tools as this may cause a short circuit.
- Do not short the battery or dispose of the battery in fire. Do not disassemble the battery. The battery could explode or catch fire.
- Use only recommended batteries and accessories. Use of batteries not expressly recommended for this equipment may cause an explosion or leakage, resulting in fire, injury or damage to the surroundings.
- Install the battery according to the instructions. Improperly installed batteries can cause damage to the sports camcorder.
- When you do not use for a long time, remove the Battery Pack. Otherwise, the battery may leak. To avoid damage to the product, be sure to remove the battery when no charge remains.

Maintenance : Cleaning and Maintaining the Sports Camcorder

Using the Sports Camcorder Abroad

- ✦ Each country or region has its own electric and color systems. (NTSC/PAL)
- ✦ Before using the Sports Camcorder abroad, check the following items:

Power Sources

- ✦ You can use the Sports Camcorder in any country or area with the supplied AC Power Adapter where the power input range is 100V - 240V, 50/60Hz.
- ✦ Use a commercially available AC plug adapter if necessary, depending on the design of the local wall outlets.

Color System

- ✦ You can view your video files using the built-in LCD monitor.
However, to view your recordings on a television set or to copy them to a video cassette recorder (VCR), the television set or the VCR must be NTSC-compatible and have the appropriate Audio / Video ports. Otherwise, you may need to use a separate Video Format Transcoder (NTSC-PAL format Converter).

PAL-Compatible Countries / Regions

Australia, Austria, Belgium, Bulgaria, China, CIS, Czech Republic, Denmark, Egypt, Finland, France, Germany, Greece, Great Britain, Holland, Hong Kong, Hungary, India, Iran, Iraq, Kuwait, Libya, Malaysia, Mauritius, Norway, Romania, Saudi Arabia, Singapore, Slovak Republic, Spain, Sweden, Switzerland, Syria, Thailand, Tunisia, etc.

NTSC-Compatible Countries / Regions
