SAMSUNG

Activity Tracker

This device is compatible with Samsung mobile devices that have Android version 4.3 or later.

- Please read this manual before using the device to ensure safe and proper use.
- Descriptions are based on the device's default settings.
- This manual's images and content may differ from the product.
- Some content may differ from your device depending on the software version, and is subject to change without prior notice.
- This product is intended for recreational use only. This device and related software is not intended for use in the diagnosis of disease or other conditions, or in the cure, mitigation, treatment, or prevention of disease or any other medical purposes. Content found from the product and the application are for informational purposes only and is not intended to replace the relationship between you and your physician or other medical provider. Never disregard professional medical advice or delay in seeking it because of something you have learned through the product.
- Keep this device out of reach of young children.

1

Getting started

Package contents

Check the product box for the following items. The supplied items may vary depending on the region.

- Activity tracker, band, clip, USB cable, and user manual

Overview

Indicator lights

Confirm button

Notification light

Slide button

Charging jack

2

Charging the device

Charge the device before using it for the first time, or when the device has been unused for an extended period. Detach the device from the band or the clip before charging. During charging, you cannot use the device's functions.

1   Plug the small end of the USB cable into the charging jack of the device, and then plug the large end of the USB cable to a computer or a charger.

2   When fully charged, disconnect the device from the USB cable.

> In the following cases, charge the device before use:
> • Notification light flashes red and the alarm sounds.
> • When pressing the Confirm button, the notification light flashes red.

> ⚠ Use only Samsung-approved chargers, batteries, and cables. Unapproved chargers or cables can cause the battery to explode or damage the device.

3

Charging and using time

Charging time	Approximately 2 hours
Using time	Approximately 3–5 days

Checking the battery status

Battery status	Indicator lights
1–20%	☀ ○ ○ ○ ○
21–40%	◉ ☀ ○ ○ ○
41–60%	◉ ◉ ☀ ○ ○
61–80%	◉ ◉ ◉ ☀ ○
81–99%	◉ ◉ ◉ ◉ ☀
100%	◉ ◉ ◉ ◉ ◉

- Use the device after charging the battery more than 60%.
- Charging time and using time may differ depending on the battery status and the conditions that the device is used in.

4

2014-02-25   오후 6:04:

> • Check the charging status by the colour of the notification light.
>   − Red: Charging error
>   − Green: Charging complete
> • To save energy, unplug the charger when not in use. The charger does not have a power switch, so you must unplug the charger from the electric socket when not in use to avoid wasting power. The charger should remain close to the electric socket and easily accessible while charging.

Attaching or detaching the device

Attach or detach the device to the band or the clip.

Attaching the device

Align the Slide button to the band or the clip's slot, and then press the other side to firmly install it. ✎ should be on the top of the device.

Detaching the device

From the band

Twist the slot of the band to protrude the device.
Then, pull the device from the slot.

From the clip

Twist the slot of the clip to protrude the device.
Then, pull the device from the slot.

> Do not pull or stretch out the band or clip
> excessively. Doing so may damage the
> band or clip.

Pairing and connecting with a mobile device

To use the device, you may need to install the
Activity tracker application on your mobile device.
Use **Samsung Apps** or **Play Store** to install the
Activity tracker.

1 On the mobile device, launch the
Activity tracker application.

2 Tap **Next**.

3 Check the help screen and tap **Close**.

4 Enter the profile and tap **Next**.

5 Press and hold the Confirm button on the device for two seconds to enter Pairing mode. The indicator lights flash for approximately 30 seconds.

6 On the mobile device, tap **Scan**.

7 Tap **Activity tracker** on the search list. When connected, the notification light flashes blue three times.

- Make sure to activate the mobile device's Bluetooth feature.

- After initial pairing, the device automatically connects with the mobile device when they are within the Bluetooth connection range.

- Data stored on the device can be checked from the mobile device.

- Data stored on the device will be reset if the date and time are changed on the mobile device.

- More compatible applications may be available at *www.samsung.com*.

Basics

Check your physical activities and daily deep sleep ratio. You can also get notifications of incoming calls or messages, or set an alarm to prevent from losing your devices. Refer to the help screen on the **Activity tracker** application.

Activity

Move the Slide button to 🏃. The indicator lights flash from left to right.

Activity log

Check various information, such as distance, burned calories, steps per hour, and record. You can check the achievement by pressing the Confirm button on the device.

Achievement	Indicator lights
1–20%	🔆 ○ ○ ○ ○
21–40%	● 🔆 ○ ○ ○
41–60%	● ● 🔆 ○ ○
61–80%	● ● ● 🔆 ○
81–99%	● ● ● ● 🔆
100%	● ● ● ● ●

Challenges

Set up a goal, such as time, distance, or calories to burn.

Sleep

Move the slide button to ☾. The indicator lights flash from right to left.

Sleep log

The motion sensor on your product tracks your movement overnight including when you are awake, tossing and turning in bed, to categorize such movement as deep sleep or light sleep.

> For purposes of this product, deep sleep means the product has tracked minimum movement while you were sleeping. Light sleep means the product has tracked noticeable movement while you were sleeping. Based on such tracking of movements, the product will show the deep sleep ratio by calculating: (total deep sleep time/total sleeping time)*100. The above terms and its definition may not comply with your normal usage of such terms. Please read carefully the definition of the terms above.

9

Alerts

To use the notification feature, set the desired feature from the **Activity tracker** application.

Loss prevention

Connection lost alert

When the device and the mobile device become separated, the lights flash and the alarm sounds. To stop the alarm, press the Confirm button on the device.

Press and hold the Confirm button for approximately 12.5 seconds. The alarm sounds and the device will be reset.

Safety information

To prevent injury to yourself and others or damage to your device, read the safety information about your device before using the device

Handle and dispose of the device with care

• Never crush or puncture the device.
• Avoid exposing the device to high external pressure, which can lead to an internal short circuit and overheating.
• Do not store or carry flammable liquids, gases, or explosive materials in the same compartment as the device.
• Store your device only on flat, vibrationless surfaces.

When using the device, mind the following:

• Humidity and liquids may damage parts or electronic circuits.
• Do not store the device in hot areas. High temperature may cause damage to the device or shorten battery life.
• Do not drop the device or cause impacts to it.

Do not store your device near or in heaters, microwaves, hot cooking equipment, or high pressure containers

• The battery may leak.
• Your device may overheat and cause a fire.
