Read me first!

When you need information, instructions, and tips to learn more about your device, you have several options available:

- **Windows Help System** (on your device) - your device includes Windows Mobile Help, which you can access by tapping **Menu > Help**. This embedded, searchable help system explains how to use various Microsoft programs and features.
- **Extended Usage Guide** (online) - on the Samsung website, you will find the Extended Usage Guide in Adobe Acrobat (.pdf) format. You can either view the guide online or download and print the file for your convenience. The Extended Usage Guide contains advanced usage tips and more details about particular functions of your device. To view the file, you must have Adobe Reader or Adobe Acrobat installed-you can download Adobe Reader free from Adobe's website (www.adobe.com).
- **User Manual** (printed) - this user manual has been specially designed to guide you through the functions and features of your device. It contains extensive information about Samsung software and features and tips for using and maintaining the device. For any topics not covered in this manual, please refer to the embedded help as described above.

Instructional Icons

Before you start, familiarise yourself with the icons you will see in this manual:

Warning – situations that could cause injury to yourself or others

Caution – situations that could cause damage to your device or other equipment

Note – notes, usage tips, or additional information

Refer to – pages with related information;
for example: ► p. 12 (represents "see page 12")

Followed by – the order of options or menus you must select to perform a step; for example: Tap **Start** > **Messaging** (represents **Start**, followed by **Messaging**)

Square brackets – device keys; for example: [⏻] (represents the End/Power key)

Assemble and prepare your device

Before you can use your device, you must install the SIM or USIM card, install the battery, and charge the battery. Installing a SIM or USIM card is optional, but may be required to fully utilise some applications and store media files.

Insert the SIM or USIM card and battery

1 Remove the battery cover.

2 Insert the SIM or USIM card.

 Insert the SIM or USIM card with the gold-coloured contacts facing the device.

3 Insert the battery.

4 Replace the battery cover.

Charge battery

- 1 Open the cover to the multifunction jack on the top of the device.
 - 2 Plug the small end of the travel adapter into the device.
 - 3 Plug the large end of the travel adapter into a power outlet.
 - 4 When charging is finished, unplug the travel adapter from the power outlet.
 - 5 Remove the travel adapter from the device.
-  Although a charger cable is connected,
- The battery may not charge in some situations to protect the device.
 - The battery level may remain low if the device is using a large amount of power.

Insert a memory card (optional)

By inserting a memory card, you can store multimedia files and messages or back up your important information. Your device accepts microSD™, memory cards up to x GB (depending on memory card manufacturer and type).

- 1 Remove the battery cover.
- 2 Insert a memory card with the label side facing up.
- 3 Replace the battery cover.

Attach a hand strap (optional)

- 1 Remove the battery cover.
- 2 Slide a hand strap through the slot and hook it over the small projection.

Turn on your device for first time

- 1 Press and hold [⏻] to turn on your device.
- 2 Follow the on-screen instructions. Your device will automatically connect to the cellular network.

Activate Sleep mode

You can activate Sleep mode to save power when you do not use your device.

To activate Sleep mode, press the Hold key. Your device will turn off the screen. To deactivate Sleep mode, press the Hold key again.

Lock external keys and touch screen

You can lock the external keys and the touch screen to prevent any unwanted device operations from accidentally pressing any of the keys and the screen.

To lock the keys and the screen, press and hold the Hold key.

To unlock, drag your finger or stylus from the top right corner of the screen to the bottom left corner of the screen.

Use the touch screen

You can perform the following actions on your device's touch screen:

-  For the optional use of the touch screen remove the screen protection film before using your device.
- Tap: Touch the screen once to select commands or launch applications.
- Tap-and-hold: Tap and hold an item to see a list of available actions. Tap the action you want to perform on the pop-up menu.

- Drag: Tap-and-hold a scroll bar or text and then drag it to move the bar or select text.

 If your device does not respond accurately to your screen taps, realign your touch screen. To realign the screen, tap **Start > Settings > System tab > Screen > Align > Align screen**.

Disable wireless functions

- 1 Tap **Start > Settings**.
- 2 On the **Connection** tab, tap **Wireless Manager**.
- 3 Tap **On** next to **Phone**.
 - Your device will show  on the Today screen.

To enable wireless functions, repeat steps 1-3 above.

Reset the device

If your device freezes or hangs, you may need to close programs or reset the device to regain functionality. If your device is still responsive but a program is frozen, close the program via Task Manager. ► p. 76

If your device is frozen and unresponsive, use a small object, such as a toothpick, to press the reset button.

Customise your device

Learn to change themes and background images, add or remove items, and adjust the system volume from the Today screen.

Change your theme or background image

- 1 Tap **Start > Settings**.
- 2 On the **Personal** tab, tap **Display**.
- 3 Tap **Theme** or **Wallpaper** and select the desired option to customise the display.
- 4 When you are finished, tap **ok**.

Add or remove items on the Today screen

- 1 Tap **Start > Settings**.
- 2 On the **Personal** tab, tap **Display**.

- 3 Tap **Items on Today**.
- 4 Tap **Menu > Edit**.
- 5 Tap the check boxes next to each item to add or remove items.
 -  Some items are not compatible with Samsung widgets. If you choose to add **Samsung WidgetPlus**, the only other items that will work simultaneously are **Windows Live** and **Windows Live Search**.
- 6 Tap **Done**.
- 7 When you are finished, tap **Done**.

Adjust the system volume

To adjust the system volume, press the Volume key up or down.

Activate Etiquette pause

You can temporarily pause the music player or mute event alarms by placing the device face down when Etiquette pause is activated. To activate Etiquette pause,

- 1 Tap **Start > Settings**.
- 2 On the **System** tab, tap **Motion Sensor > Etiquette**.
- 3 Tap **Off** next to **Enable etiquette pause**.
- 4 Tap **Done** or **ok**.

Use Widgets

Use widgets on the Today screen. Widgets are user friendly shortcuts to commonly used applications allowing you to customise the Today screen.

Open the toolbar

Tap the arrow at the bottom left of the Today screen to open the toolbar. You can rearrange widgets on the toolbar or move them to the Today screen.

Depending on your region or service provider, available widgets may vary.

Widget	Function
	View the current day and date
	View the current time
	View the current time
	View the time in other cities or countries

Widget	Function
	View the calendar
	View or set an countdown timer
	Receive notifications when you have new messages or missed calls
	Browse your photos and set a photo as the wallpaper
	Listen to music via the mini player
	Listen to the FM radio
	Monitor your wireless connections
	Change the current sound profile
	Create and view smart memos
	Create and listen to audio notes
	Add application shortcuts to the Today screen
	View the network connection status

Widget	Function
	Get the latest weather updates from AccuWeather*
	Get news updates from CNN*
	Search the web with Google*
	Get updates from Yahoo! Finance*
	Search the web with Yahoo!*

* These widgets require a connection to the internet, which may result in additional charges.

Move the widgets to the Today screen

- 1 Tap the arrow at the bottom left of the Today screen to open the widget toolbar.
- 2 Touch and drag a widget from the toolbar to the Today screen. You can position the widget anywhere on the screen.

Customise widgets

- 1 Tap the arrow at the bottom left of the Today screen to open the widget toolbar.
- 2 Tap  at the top of the toolbar.
- 3 Tap the check boxes next to items that you want to appear on the Today screen.
- 4 When you are finished, tap **Done**.

Communication

Working with contacts

Learn to use contact cards and groups to store personal information, such as names, phone numbers, and addresses.

Create a new Outlook or SIM contact card

- 1 Tap **Start** > **Phonebook** > **New** > **Save to outlook** or **Save to SIM**.
- 2 Enter contact information.
- 3 When you are finished entering information, tap **Done** or **ok** to save the contact card.

Search for a contact card

- 1 Tap **Start** > **Phonebook**.
- 2 Tap .

- 3 Tap a few letters of the contact's name.
 - As you enter letters, the screen will show contacts that match your input.
- 4 Tap a contact to open it.

Copy or move contact cards

To copy or move contact cards from your device's memory to a SIM or USIM card and vice versa,

- 1 Tap **Start > Phonebook**.
- 2 To copy contacts, tap **Menu > Copy >** a copy option. Refer to step 4.
- 3 To move contacts, tap **Menu > Move >** a move option.
- 4 Tap the check boxes next to the contacts that you want to copy or move.
- 5 Tap **Done**.

Organise your contacts into categories

- 1 Tap **Start** > **Phonebook**.
- 2 Tap a contact.
- 3 Tap **Edit**.
- 4 Scroll down and tap the categories field.
- 5 Tap the check boxes next to the desired categories.
- 6 Tap **Done**.
- 7 Tap **Done** to save the contact card.

Assign a speed dial number to a contact card

To assign a speed dial number to one of your contacts,

- 1 Tap **Start** > **Phonebook**.
- 2 Tap .
- 3 Tap **New** and select a contact.
- 4 Select the contact's phone number to use for speed dialling.
- 5 Select a speed dial location.

Assign an image to a contact card

- 1 Tap **Start** > **Phonebook**.
- 2 Tap a contact.
- 3 Tap **Edit**.
- 4 Tap the picture icon at the top left of the contact card.
- 5 Tap **Take a new picture** or **Select a picture in photo Al...**
- 6 Tap a thumbnail to select an image or capture a photo.
- 7 Tap **Done** to save the contact card.

Assign a ringtone to a contact card

- 1 Tap **Start** > **Phonebook**.
- 2 Tap a contact.
- 3 Tap **Edit**.
- 4 Scroll down and tap **Add field**.
- 5 Scroll down and tap the ringtone field.
- 6 Select a ringtone.
- 7 Tap **Done**.
- 8 Tap **Done** to save the contact card.

Calling

Learn to make and receive calls, reject calls, and adjust the call volume.

Make a call

- 1 Press [📞].
- 2 Enter an area code and phone number.
- 3 Tap  or press [📞].
 - For a video call, tap **Menu > Video Call**.
- 4 To end the call, press [📞].

Make a call from Phonebook

- 1 Tap **Start > Phonebook**.
- 2 Tap a contact.
- 3 Tap the number you want to dial.

Make a call from the Call Log

- 1 Tap **Start** > **Main Menu** > **Call Log** (1/5).
- 2 Select one of the following filters for your call log results:

Icon	Function
	All calls
	Incoming calls
	Outgoing calls
	Missed calls

- 3 Tap an entry in the call log.
- 4 Tap the number you want to dial.

Answer a call

- 1 Press [].
- 2 For a video call, tap **Show me** to allow the caller to see you.
- 3 To end the call, press [].

Reject a call

Press . When you reject a call, the caller will hear a busy tone.

Adjust the call volume

To adjust the call volume, press the Volume key up or down during a call.

Call an international number

- 1 Press .
- 2 Tap **Keypad** (if necessary).
- 3 Tap and hold  to insert the + character (this replaces the international access code).
- 4 Tap the number keys to enter the complete number you want to dial (country code, area code, and phone number), and then tap  or press  to dial.
- 5 To end the call, press .

Enter text

When you need to enter text, tap the default input panel icon () at the bottom of the screen. Tap the arrow next to the icon and select one of the following input methods for entering text:

- Block Recognizer
- Keyboard
- Letter Recognizer
- Samsung Keypad
- Transcriber

You can tap the input panel icon at any time to show or hide the input panel.

Enter text with Block Recognizer

Write individual letters and numbers in the writing area in the Palm Graffiti style.

- 1 Tap the input panel icon.
 - 2 Tap the arrow next to the input panel icon and select **Block Recognizer**.
 - 3 Write each character in the writing area at the bottom of the screen:
 - Write letters on the left side of the writing area.
 - Write numbers on the right side of the writing area.
-  Drag your finger upward to change the case (**ABC**, **Abc**, or **abc**). Tap once on the screen to enter symbols (**123** or **abc** will change to the  icon). To view demonstrations of how to enter characters, refer to the embedded help system.

Enter text with the keyboard

- 1 Tap the input panel icon.
- 2 Tap the arrow next to the input panel icon and select **Keyboard**.
- 3 Tap characters to enter your text:
 - To switch to numbers and symbols, tap .
 - To access special characters, tap .

Enter text with Letter Recognizer

Write individual letters and numbers on the touch screen.

- 1 Tap the input panel icon.
 - 2 Tap the arrow next to the input panel icon and select **Letter Recognizer**.
 - 3 Write each character in the writing area at the bottom of the screen:
 - Write upper-case letters in the **ABC** column on the left side of the writing area.
 - Write lower-case letters in the **abc** column in the middle of the writing area.
 - Write numbers and symbols in the **123** column on the right side of the writing area.
-  To view demonstrations of how to write characters, refer to the embedded help system.

Enter text with Samsung Keypad

- 1 Tap the input panel icon.
- 2 Tap the arrow next to the input panel icon and select **Samsung Keypad**.
- 3 Tap characters to enter your text:
 - To enter the text in T9 mode, tap **XT9**. The dot by **XT9** turns green. Tap the appropriate keys to enter an entire word.
 - To enter the text in ABC mode, tap **XT9**. The dot by **XT9** turns off. Tap the appropriate key to enter a character.
 - To enter numbers, tap and hold the appropriate key to enter a number.
 - To enter symbols, tap and hold the appropriate key to enter a symbol.

Enter text with Transcriber

With Transcriber, you can write anywhere on the screen. Unlike Letter Recognizer or Block Recognizer, you can use cursive (joined-up) handwriting to write complete words.

- 1 Tap the input panel icon.
- 2 Tap the arrow next to the input panel icon and select **Transcriber**.
- 3 Write legibly anywhere on the screen.
- 4 Pause and allow Transcriber to convert your writing to text.

You can access the following tools from the Transcriber toolbar:

Tap	To
	Change Transcriber options
	View demonstrations of how to write characters
	Open the list of punctuation marks, symbols, and numbers
	Change the input mode to A , a , or 123
	Insert a space
	Start a new line
	Move the cursor to the left
	Move the cursor to the right
	Clear your input
	Open the embedded help

Messaging

Learn to use messaging functions. For instructions on entering text, see the previous section.

Send a text message

- 1 Tap **Start > Messaging**.
- 2 Tap **SMS/MMS**.
- 3 Tap any of the folders under the **SMS/MMS** heading.
- 4 Tap .
- 5 Enter a contact name in the To field or tap **Menu > View Recipient List > ** to search for contacts.
 - When searching for contacts, you can either leave the To field blank or enter a few letters of your contact's name to narrow your search.
- 6 Tap the message field and enter your message text.
- 7 Tap **Send** to send the message.

Send a multimedia message

- 1 Tap **Start > Messaging**.
- 2 Tap **SMS/MMS**.
- 3 Tap any of the folders under the **SMS/MMS** heading.
- 4 Tap .
- 5 Enter a contact name in the To field or tap **Menu > View Recipient List > ** to search for contacts.
 - When searching for contacts, you can either leave the To field blank or enter a few letters of your contact's name to narrow your search.
- 6 Tap the message field and enter your message text.
- 7 Tap **Menu > Toolbar** (if necessary).
- 8 Tap one of the following icons to add an attachment:

Tap	To
	Attach a photo
	Attach a music file

Tap	To
	Attach a video
	Capture and attach a photo
	Record and attach a voice memo
	Record and attach a video

9 Tap **Menu > Attach** > an option to attach other types of files (if necessary).

10 Tap **Send** to send the message.

Send an email message

1 Tap **Start > Messaging**.

2 Tap the name of an email account.

3 Tap any of the folders under the email account heading.

4 Tap .

5 Enter the recipient's address in the To field or tap **Menu > Add Recipient...** to select a contact.

- 6 Tap the subject field and enter a message subject.
- 7 Tap the message field and enter your message text.
- 8 To add an attachment, tap **Menu > Attach** > an attachment type.
- 9 Tap **Send** to send the message.

View messages

You can access message folders for all your messaging accounts (email, SMS, and MMS) in one location.

To view messages,

- 1 Tap **Start > Messaging**.
- 2 Tap the name of an account (**SMS/MMS** or one of the email accounts).
- 3 Tap **Inbox**.
- 4 Tap a message to view it.

Multimedia

Learn to capture photos and videos, listen to music, and take advantage of your device's multimedia features.

Camera

Your device allows you to take digital photos (jpg format) or record videos (3gp format).

Capture a photo

- 1 Press and hold the Camera key.
- 2 Rotate the device anti-clockwise to the landscape orientation.

 The camera interface appears only in the landscape orientation.

- 3 Aim the lens at the subject and make any adjustments.
▶ p. 53
- 4 Press the Camera key to capture the photo.
- 5 Tap **ok** to save the photo and return to the viewfinder.

View a photo

- 1 From the viewfinder, tap .
- 2 Scroll to the photo you want.

Adjust Camera modes and settings

From the viewfinder, tap an icon and then tap a mode or setting.

Icon	Function
	Mode (switch to camcorder)
	Change the shooting mode: <ul style="list-style-type: none">• : Single shot• : Continuous shooting• : Mosaic shot• : Panoramic shot• : Smile shot

Capture photos in Smile shot mode

- 1 Press and hold the Camera key.
- 2 Rotate the device anti-clockwise to the landscape orientation.
- 3 Tap  > .

- 4 Aim the camera lens at your subject and press the Camera key.
- The device recognises faces in an image and detects when your subjects smile. When all your subjects are smiling, the camera will automatically capture the photo.

-  In some cases, you may have to disable smile shot to capture a photo of your subject, even if he or she is smiling.

Capture panoramic photos

- 1 Press and hold the Camera key.
- 2 Rotate the device anti-clockwise to the landscape orientation.
- 3 Tap  > .
- 4 Aim the camera lens at your subject and press the Camera key to capture the first shot.
- 5 Slowly move the device to a direction. The device captures the next photo automatically.
- 6 Repeat step 5 to capture the rest of the shots. When you are captured three shots, the camera will automatically combine them into one panoramic photo.

Create a photo mosaic

- 1 Press and hold the Camera key.
- 2 Rotate the device anti-clockwise to the landscape orientation.
- 3 Tap  > .
- 4 Select a mosaic type.
- 5 Aim the camera lens at your subject and press the Camera key to capture the first shot.
- 6 Repeat step 5 to capture the rest of the shots. When you are captured all the shots necessary for the mosaic, the camera will automatically combined them into one photo.

Touch Player

Your device is equipped with Touch Player, as well as Windows Media Player. The procedures that follow explain how to use Touch Player. For information about Windows Media Player, refer to embedded help system.

[Add music files to your device](#)

Use any of the following methods to add music files to your device:

- Copy files to a memory card and insert the card into the device ► p. 19
- Download files from the wireless web (refer to the embedded help system)
- Receive via Bluetooth ► p. 120
- Synchronise with ActiveSync® ► p. 79

Update the library

- 1 Tap **Start** > **Main Menu** > **Touch Player** (1/5).
- 2 Tap **Menu** > **Update**.
- 3 Tap **Search** to locate and add new files to the Touch Player library.
- 4 When the library is updated, tap **Done**.

Play music or video files

- 1 Tap **Start** > **Main Menu** > **Touch Player** (1/5).
- 2 Tap  to open the currently playing list (if necessary).
- 3 Tap  to view the library.
- 4 Tap a file.

5 During playback, use the following controls:

Icon	Function
	Adjust the volume
	Skip to the previous file; Scan backward in a file (tap and hold)
	Pause playback
	Resume playback
	Skip to the next file; Scan forward in a file (tap and hold)
	Set repeat or shuffle option: <ul style="list-style-type: none">• : play all files in the library once• : repeat all files in the library• : repeat the current file• : shuffle all files in the library

Create a playlist

- 1 Tap **Start** > **Main Menu** > **Touch Player** (1/5).
- 2 Tap  to open the currently playing list (if necessary).

- 3 Tap  to view the library.
- 4 Tap .
- 5 Tap **Menu > New Playlist**.
- 6 Enter a title for your new playlist.
- 7 Select a photo for your playlist (if necessary).
- 8 Tap **Done**.

Add files to a playlist

- 1 Open a file. ► p. 62
- 2 While the file is playing, tap .
- 3 Tap  to view the library.
- 4 Tap and hold a file and select **Add to Nowplaying**.
- 5 Select files and tap **Done**.

Customise Touch Player

- 1 Tap **Start** > **Main Menu** > **Touch Player** (1/5).
- 2 Tap **Menu** > **Options**.
- 3 Set playback and other options for Touch Player.
- 4 Tap **Done**.

Photo Album

Learn to view photos and slideshows.

View a photo

- 1 Tap **Start** > **Main Menu** > **Photo Album** (1/5).
- 2 Tap a folder or tap **Folder** to view all folders.
- 3 Tap a thumbnail to view the photo.

Start a slideshow

- 1 Tap **Start** > **Main Menu** > **Photo Album** (1/5).
- 2 Tap a folder or tap **Folder** to view all folders.
- 3 Tap **Menu** > **Slide show**.
- 4 To end the slideshow, tap .

Digital Frame

With Digital Frame, you can view slideshows with background music.

View slideshows with background music

- 1 Tap **Start** > **Main Menu** > **Digital Frame** (2/5).
- 2 Rotate the device anti-clockwise to the landscape orientation.
- 3 Tap .

- 4 Select a folder of photos to use and set transition effects.
- 5 Tap **Off** next to **Enable Background Sound**.
- 6 Tap the sound field.
- 7 Tap the check boxes next to music files.
- 8 Tap **Select > Done**.
- 9 To begin the slideshow, tap .
- 10 During playback, use the following controls:

Icon	Function
	Change the layout of the display
	End the slideshow
	Skip to the previous photo
	Skip to the next photo
	Change the style of the date and time on the screen
	Change the slideshow settings
	Exit Digital Frame

FM Radio

You can listen to your favourite stations with FM radio.

Listen to the FM radio

- 1 Plug a headset into the multifunction jack or the headset jack.
- 2 Tap **Start** > **Main Menu** > **FM Radio** (1/5).
- 3 Tap  to turn on the radio.
- 4 Tap  or  to scan through available radio stations.
- 5 To adjust the volume, tap .

Save radio stations by automatic tuning

- 1 From the radio screen, tap **Scan**.
- 2 When the scan is complete, tap **Done**.

Save radio stations manually

- 1 From the radio screen, scroll to the radio station you want to save.
- 2 Tap one of the **+** symbols near the bottom of the screen.

Select a station

- 1 From the radio screen, tap **FM1** or **FM2**.
- 2 Tap the station you want from the area near the bottom of the screen.

Record the FM radio

- 1 From the radio screen, tap **Menu > Record** to record the current station.
- 2 When you are finished, tap **Stop**. The recorded file is saved in your device.

Video Editor

With Video Editor, you can edit or make videos by combining photos or videos.

Auto-crop a video

- 1 Tap **Start > Main Menu > Video Editor** (2/5).
- 2 Select **Auto Cut**.
- 3 Select a style and tap : (the names & descriptions for these styles don't make sense; therefore, I am uncertain if the list below is correct - **the names and descriptions should be changed**)
 - **Landscape**: select clips in landscape orientation
 - **Motion Object**: select clips
 - **Portrait**: select clips in portrait orientation
- 4 Tap the check boxes on images to add and tap .
- 5 Tap  to preview the video.

6 Tap  to save the video.

7 Tap .

Add pre-recorded audio to a video

1 Tap **Start > Main Menu > Video Editor (2/5)**.

2 Select **Music Movie**.

3 Select a style: (the names & descriptions for these styles don't make sense; therefore, I am uncertain if the list below is correct - **the names and descriptions should be changed**)

- **Blackboard**: frame your clips with a blackboard
- **Color flow**: cycle your clips through colour effects
- **Flip**: reveal your images as if flipping through pages in a photo album
- **Motion**: scroll through your images with a newspaper background and flower overlays
- **Old film**: show your images with a grainy film effect
- **Running**: cycle through your images over a background of stars

- **Slippage:** scroll through your images over a background of a cloudy sky
- **Spin:** cycle through your images over a background of a sandy beach
- **Splash:** reveals your images by splashing them on the screen
- **Sunshine:** cycles through your images over various beach backgrounds

4 Tap .

5 Tap the check boxes on images to add.

6 Tap  to add the selected images.

7 Delete images or tap  to change how they are displayed (if necessary).

8 Tap  to select an audio file.

9 Tap  to preview the video.

10 Tap  to save the video.

Create a storyboard

- 1 Tap **Start > Main menu > Video Editor** (2/5).
- 2 Tap **Storyboard**.
- 3 Tap the check boxes on each thumbnail image (videos or images) you want to add to the storyboard. To select all, tap  (to deselect all, tap .
- 4 Tap .
- 5 Customise the storyboard as desired by tapping the following icons (refer to the Extended Usage Guide for more information about customising storyboards):
 - : add audio files
 - : delete clips
 - : edit viewable duration, dub clips (record audio), add subtitles, edit transitions, and add effects
 - : create a text slide
- 6 Tap .
- 7 Tap  to preview the video.

8 Tap  to save the video.

9 Tap **ok**.

Games

Play fun games, such as Bubble Breaker and Solitaire. You can also download and play Java games on your device. To access games, tap **Start > Main Menu > a game (2/5)**.

Java

Your device supports applications and games built on the Java platform. To download Java-based applications,

1 Tap **Start > Main Menu > Java (3/5)**.

2 Tap **Download Applications...** to launch the Opera browser and go to the Samsung Mobile website.

3 Follow the directions on the website to download new Java-based applications.

Personal productivity

Work with applications

Learn to open applications or folders and switch between open applications.

Open applications or folders

- 1 Tap **Start** > **Main Menu**.
- 2 To open an application, tap the application icon.
- 3 To open a folder, tap **File Manager** (1/5) and navigate to the desired folder.

Switch applications

Your device allows you to multi-task by running multiple applications at the same time.

To switch from one active application to another,

- 1 Tap **Start > Main Menu > Task Switcher** (5/5).
 - Task Switcher shows thumbnail images of all open programs.
- 2 Tap a thumbnail to switch to the corresponding application.

Close applications

To send the current application to the background, tap **x** or **ok**.

To close an application,

- 1 Tap **Start > Main Menu > Task Manager** (5/5).
- 2 Tap an application name.
- 3 Tap **End Task**.

Search for files or folders

- 1 Tap **Start > Main Menu > Search** (5/5).
- 2 Use the input panel to enter a keyword.
- 3 Tap **Search**.

ActiveSync

With ActiveSync, you can synchronise your device with a computer and back up and restore your data.

Install ActiveSync on your computer

Before you can synchronise your data, you must install ActiveSync, either from the supplied CD-ROM or the Microsoft website (<http://www.microsoft.com>).

To install ActiveSync from the supplied CD-ROM,

- 1 Insert the CD-ROM into your computer.
- 2 Follow the on-screen instructions to complete the setup.
- 3 When installation is complete, follow the on-screen instructions in the Synchronisation Setup Wizard to connect your device to the computer and create a data sharing partnership.

Connect your device to a computer

- 1 Tap **Start** > **Settings**.
- 2 From the **Connection** tab, tap **USB Connection Mode** > **Active Sync**.
- 3 Tap **Done**.
- 4 Connect one end (mini-USB) of the PC data cable to the multifunction jack on your device and the other end to the USB port on your computer.

Synchronise your data

When you connect your device to a computer, ActiveSync should begin synchronising your data automatically. You can begin the synchronisation manually by tapping **Sync**. To stop a synchronisation in progress, tap **Stop**.

You can also manually find and copy files from your device to a computer and vice versa. From the Microsoft ActiveSync window, tap **Explore**.

For more information on synchronising your data, refer to the embedded help system.

If you format the My Storage folder by using a connected computer, the writing speed to the My Storage folder may be reduced. Format the My Storage folder only from the device to avoid this situation.

Add an Exchange server

- 1 Tap **Start** > **Main Menu** > **ActiveSync** (5/5).
- 2 Tap **Menu** > **Add Server Source...**
- 3 Enter an email address.
- 4 Tap **Next**.
- 5 Enter your Exchange user name, password, and domain name.
- 6 Tap **Next**.
- 7 Enter a server address. To establish a secure connection, tap the check box that reads **This server requires an encrypted (SSL) connection**.
- 8 Tap **Next**.
- 9 Select the types of data to synchronise.
- 10 When you are finished, tap **Finish**.

Change the synchronisation schedule

If you routinely synchronise your data via an Exchange server, you can configure settings for both peak and off-peak schedules.

To change the synchronisation schedules,

- 1 Tap **Start > Main Menu > ActiveSync** (5/5).
- 2 Tap **Menu > Schedule...**
- 3 Set the following options:
 - **Peak times:** set the frequency of synchronisations during peak hours
 - **Off-peak times:** set the frequency of synchronisations during off-peak hours
 - **Use above settings when roaming:** set to use the synchronisation schedules even when roaming
 - **Send/receive when I click Send:** set to synchronise when you tap **Send** in Messaging
- 4 When you are finished, tap **ok**.

Clock

Learn to set and control alarms, reminders, and world clocks. You can also use the stopwatch.

Set an alarm

- 1 Tap **Start** > **Main Menu** > **Clock** (1/5).
- 2 On the **Alarm & Morning call** tab, tap **+**.
- 3 Set the alarm options.
- 4 When you are finished, tap **Done**.

Stop an alarm

When an alarm without snooze sounds, tap **Dismiss**. When an alarm with snooze sounds, tap **Dismiss** to stop it or **Snooze** to delay the alarm for the length of time you specified. Alarms with snooze will repeat according the number of times you specify in the settings or until you tap **Dismiss**.

Schedule an anniversary

- 1 Tap **Start** > **Main Menu** > **Clock** (1/5).
- 2 On the **Anniversary** tab, tap .
- 3 Set the anniversary options.
- 4 When you are finished, tap **Done**.

Create a world clock

- 1 Tap **Start** > **Main Menu** > **Clock** (1/5).
- 2 On the **World Clock** tab, tap .
- 3 Tap  to open a list of cities.
 Tap **Name** or **Time** to sort the list by name or time zone.
- 4 Tap a city.
- 5 Tap **Done**.

- 6 Tap **Set as 2nd clock** to display this time in addition to the local time (in widgets that support dual times).
- 7 Tap **Done**.

Use the stopwatch

- 1 Tap **Start > Main Menu > Clock (1/5)**.
- 2 On the **Stop watch** tab, tap **Start**.
- 3 Tap **Lap** to record lap times.
- 4 When you are finished, tap **Stop**.
- 5 Tap **Reset** to clear the recorded times.

Touch Calendar

Use Touch Calendar to keep track of appointments, birthdays, or other events.

Create a calendar event

- 1 Tap **Start > Touch Calendar**.
- 2 Tap .
- 3 Complete the fields and adjust the settings for your event.
- 4 When you are finished, tap **Done**.
 -  In the month view, a small underscore will appear under dates with scheduled appointments.

Change the calendar view

1 Tap **Start > Touch Calendar**.

2 Tap a tab to change the calendar view:

- : a full month in one view
- : hourly blocks for the days in one full week (Sunday to Saturday)
- : hourly blocks for one full day
- : a list of scheduled appointments

Stop an event reminder

When the reminder alarm sounds for a calendar event, tap **Dismiss**.

Life Diary

Life Diary is an online service where you can record your memories. With Life Diary, you can view your daily events, such as photos, videos, call logs, messages, appointments, and tasks. You can also upload photos, videos, and blog posts to the Life Diary website or other popular websites. For more information, visit the Life Diary website for your country or region (<http://www.lifediary.XX>).

View and upload daily events

- 1 Tap **Start** > **Main Menu** > **Life Diary** (5/5).
- 2 Tap **My Memories**.
- 3 Tap  or  to scroll to a date or tap the date bar and select a date from the calendar.
- 4 Tap an event to view details.
- 5 Tap **Publish** to upload an event to the Life Diary website.

Read updates on the Life Diary website

- 1 Tap **Start** > **Main Menu** > **Life Diary** (5/5).
- 2 Tap **LifeDiary Web**.
- 3 View updates:
 - Select **My Life** to view your Life Diary entries.
 - Select **My Networks** to view your friends' latest entries.
 - Select **Explore** to view popular entries on the Life Diary website.
- 4 Tap an item to view details.
- 5 While viewing, tap **Comment** to add your comment to an entry.

Create and upload a new blog post

- 1 Tap **Start > Main Menu > LifeDiary** (5/5).
- 2 Tap **Diary Editor**.
- 3 Tap **New** to create a new blog post.
- 4 Enter details and tap **Menu > Add >** an item.
- 5 Select **Publish to external blog** to upload the post to other registered websites.
- 6 Tap **Publish** to upload the post to the Life Diary website.

Synchronise items with the Life Diary website

- 1 Tap **Start > Main Menu > Life Diary** (5/5).
- 2 Tap **Web Sync**.
- 3 Select items on your device to synchronise with the Life Diary website and tap **Sync Now**.

Notes

Use Notes to create memos, sketches, and recordings.

Create a note

- 1 Tap **Start > Main Menu > Notes** (5/5).
- 2 Tap **New** to create a new note.
- 3 Enter your note with the input panel.
 - To create sketches, ► p. 91
 - To create recordings, tap **Menu > View Recording Toolbar**.
- 4 When you are finished, tap **ok**.

Send a note

- 1 Tap **Start > Main Menu > Notes** (5/5).
- 2 Tap and hold the name of a note you want to send.

- 3 Tap an option to send the file:
 - To send as a multimedia message, select **Send...**
 - To send via a Bluetooth wireless connection, select **Beam File...**

Create a sketch

- 1 Tap **Start > Main Menu > Notes (5/5)**.
- 2 Tap **New**.
- 3 Make a stroke that crosses at least three ruled lines to start a drawing a frame. Sketches that do not cross three ruled lines will be treated as writing.
- 4 Continue your sketch with strokes.

- 5 To edit the sketch, tap **Menu > Draw**.

Tap and hold the sketch until the selection handles appear. You can then use the handles to drag or resize the sketch or tap **Menu** to access other options.

Smart Memo

Use Smart Memo to create memos that combine text and freehand drawing. To create a smart memo:

- 1 Tap **Start** > **Main Menu** > **SmartMemo** (4/5).
- 2 Tap **New**.
- 3 Create your memo with the drawing tools and input panel.
- 4 When you are finished, tap **Save**.
- 5 Tap **OK**.

Audio Note

Use Audio Notes to record, listen to, and send voice memos.

Record a voice memo

- 1 Tap **Start** > **Main Menu** > **AudioNote** (4/5).
- 2 Tap **Record**.

- 3 Set recording volume and tap  to begin the recording.
- 4 Record your voice memo.
- 5 When you are finished, tap .
- 6 Tap **OK**.

Listen to a voice memo

- 1 Tap **Start > Main Menu > File Manager (1/5) > My Storage > Audio Note**.
- 2 Tap a memo. Playback will begin automatically.
- 3 During playback, use the following controls:

Icon	Function
	Adjust the volume
	Skip to the previous file; Scan backward in a file (tap and hold)
	Pause playback

Icon	Function
	Resume playback
	Skip to the next file; Scan forward in a file (tap and hold)
	Set repeat or shuffle option: <ul style="list-style-type: none"> : shuffle all files in the library : play all files in the library once : repeat the current file : repeat all files in the library

Send a voice memo

- 1 Tap **Start** > **File Manager** (1/5) > **My Storage** > **Audio Note**.
- 2 Tap **Menu** > **Send** and select a sending option:
 - **as MMS**: send via a multimedia message
 - **as Mail**: send via an email message
 - **via Bluetooth**: send via a Bluetooth wireless connection

Tasks

Use Tasks to create to-do lists and reminders.

Create a task

- 1 Tap **Start > Main Menu > Tasks** (4/5).
- 2 Tap **Menu > New Task**.
- 3 Enter details for the task.
 -  To set a reminder for the task, tap the due field and set a due date. Next, tap the reminder field, select **Remind me**, and then specify the time and date of the reminder.
- 4 When you are finished, tap **ok**.

Mark a task as completed

After completing a task, tap **Start > Main Menu > Tasks** (4/5) and tap the check box next to the task name. Once you have marked a task complete, you will no longer receive any scheduled reminders for that task.

Calculator

Use the calculator to perform basic mathematical calculations.
To perform a calculation,

- 1 Tap **Start > Main Menu > Calculator** (4/5).
- 2 Enter the first number using the calculator buttons on the screen.
 - To clear the displayed numbers, tap .
 - To clear the last digit entered in a multi-digit entry, tap .
- 3 Tap the appropriate math function.
- 4 Enter the second number.
- 5 To view the result, tap .

You can use the following buttons while performing calculations:

- : clear the number you entered
- : clear any value that is stored in the calculator's memory
- : recall the stored value from memory and inserts it into the current calculation

- : add the current number to the value stored in the calculator's memory

Smart Converter

Use Smart Converter to convert one unit of measure to another. To perform a conversion,

- 1 Tap **Start > Main Menu > Smart Converter** (4/5).
- 2 Select a type of measurement from the tabs at the top of the screen:
 - : Length
 - : Weight
 - : Area
 - : Volume
 - : Temperature
- 3 Select the unit of measure to convert.
- 4 Enter the base amount. The device displays the conversion result.

Web applications

Streaming Player

Use Streaming Player to watch videos or listen to audio files directly from the internet.

Stream media from the internet

- 1 Tap **Start** > **Main Menu** > **Streaming Player** (3/5).
- 2 Tap .
- 3 Enter the URL of a streaming media file.
- 4 Tap **Connect**.
- 5 During playback, use the following controls:

Icon	Function
	Adjust the volume
	Pause playback

Icon	Function
	Resume playback
	Stop playback
	Search for streaming media files

Midomi

Use the Midomi web service to identify songs either by singing or humming the song into your device or using your device to grab the song from the radio or other audio source.

Search for song information by singing or humming the song

- 1 Tap **Start** > **Main Menu** > **Midomi** (3/5).
- 2 Tap the **Sing** tab (if necessary).

3 Tap the area of the screen that reads **Tap and sing or hum** and begin singing or humming the song.

 Try to sing or hum at least 10 seconds of the song for best results.

4 When you are finished singing or humming, tap the area that reads **RECORDING**. The Midomi service will search for a match and return the results.

Search for song information by grabbing the song from an audio source

- 1 Tap **Start** > **Main Menu** > **Midomi** (3/5).
- 2 Tap the **Grab** tab (if necessary).
- 3 Tap the area of the screen that reads **Tap and hold to a speaker** and place the device near the audio source.
 -  Try to grab at least 10 seconds of the song for best results.
- 4 When you are finished, tap the area that reads **RECORDING**. The Midomi service will search for a match and return the results.

RSS Reader

Learn to use RSS reader to get the latest news and information from your favourite websites.

Subscribe to RSS feeds

- 1 Tap **Start > Main Menu > RSS Reader (2/5)**.
- 2 Tap **Default**.
- 3 Tap **Add Feed**.
- 4 Tap **Add RSS/ATOM URL**.
- 5 Enter the address of an RSS feed and tap **Done**.
- 6 Enter the name of the RSS feed and tap a feed category.
- 7 Tap **Add**.

Read RSS feeds

- 1 Tap **Start** > **Main Menu** > **RSS Reader** (2/5).
- 2 Tap a feed category > a feed.
- 3 Tap **Update**.
 - Your device will attempt to connect to the internet. If necessary, activate your internet connection.

Customise feed options

- 1 Tap **Start** > **Main Menu** > **RSS Reader** (2/5).
- 2 Tap a feed category.
- 3 Tap **Menu** > **Option**.
- 4 Tap a feed.
- 5 Set options to specify when feeds are deleted.
- 6 When you are finished, tap **Done**.

Podcast

Use Podcast to search for, download, and listen to podcasts.

Search for and subscribe to podcasts

- 1 Tap **Start** > **Main Menu** > **Podcast** (2/5).
- 2 Tap **Menu** > **Search Podcast**.
- 3 Use the input panel to enter a keyword and tap . Your device searches for related podcasts and displays the results.
- 4 Tap the podcast you want to subscribe to and tap **Add** > **ok**.

Play downloaded podcasts

- 1 Tap **Start** > **Main Menu** > **Podcast** (2/5).
- 2 Tap a podcast.
- 3 Tap **Menu** > **Download**.

- 4 Tap podcasts you want to play.
- 5 Tap **Done** to download the podcasts.
- 6 When you are finished, tap **ok**.

Update your podcast library

Once you have subscribed to podcasts (► p. 104), you can easily update your library to listen to the latest episodes. To update your podcast library,

- 1 Tap **Start > Main Menu > Podcast (2/5)**.
- 2 Tap **Update**.
- 3 Tap podcasts you want to update.
- 4 Tap **Done > ok**.

QIK

QIK allows you to easily broadcast live videos over the internet. You can share your live video with others or store the video so your friends and family can view it later.

[Sign up for a new account](#)

- 1 Tap **Start** > **Main Menu** > **QIK** (3/5).
- 2 Tap **NEW_USER**.
- 3 Enter user information.
- 4 Tap **SIGN_UP**.
- 5 Follow the on-screen instructions.

Sign in to QIK

- 1 Tap **Start** > **Main Menu** > **QIK** (3/5).
- 2 Tap **EXISTING_USER**.
- 3 Enter your login ID and password.
- 4 Tap **SIGN_IN**.
- 5 Follow the on-screen instructions.

Stream live video to your friends and family

- 1 Sign in to the QIK website.
- 2 Tap .

Your video will stream live via the QIK website. To see the live video, visit your personalised webpage: <http://qik.com/username>.

While streaming, you can control the streaming video with the following controls (tap the viewfinder to display or hide the controls):

Icon	Function
	Change the resolution
	Make the stream private (accessibly only by logging in to the QIK website) or public (accessible to anyone)
	Turn the audio on or off
	Change settings
	Add a title and description to the video
	Post the video to YouTube or another website or send a link to the video via Twitter or text message
	Start or stop the video stream

You can also zoom in or zoom out by pressing the Volume key up or down.

Communities

Communities is a convenient feature that allows you post your photos to websites and blogs.

Upload photos

Use Communities to upload photos directly to your website or blog. To upload photos,

- 1 Tap **Start > Main Menu > Communities** (1/5).
- 2 Tap a blog or website.
- 3 Tap **Upload**.
- 4 Enter your user name and password.
- 5 Tap **Done**.
- 6 Enter a title for your image and tap **Tap to Add**.
- 7 Navigate to an image and tap the file name.
- 8 Select other options (if necessary).

- 9 Tap **Done**.
 - The image will be uploaded to the website or blog.

10 When the upload is complete, you can go to the website, view the upload details, or return to the list of sites by tapping the appropriate button.

Upload photos at a later time (Upload reservation)

With the Upload reservation feature of Communities, you can set a specific date and time to upload your photos to a website or blog. To create an upload reservation,

- 1 Tap **Start > Main Menu > Communities** (1/5).
- 2 Tap **Menu > Options > Upload reservation**.
- 3 Tap **New**.
- 4 Tap a website or blog.
- 5 Enter a title for your image and tap **Tap to Add**.
- 6 Navigate to an image and tap **Tap to Add**.

- 7 Select other options, as necessary.
- 8 Tap the **Date** drop-down menu and select a date for the upload reservation.
- 9 Tap the **Time** drop-down menu and set a time for the upload reservation.
- 10 Tap **Done**.

Change image resizing settings

Communities will automatically resize your photos before uploading them, according to your settings. To change the image resizing settings,

- 1 Tap **Start > Main Menu > Communities** (1/5).
- 2 Tap **Menu > Options > Upload settings**.
- 3 Tap the **Image resize (default)** drop-down menu.
- 4 Select a size from the list or tap **Original** to upload images without resizing them.
- 5 Tap **Done**.

Delete a website or blog from the Preferred blog list

Communities automatically adds websites or blogs that you use frequently to the Preferred blog list. To remove a website or blog from this list,

- 1 Tap **Start** > **Main Menu** > **Communities** (1/5).
- 2 Tap **Menu** > **Options** > **Preferred Sites settings**.
- 3 Tap the website or blog you want to delete from the list.
- 4 Tap **Delete**.

Application Download

Application Download allows you to find and add new applications to your device. With Application Download, you can search, browse, preview, buy, and download new applications directly to your mobile device. Available applications depend on your network operator and service provider.

- 1 Tap **Start** > **Main menu** > **Application Download** (3/5).
- 2 When prompted to allow the connection to the server, tap **Yes**.
- 3 Tap one of the following tabs to view available applications:
 -  Recommended applications
 -  Popular applications
 -  Applications sorted by category
- 4 Tap **Refresh** to update the list of available applications (if necessary).
- 5 Tap an application.
- 6 Tap **Download**.

Connectivity

Connect to the internet or your network

You can connect to your Internet Service Provider (ISP) and use the connection to send and receive email messages and to browse the internet. You can also connect to any private network, such as a corporate network you use at work.

Connect to the internet

- 1 Obtain the following information from your internet service provider: phone number for your ISP server, user name, and password.
- 2 Tap **Start > Settings**.
- 3 On the **Connection** tab, tap **Connections**.
- 4 In **My Internet**, tap **Add a new modem connection**.

- 5 Create a modem connection. To view detailed information for any screen while changing the settings, tap the  icon.
- 6 When the connection is successfully configured, run **Opera Browser** or **Internet Explorer** to begin browsing the internet. Your device will automatically attempt to connect.
 -  To set up a network card or wireless network connection to your ISP, add a new connection under **My Work Network**.

Connect to work

- 1 Obtain the following information from your network administrator: server phone number, user name, and password.
- 2 Tap **Start > Settings**.
- 3 On the **Connection** tab, tap **Connections**.
- 4 In **My Work Network**, set up a modem, VPN server connection, or proxy server. To view detailed information for any screen while changing the settings, tap the  icon.

- 5 When the connection is successfully configured, run **Opera Browser** or **Internet Explorer** to begin browsing the internet. Your device will automatically attempt to connect.

You can select an authentication method for GPRS connections by using **GPRS Authentications**.

End a connection

- When connected via dial-up or VPN, tap the  icon on your status bar, and then tap **Disconnect**.
- When connected via ISP, tap **Start > Settings > Connection** tab > **Wireless Manager**. Then tap **Menu > Disconnect Cellular Data**.
- When connected via a cable, detach your device from the computer by disconnecting the cable.
- When connected via a modem or a network (Ethernet) card, remove the card from your device.

Find the active network connection

The icons at the top of the display will show active connections. Tap any connectivity icon to view the active connection. A small window will display the connection information.

Wi-Fi and data connections can be active at the same time. When both connections are active, the device will use Wi-Fi as the default internet connection.

Bluetooth

You can connect with other Bluetooth-enabled wireless devices within a range. Walls or other obstacles between devices may block or impair the wireless connection.

Turn on the Bluetooth wireless feature

- 1 Tap **Start > Settings**.
- 2 On the **Connection** tab, tap **Wireless Manager**.
- 3 Tap **Off** next to **Bluetooth** and tap **Done**.

- 4 To allow other devices to find and connect to your device, tap **Bluetooth > Device Info**, and check **On** next to **Enable to make this device visible to other devices**.
- 5 Tap **Save**.

Change Bluetooth device names

You can alter the name that your device will display to other Bluetooth-enabled devices. To change the device name,

- 1 Tap **Start > Settings**.
- 2 On the **Connection** tab, tap **Bluetooth > Device Info**.
- 3 Enter a device name.
- 4 Tap **Save**.

Search for and pair with a Bluetooth-enabled device

- 1 Tap **Start > Settings**.
- 2 On the **Connection** tab, tap **Bluetooth > Connection**.
- 3 Tap **Search**.
 - Your device will search for and display the list of Bluetooth-enabled devices.
- 4 Drag a device icon into the centre.
- 5 Enter the 1- to 16-digit Bluetooth PIN for the device you are trying to connect to and tap **Next**.
 -  To pair with another Bluetooth-enabled device, both devices must use the same passcode. Headsets or hands-free car kits may use a fixed passcode, such as **0000**.
- 6 Select services and tap **Done**.

Send data via the Bluetooth wireless feature

- 1 Locate an item or file to send.
- 2 Select a sending option.
- 3 Tap a device from the list.

Receive data via the Bluetooth wireless feature

- 1 Enter the PIN for the Bluetooth wireless feature and tap **ok** (if necessary).
- 2 When prompted to allow incoming data, tap **Yes** to save the data to your device.

Wi-Fi

Your device features wireless networking capabilities that allow you to connect to wireless local area networks (WLANs).

Activate the Wi-Fi connection

- 1 Tap **Start > Settings**.
- 2 On the **Connection** tab, tap **Wi-Fi**.
- 3 Tap **Connection**.
- 4 Tap **WiFi Turn off**.

Search for and connect to a WLAN

- 1 Tap **Start > Settings**.
- 2 On the **Connection** tab, tap **Wi-Fi**.
- 3 Tap **Connection**.
- 4 Tap **Search**.
 - The device will display available WLAN connections.
- 5 Drag a network icon to the device icon in the middle of the screen.
 - The device will attempt to connect to the WLAN.
- 6 Enter a password (if necessary).

Create a new Wi-Fi connection

- 1 Tap **Start > Settings**.
- 2 On the **Connection** tab, tap **Wi-Fi**.
- 3 Tap **Connection**.
- 4 Tap **Add New**.
- 5 Enter a network name and configure connection settings.
- 6 When you are finished, tap **Next**.
- 7 Enter network authentication settings and tap **Next**.
- 8 Set the IEEE 802.1x access option and the extensible authentication protocol (EAP) type (if necessary).
- 9 Tap **Finish**.
 - The new Wi-Fi network will appear on the Wi-Fi screen. To connect to the network, drag the network icon to the device icon in the middle of the screen.

Connected Home

The connected home application allows you to share media files between devices in your home. You can access and play files from devices that support the Digital Living Network Alliance (DLNA) standard.

Locate and play files from another device

- 1 Tap **Start > Main Menu > Connected Home (2/5)**.
- 2 Authorise the device to connect to a Wi-Fi connection (if necessary).
- 3 Select a server or computer from the device interface.
- 4 Select a folder and locate files.
- 5 Tap **Open**.
- 6 Select a file and tap **Open**.

7 During playback, use the following controls:

Icon	Function
	Adjust the volume
	Pause playback
	Resume playback
	Skip to the previous file
	Skip to the next file

Download files to your device

- 1 Tap **Start** > **Main Menu** > **Connected Home** (2/5).
- 2 Authorise the device to connect to a Wi-Fi connection (if necessary).
- 3 Select a server or computer from the device interface.
- 4 Select a folder and locate files.
- 5 Tap **Download**.
- 6 Select a file and tap **Download**.
 - The file will downloaded to your device.

Delete files

You can delete files from the now playing list to prevent them from being played on your device. This will not delete the file from the server-only from your device.

Troubleshooting

If you have trouble with your device, try these procedures before you contact a service professional.

When you turn on your device, the following messages may appear:

Message	Try this to solve the problem:
The SIM card is missing.	Ensure that the SIM or USIM card is installed correctly.
Enter PIN.	When using the device for the first time or when the PIN requirement feature is enabled, you must enter the PIN supplied with the SIM or USIM card. To disable the PIN requirement feature, tap Start > Settings > Personal tab > Phone > Security > SIM PIN , and then tap On next to Require PIN when phone is used .
SIM card blocked.	Your SIM or USIM card is blocked, usually as a result of entering your PIN incorrectly several times. You must enter the PUK supplied by your service provider.

Your device does not show a signal (no bars next to the network icon)

- If you just turned on the device, wait about 2 minutes for your device to find the network and receive a signal.
- You may not be able to receive a signal in tunnels or elevators. Move to an open area.
- You may be between service areas. You should receive a signal when you enter a service area.

You forgot a security code, PIN, or PUK

If you forget or lose this or another code, contact the seller or your service provider.

Your display shows white lines

The display may show white lines if you have turned the device on after a long period of disuse or if you removed the battery without first turning off the device. The display should correct itself in a short time.

You enter a number, but the call is not dialed

- Ensure that you have pressed [].
- Ensure that you have accessed the right cellular network.
- Ensure that you have not set call barring for the phone number.

You select a contact to call, but the call is not dialed

- Ensure that the correct number is stored in the contact information.
- Re-enter and save the number (if necessary).

Another caller cannot hear you speaking

- Ensure that you are not blocking the built-in microphone.
- Move the built-in microphone closer to your mouth.
- If using a headset, ensure that it is properly connected.

The sound quality of a call is poor

- Ensure that you are not blocking the internal antenna and the Bluetooth antenna. The internal antenna and the Bluetooth antenna are located at the bottom of the device.
- When you are in areas with weak signals, you may lose reception. Move to another area and try again.

The battery does not charge properly or sometimes your device turns itself off while charging

- Disconnect the device from the charger, remove and reinstall the battery, and try charging again.
- The battery terminals may be dirty. Wipe both gold-coloured contacts with a clean and soft cloth and try charging the battery again.
- If the battery no longer charges completely, dispose of the old battery properly and replace it with a new battery.

Your device is hot to the touch

When you use several applications at once, your device requires more power and may heat up. This is normal and should not affect your device's lifespan or performance.

Your device cannot connect to the internet

- Ensure that you have entered valid settings for your internet service provider.
- Ensure that you have activated the wireless connection to your mobile service provider and that the signal is not obstructed.
- Ensure that you have entered the correct user name and password.

You cannot find a Bluetooth-enabled device

- Ensure that both devices have activated the Bluetooth wireless feature.
- Ensure that the distance between the devices is not more than 10 metres and that they are not separated by walls or other obstacles.
- Ensure that the settings for each device allow them to be visible to other devices.
- Ensure that both devices are compatible with Bluetooth wireless technology.
- Ensure that the correct PIN has been entered on both devices.

You cannot listen to music on a remote Bluetooth headset

- Ensure that your device is connected to the headset.
- Ensure that the music format you are trying to listen to is supported by the headset.
- Ensure that the distance between the headset and device is not more than 10 metres and that they are not separated by walls or other obstacles.

Safety and usage information

Comply with the following precautions to avoid dangerous or illegal situations and ensure peak performance of your device.

Safety warnings

Keep your device away from small children and pets

Keep your device and all accessories out of the reach of small children or animals. Small parts may cause choking or serious injury if swallowed.

Protect your hearing

Listening to a headset at high volumes can damage your hearing. Use only the minimum volume setting necessary to hear your conversation or music.

Install mobile devices and equipment with caution

Ensure that any mobile devices or related equipment installed in your vehicle are securely mounted. Avoid placing your device and accessories near or in an air bag deployment area. Improperly installed wireless equipment can cause serious injury when air bags inflate rapidly.

Handle and dispose of batteries and chargers with care

- Use only Samsung-approved batteries and chargers specifically designed for your device. Incompatible batteries and chargers can cause serious injuries or damage to your device.
- Never dispose of batteries or devices in a fire. Follow all local regulations when disposing of used batteries or devices.
- Never place batteries or devices on or in heating devices, such as microwave ovens, stoves, or radiators. Batteries may explode when overheated.
- Never crush or puncture the battery. Avoid exposing the battery to high external pressure, which can lead to an internal short circuit and overheating.

Avoid interference with pacemakers

Maintain a minimum of 15 cm (6 inches) between mobile devices and pacemakers to avoid potential interference, as recommended by manufacturers and the independent research group, Wireless Technology Research. If you have any reason to suspect that your device is interfering with a pacemaker or other medical device, turn off the device immediately and contact the manufacturer of the pacemaker or medical device for guidance.

Turn off the device in potentially explosive environments

Do not use your device at refuelling points (service stations) or near fuels or chemicals. Turn off your device whenever directed by warning signs or instructions. Your device could cause explosions or fire in and around fuel or chemical storage and transfer areas or blasting areas. Do not store or carry flammable liquids, gases, or explosive materials in the same compartment as the device, its parts, or accessories.

Reduce the risk of repetitive motion injuries

While using your device, hold the device with a relaxed grip, press the keys lightly, use special features that reduce the number of keys you have to press (such as templates and predictive text), and take frequent breaks.

Safety precautions

Drive safely at all times

Avoid using your device while driving and obey all regulations that restrict the use of mobile devices while driving. Use hands-free accessories to increase your safety when possible.

Follow all safety warnings and regulations

Comply with any regulations that restrict the use of a mobile device in a certain area.

Use only Samsung-approved accessories

Using incompatible accessories may damage your device or cause injury.

Turn off the device near medical equipment

Your device can interfere with medical equipment in hospitals or health care facilities. Follow all regulations, posted warnings, and directions from medical personnel.

Turn off the device or disable the wireless functions when in an aircraft

Your device can cause interference with aircraft equipment. Follow all airline regulations and turn off your device or switch to a mode that disables the wireless functions when directed by airline personnel.

Protect batteries and chargers from damage

- Avoid exposing batteries to very cold or very hot temperatures (below 0° C/32° F or above 45° C/113° F). Extreme temperatures can reduce the charging capacity and life of your batteries.
- Prevent batteries from contacting metal objects, as this can create a connection between the + and - terminals of your batteries and lead to temporary or permanent battery damage.
- Never use a damaged charger or battery.
- Risk of explosion if a battery is replaced by an incorrect type. Dispose of used batteries according to the instructions.

Handle your device carefully and sensibly

- Do not allow your device to get wet—liquids can cause serious damage. Do not handle your device with wet hands. Water damage to your device can void your manufacturer's warranty.
- Avoid using or storing your device in dusty, dirty areas to prevent damage to moving parts.
- Your device is a complex electronic device—protect it from impacts and rough handling to avoid serious damage.
- Do not paint your device, as paint can clog moving parts and prevent proper operation.

- If your device has a camera flash or light, avoid using it close to the eyes of children or animals.
- Your device may be damaged by exposure to magnetic fields. Do not use carrying cases or accessories with magnetic closures or allow your device to come in contact with magnetic fields for extended periods of time.

Avoid interference with other electronic devices

Your device emits radio frequency (RF) signals that may interfere with unshielded or improperly shielded electronic equipment, such as pacemakers, hearing aids, medical devices, and other electronic devices in homes or vehicles. Consult the manufacturers of your electronic devices to solve any interference problems you experience.

Important usage information

Use your device in the normal position

Avoid contact with your device's internal antenna.

Allow only qualified personnel to service your device

Allowing unqualified personnel to service your device may result in damage to your device and will void your warranty.

Ensure maximum battery and charger life

- Avoid charging batteries for more than a week, as overcharging may shorten battery life.
- Over time, unused batteries will discharge and must be recharged before use.
- Disconnect chargers from power sources when not in use.
- Use batteries only for their intended purpose.

Handle SIM cards and memory cards with care

- Do not remove a card while the device is transferring or accessing information, as this could result in loss of data and/or damage to the card or device.
- Protect cards from strong shocks, static electricity, and electrical noise from other devices.
- Frequent writing and erasing will shorten the life span of memory cards.
- Do not touch gold-coloured contacts or terminals with your fingers or metal objects. If dirty, wipe the card with a soft cloth.

Safety and usage information

Ensure access to emergency services

Emergency calls from your device may not be possible in some areas or circumstances. Before travelling in remote or undeveloped areas, plan an alternate method of contacting emergency services personnel.

Specific Absorption Rate (SAR) certification information

Your wireless phone is a radio transmitter and receiver. It is designed and manufactured not to exceed the emission limits for exposure to radio frequency (RF) energy set by the Federal Communications Commission (FCC) of the U.S. government. These FCC exposure limits are derived from the recommendations of two expert organizations, the National Council on Radiation Protection and Measurement (NCRP) and the Institute of Electrical and

Electronics Engineers (IEEE). In both cases, the recommendations were developed by scientific and engineering experts drawn from industry, government, and academia after extensive reviews of the scientific literature related to the biological effects of RF energy.

The exposure limit set by the FCC for wireless mobile phones employs a unit of measurement known as the Specific Absorption Rate (SAR). The SAR is a measure of the rate of absorption of RF energy by the human body expressed in units of watts per kilogram (W/kg). The FCC requires wireless phones to comply with a safety limit of 1.6 watts per kilogram (1.6 W/kg). The FCC exposure limit incorporates a substantial margin of safety to give additional protection to the public and to account for any variations in measurements.

Safety and usage information

SAR tests are conducted using standard operating positions accepted by the FCC with the phone transmitting at its highest certified power level in all tested frequency bands. Although the SAR is determined at the highest certified power level, the actual SAR level of the phone while operating can be well below the maximum value. This is because the phone is designed to operate at multiple power levels so as to use only the power required to reach the network. In general, the closer you are to a wireless base station antenna, the lower the power output.

Before a new model phone is available for sale to the public, it must be tested and certified to the FCC that it does not exceed the exposure limit established by

the FCC. Tests for each model phone are performed in positions and locations (e.g. at the ear and worn on the body) as required by the FCC.

The highest SAR values for this model phone as reported to the FCC are [GSM 850] Head : 0.219 W/Kg, Body-worn: 0.619 W/Kg ,[GSM1900] Head: 0.198 W/kg, Body-worn: 0.634 W/Kg.

For body worn operation, this model phone has been tested and meets the FCC RF exposure guidelines when used with a Samsung accessory designated for this product or when used with an accessory that contains no metal and that positions the handset a minimum of 1.5 cm from the body. Non-compliance with the above restrictions may result in violation of FCC exposure guidelines.

Safety and usage information

The FCC has granted an Equipment Authorization for this mobile phone with all reported SAR levels evaluated as in compliance with the FCC RF exposure guidelines.

The FCC has granted an Equipment Authorization for this model phone with all reported SAR levels evaluated as in compliance with the FCC RF exposure guidelines. SAR information on this model phone is on file with the FCC and can be found under the Display Grant section of <http://www.fcc.gov/oet/fccid> after searching on FCC ID A3LGTB7610.

FCC Notice and Cautions

FCC Notice

- This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this

device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

- This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful

Safety and usage information

interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help.

The phone may cause TV or radio interference if used in close proximity to receiving equipment. The FCC can require you to stop using the phone if such interference cannot be eliminated.

Vehicles using liquefied petroleum gas (such as propane or butane) must comply with the National Fire Protection Standard (NFPA-58). For a copy of this standard, contact the National Fire Protection Association, One Batterymarch Park, Quincy, MA 02269, Attn: Publication Sales Division.

Safety and usage information

Cautions

Changes or modifications made in the radio phone, not expressly approved by Samsung, will void the user's authority to operate the equipment.

Only use approved batteries, antennas and chargers. The use of any unauthorized accessories may be dangerous and void the phone warranty if said accessories cause damage or a defect to the phone.

Although your phone is quite sturdy, it is a complex piece of equipment and can be broken. Avoid dropping, hitting, bending or sitting on it.

Correct disposal of this product

(Waste Electrical & Electronic Equipment)

(Applicable in the European Union and other European countries with separate collection systems)

This marking on the product, accessories or literature  indicates that the product and its electronic accessories (e.g. charger, headset, USB cable) should not be disposed of with other household waste at the end of their working life. To prevent possible harm to the environment or human health from uncontrolled waste disposal, please separate these items from other types of waste and recycle them responsibly to promote the sustainable reuse of material resources.

Household users should contact either the retailer where they purchased this product, or their local government office, for details of where and how they can take these items for environmentally safe recycling.

Business users should contact their supplier and check the terms and conditions of the purchase contract. This product and its electronic accessories should not be mixed with other commercial wastes for disposal.

Correct disposal of batteries in this product

(Applicable in the European Union and other European countries with separate battery return systems)

This marking on the battery, manual or packaging indicates that the batteries in this product should not be disposed of with other household waste at the end of their working life.

Where marked, the chemical symbols Hg, Cd or Pb indicate that the battery contains mercury, cadmium or lead above the reference levels in EC Directive 2006/66. If batteries are not properly disposed of, these substances can cause harm to human health or the environment.

To protect natural resources and to promote material reuse, please separate batteries from other types of waste and recycle them through your local, free battery return system.

Declaration of Conformity (R&TTE)

Position only

We, **Samsung Electronics**
declare under our sole responsibility that the product

GSM Mobile Phone : B7610

to which this declaration relates, is in conformity with the following standards and/or other normative documents.

SAFETY	EN	SAR	EN
EMC	EN		EN
	EN	RADIO	EN
	EN		EN
	EN		EN

We hereby declare that [all essential radio test suites have been carried out and that] the above named product is in conformity to all the essential requirements of Directive 1999/5/EC.

The conformity assessment procedure referred to in Article 10 and detailed in Annex[IV] of Directive 1999/5/EC has been followed with the involvement of the following Notified Body(ies):

BABT, Balfour House, Churchfield Road, Walton-on-Thames, Surrey, KT12 2TD, UK*
