Operation

Turning the TV On and Off

Press the Power button on the remote control or on the side panel to turn your TV on and off.
Viewing the Menus and Displays

The on-screen menu system allows you to control the settings of your TV. Access the on-screen menu system by pressing the Menu button on the remote control. Once the on-screen menu appears, use the joystick button on your remote control to move between menu items, select menu items, and make adjustments. You can also view the on-screen menu system and make some adjustments using the TV's side panel buttons.
Displaying the Menus

1 With the power on, press the Menu button on the remote control. The main menu appears on the screen.
The Video menu is selected.

```
                      PICTURE
Mode         ◀ Standard ▶
Adjust
Scaling        ◀  Wide  ▶
Color Tone   ◀  Cool 2  ▶
Film Mode      ◀   On   ▶
DNIe           ◀   On   ▶
Digital NR     ◀   On   ▶
          ◆ Move  ▶ Enter  Ⅲ Exit
```
2 Use the joystick (up, down) or CH(∧, ∨)buttons to move to items in the menu. Use the joystick (right) or VOL(+) buttons to display, change, or use the selected items. Use the joystick (↩ or ▶) button to enter items in the menu.
On-screen menus disappear from the screen automatically after about thirty seconds, or you can press the Menu button on your remote control to exit the menu.

```
                      SOUND

        Add/Erase
        Labeling    ◀ - - - - ▶
          ◆ Move  ↔Select  Ⅲ Menu
```

3 Move the joystick right or left to select "A" or "B".
Press the Menu button on the remote control to exit the menu.
Operation

Channel Memory

Your TV can memorize and store all of the channels available. Once the channels are memorized, you can use the CH∧ and CH∨ buttons to scan through the available channels.
Selecting the Broadcast Source

Before memorizing available channels, you must select what broadcast source your TV is connected to, either an antenna or a cable system.
1 Press the Menu button. Move the joystick down to select SETUP, then press the joystick to enter.

SETUP
Channel Setup
Closed Caption
Time
Language ◀ English ▶
Melody ◀ Off ▶
Blue Screen ◀ Off ▶
V-chip
◆ Move ▶ Enter Ⅲ Menu

2 Press the joystick to enter. The channel setup menu will appear. Move the joystick down to select "Air or CATV".

| SETUP |

◆ Move ◀▶ Select Ⅲ Menu

2 Press the joystick to enter. The TV will begin memorizing all of the available stations. Press the VOL+ button at any time to interrupt the memorization process.

Auto Channel Memory
AIR 11
AIR 32
▶ : Stop
NOTE
• When the ANT B mode is selected, the auto programming runs on the main screen.

Adding and Erasing Channels

1 Use the number buttons to select the channel you want to add or erase.

2 To add a channel, select it and press the Add/Erase button on the remote control. The channel will be added to the TV's memory and the word "Channel added" will appear in the corner of the screen.

3 To erase a channel, select it and then press the Add/Erase button on the remote control. The word "Channel erased" will appear in the corner of the screen. You can still view a channel that has been erased from memory by using the number buttons on the remote control to select the channel directly.

Operation

Changing Channels

You can change channels on your TV by using the CH ∧ and CH ∨ buttons, or by direct selection using the number buttons. You can use the number buttons to tune to any channel (even one that has been erased or has not been memorized).

Using the Channel Buttons

Press the CH∧or CH∨ buttons to change channels. The TV changes each channel in order, up or down, depending on which button you press. You will see all the channels that the TV has memorized. (The TV must have memorized at least three channels.) You will not see channels that were not memorized or have been erased.

Using the Number Buttons

To change to single-digit channels (0–9) faster, press "0" before the single digit.
Example: For channel 4, press "0," then "4."

To select a channel over 100, press the +100 button first.
Example: For channel 122, press "+100," then "2," then "2."

Using the Previous Channel

Press the Pre-ch button on the remote control. The TV changes to the last channel you were watching.

Scanning channels

You can automatically scan all of the channels in memory at the touch of just one button. Press the Scan button on the remote control. The TV will change the channels automatically, one by one. Scanning channels will be displayed in the PIP window. To stop channel scan, press the Scan button again.

NOTE

• When the ANT B mode is selected, the channel scan function doesn't work.

Selecting Your Favorite Channels

You can store up to ten of your favorite channels for each available input source (such as TV and CATV). Then, when you press the Fav.CH button on the remote control, the TV displays only the favorite channels you previously stored, allowing you to quickly and easily find frequently watched channels.

To Store Your Favorite Channels:

1 Press the Menu button. Move the joystick down to select SETUP, then press the joystick to enter.

To View Your Favorite Channels:

Press the Fav.CH button repeatedly to jump from one favorite channel to another.
The favorite channels are selected in ascending sequence.
Operation

Labeling the Channels

Use this feature to assign an easy-to-remember label to any channel (i.e., "CBS", "ESPN", "PBS2", "CNN1", etc.) A label consists of four fields, where each field is a letter, a number, or a blank. When the DISPLAY button is pressed, the channel label will appear next to the channel number.
1   Press the CH ⌃ or CH ⌄ button to tune to the channel that will be labeled.

11

2   Press the Menu button. Move the joystick down to select SETUP, then press the joystick to enter.

3 Move the joystick up or down to select the item you want to change.

4 Move the joystick right or left to raise or lower the value of the item, using the on-screen gauge as your guide.

Contrast   80

When you are finished adjusting an item, wait a moment. The level indicator will disappear and the Video menu will return. You can continue to make adjustments, or press the Menu button to exit.

Using Automatic ("Standard") Picture Settings

1 Press the P.Mode button on the remote control to change the picture settings.

Standard

2 Press P.Mode repeatedly to select the "Dynamic", "Standard", "Movie" or "Custom" picture setting.

Guide to Automatic Picture Settings

• Choose Standard to set the TV to operate at top performance according to your TV's specifications.
• Choose Dynamic for viewing the TV during the day or when there is bright light in the room.
• Choose Movie when viewing the movie.
• Choose Custom if you want to adjust the settings yourself.

Operation

Sound Control

You can control and customize the sound levels and settings of the TV with the remote control. Using the on-screen menus, you can change the TV's bass, treble, and balance settings.

Adjusting the Volume

Press VOL + to raise the volume or VOL − to lower the volume.

Using the Mute Button

Press the Mute button on the remote control to silence the volume. The word "Mute" will appear in the lower left corner of the screen.

To turn mute off, press the Mute button again, or raise or lower the volume with the VOL − and VOL + buttons.

Customizing the Sound

1 Press the Menu button. Move the joystick down to select SOUND, then press the joystick to enter.

SOUND	
Mode	◀ Standard ▶

3 Move the joystick up or down to select the item you want to change.

4 Move the joystick right or left to raise or lower the value of the item, using the on-screen gauge as your guide.

Bass   50
You can continue to make adjustments, or press the Menu button to exit.

Using Automatic(Standard) Sound Settings

1 Press the S.Mode button on the remote control to change the automatic sound setting.

Standard

2 Press the S.Mode button again to select the "Standard", "Music", "Movie", "Speech" or "Custom" sound setting.

Guide to Automatic Sound Settings

- Choose Standard for the "factory" settings (the best choice for most people).
- Choose Music when watching music videos or concerts.
- Choose Movie when watching a movie.
- Choose Speech when watching a show that is mostly dialogue, like a news show.
- Choose Custom if you want to adjust the settings yourself.
Operation

Setting the Clock

This TV has a built-in clock that will appear on screen when you press the Display button on the remote control. Setting this clock also allows you to use it to automatically turn the TV on or off.
1 Press the Menu button. Move the joystick down to select SETUP, then press the joystick to enter.
```
                        SETUP

Setting the Sleep Timer

You can set your TV to automatically turn off after a preset interval.

1 Press the Sleep button on the remote control.

2 You'll see "Off" at the bottom of the screen. Press the Sleep button to select the time interval for the TV to stay on. The interval ranges from 10 to 360 minutes.
SLEEP 30

Viewing an External Signal Source

Selecting the Signal Source

Use the remote control to switch between viewing signals from connected equipment, such as VCRs, DVD, Set-Top box and the TV source (broadcast or cable).

1 Make sure that the remote control is controlling the TV set. Press the MODE button and make sure that the "TV" LED is illuminated.

TV

2 Press TV/VIDEO on the remote control, and the following on-screen menu will appear.

Antenna	Connected
Video1	Connected
Video2	Not connected
Video3	Not connected
S-Video1	Not connected
S-Video2	Not connected
S-Video3	Not connected
Component 1	Not connected
Component 2	Not connected
Component 3	Not connected
DVI	Not connected
PC	Not connected

‡Move ▸Enter TV/Video Exit

3 Move the joystick up or down to select a particular signal source, and then press the joystick to activate it.

Antenna	Connected

Video2	Not connected
Video3	Not connected
S-Video1	Not connected
S-Video2	Not connected
S-Video3	Not connected
Component 1	Not connected
Component 2	Not connected
Component 3	Not connected
DVI	Not connected
PC	Not connected

‡Move ▸Enter TV/Video Exit

When you connect equipment to the TV, you can choose between the following sets of jacks: Video 1, Video 2, S-video 1, S-video 2, Component 1, Component 2, Component 3, DVI or PC on the TV's rear panel, and Video 3 or S-Video 3 on the TV's side panel.

Remote Control VCR/DVD Buttons

Flip the cover of the remote control up to access buttons that can control the tape functions of a connected VCR or DVD, including Rewind, Play, Fast Forward, Stop and Pause.

1 Flip the cover of your remote control unit for access to the tape function controls. Press the appropriate buttons to control your VCR or DVD.

Special Features

Special Features

Setting Up Your Remote Control

This TV's remote control can operate almost any VCR, cable box, or DVD. After it has been set up properly, your remote control can operate in four different modes: TV, VCR, Cable, or DVD. Pressing the corresponding button on the remote control allows you to switch between these modes, and control whichever piece of equipment you choose.

Note

The remote control might not be compatible with all DVD Players, VCRs and Cable boxes.

Setting Up the Remote to Operate Your VCR

1 Turn off your VCR.

2 Press the MODE button and make sure that the VCR LED is illuminated.

3 Press the Set button on your TV's remote control.

4 Using the number buttons on your remote control, enter three digits of the VCR code listed on page 51 of this manual for your brand of VCR. Make sure you enter three digits of the code, even if the first digit is a "0". (If more than one code is listed, try the first one.)

5 Press the Power button on the remote control. Your VCR should turn on if your remote is set up correctly.

   If your VCR does not turn on after set up, repeat steps 2, 3, and 4, but try one of the other codes listed for your brand of VCR. If no other codes are listed, try each VCR code, 000 through 089.

Note on Using Remote Control Modes: VCR

• When your remote control is in "VCR" mode, the volume buttons still control your TV's volume.

Setting Up the Remote to Operate Your Cable Box

1 Turn off your cable box.

2 Press the MODE button and make sure that the Cable LED is illuminated.

3 Press the SET button on your TV's remote control.

4 Using the number buttons on your remote control, enter three digits of the cable box code listed on page 51 of this manual for your brand of cable box. Make sure you enter three digits of the code, even if the first digit is a "0." If there is more than one code listed, try the first one.

5 Press the Power button on the remote control. Your cable box should turn on if your remote is set up correctly.

   If your cable box does not turn on after set up, repeat steps 2, 3, and 4, but try one of the other codes listed for your brand of cable box. If no other codes are listed, try each code, 000 through 077.

Note on Using Remote Control Modes: Cable Box

• When your remote control is in "Cable Box" mode, the volume buttons still control your TV's volume.

Special Features

Setting Up the Remote to Operate Your DVD

1 Turn off your DVD.

2 Press the MODE button and make sure that the DVD LED is illuminated.

3 Press the SET button on your TV's remote control.

4 Using the number buttons on your remote control, enter three digits of the DVD code listed on page 51 of this manual for your brand of DVD. Make sure you enter three digits of the code, even if the first digit is a "0." If there is more than one code listed, try the first one.

5 Press the Power button on the remote control. Your DVD should turn on if your remote is set up correctly.

If your DVD does not turn on after set up, repeat steps 2, 3, and 4, but try one of the other codes listed for your brand of DVD. If no other codes are listed, try each code, 000 through 008.

Note on Using Remote Control Modes: DVD

• When your remote control is in "DVD" mode, the volume buttons still control your TV's volume.

Changing the Screen Size

When you press the ASPECT button on the remote control, the TV's screen mode choices appear in sequence. The screen displays in this order: Wide, Panorama, Zoom1, Zoom2, Normal. The name of the screen mode will be displayed at the bottom of the TV screen.
Wide

Sets the picture to 16:9 wide mode.
Panorama

Use this mode for the wide aspect ratio of a panoramic picture.

Zoom1

Magnifies the size of the picture on screen.
You can also move the picture on screen using the "Scroll" function. Press the CH (∧, ∨) buttons to scroll the picture.
Zoom2

Magnifies the size of the picture more than Zoom1.
You can also move the picture on screen using the "Scroll" function. Press the CH (∧, ∨) buttons to scroll the picture.
Normal

Sets the picture to 4:3 normal mode. This is a standard TV screen size.

continued…

Special Features

NOTES

• You can select only Wide, Normal(4:3) screen size in the Component Mode.

• Screen size can't be changed in the DVI and PC (1080i) mode.

• You can select Wide(TV), Wide(PC) screen size in the DVI and PC (720p) Mode.

• You can select Wide(TV), Wide(PC), Normal(4:3) screen size in the DVI and PC (480p) Mode.

• If you set PIP ON in any mode (Normal, Panorama, Zoom1, Zoom2) except Wide, the mode will automatically change to Wide.

Special Audio Options

MTS Settings: Choosing a Soundtrack

Depending on the particular program being broadcast, you can listen to stereo, mono, or a Separate Audio Program. (SAP audio is usually a foreign-language translation. Sometimes SAP has unrelated information like news or weather.)
1 Press the Menu button. Move the joystick down to select SOUND, then press the joystick to enter.
2 Move the joystick down to select MTS.

3 Move the joystick to the right repeatedly to select "Mono", "SAP" or"Stereo".

4 Press the Menu button to exit.

Guide to MTS Settings

• Choose Stereo for channels that are broadcasting in stereo.

• Choose Mono for channels that are broadcasting in mono, or if you are having difficulty receiving a stereo signal.

• Choose SAP to listen to the Separate Audio Program, which is usually a foreign-language translation.
