Safety precautions

WARNING:

- TO PREVENT ELECTRIC SHOCK, DO NOT OPEN OR REMOVE THE COVER OR BACK OF THE FRAME. THERE ARE NO USER-SERVICEABLE PARTS INSIDE. ALLOW ONLY QUALIFIED PERSONNEL TO SERVICE THIS FRAME.
- TO PREVENT FIRE, KEEP THIS FRAME AWAY FROM ALL OPEN FLAMES, SUCH AS CANDLES, AT ALL TIMES.

- The slots and openings in the frame provide needed ventilation. To ensure reliable operation and prevent overheating, these openings must not be blocked or covered:
  - Do not cover the slots or openings.
  - Do not block the slots or openings by placing the frame on soft surfaces, such as beds, sofas, or rugs.
  - Do not place the frame in an enclosed space, such as a bookcase or cabinet, without proper ventilation.

- Do not place the frame near or on sources of heat, such as radiators, or in direct sunlight.

- Do not allow the frame to come in contact with water. Do not place the frame near sources of water, such as bathtubs or sinks, or where water or other liquids may splash or drip on the frame. If the frame gets wet, unplug the frame immediately and contact the dealer or an authorized service center.

- Do not overload wall outlets, extension cords, or adaptors beyond their intended capacity, as this may result in fire or electrical shock.

- Route all power supply cords away from traffic areas and other objects so that they are not likely to be stepped on or pinched by items placed on or against them. Ensure that wires are not twisted or pinched at plug ends or adapter connections.

- During electrical storms or when the frame will be unattended and unused for extended periods of time, unplug the frame from the wall. This will prevent damage to the frame from electrical surges.

- Before connecting the power cord, make sure that the voltage designation of the frame corresponds to the local electrical supply.

- Never insert any metal objects into the open parts of this frame, as this may result in electrical shock. Ensure that the power cord is completely plugged in when using this frame. Grasp the plug firmly when removing the power cord and never touch the power cord with wet hands.

- If you notice any unusual operation, such as unusual sounds or burning smells coming from the frame, unplug it immediately and contact the dealer or an authorized service center.

- It is not recommended to install the frame in a location where it will be exposed to heavy dust, high or low temperatures, high humidity, or chemical substances or where it operates continuously.

- Use only properly grounded plugs and outlets when connecting this frame. Improper grounding may cause electrical shock or damage to equipment.

- Keep this frame and all accessories out of the reach of children.

- Do not install the frame in unstable locations, such as improperly mounted shelves, angled surfaces, or where the frame may be exposed to vibration.

- Do not drop the frame or subject the frame to any strong impacts. If the frame is damaged, disconnect the power cord and contact a dealer or an authorized service center.

- Always unplug the power cord when cleaning the frame. Use only a soft, dry cloth to wipe frame. Do not expose the frame to any chemicals, such as waxes, benzene, alcohol, thinners, insecticides, air fresheners, lubricants, or detergents, as these may damage the frame's finish and void your warranty.

- Clean the product with a soft dry cloth.
  - Avoid cleaning the product with a flammable substance such as benzene or thinner or with a wet cloth. This may result in damage to the product.
  - Avoid scratching the screen with your fingernails or a sharp object.
  - Avoid cleaning the product by spraying water onto it. If water enters the product, it may result in fire, electric shock or malfunction.
  - Avoid using a supersonic humidifier near the product. It may result in a white stain on the surface of the product.

Correct disposal of this product

(Waste Electrical & Electronic Equipment)

(Applicable in the European Union and other European countries with separate collection systems)

This marking on the product, accessories or literature indicates that the product and its electronic accessories (e.g. charger, headset, USB cable) should not be disposed of with other household waste at the end of their working life.

To prevent possible harm to the environment or human health from uncontrolled waste disposal, please separate these items from other types of waste and recycle them responsibly to promote the sustainable reuse of material resources.

Household users should contact either the retailer where they purchased this product, or their local government office, for details of where and how they can take these items for environmentally safe recycling.

Business users should contact their supplier and check the terms and conditions of the purchase contract. This product and its electronic accessories should not be mixed with other commercial wastes for disposal.

Correct disposal of batteries in this product

(Applicable in the European Union and other European countries with separate battery return systems.)

This marking on the battery, manual or packaging indicates that the batteries in this product should not be disposed of with other household waste at the end of their working life. Where marked, the chemical symbols Hg, Cd or Pb indicate that the battery contains mercury, cadmium or lead above the reference levels in EC Directive 2006/66. If batteries are not properly disposed of, these substances can cause harm to human health or the environment.

To protect natural resources and to promote material reuse, please separate batteries from other types of waste and recycle them through your local, free battery return system.

9

Set up your frame

Do not put too much pressure on the frame or force the screen to rotate in the wrong direction, as this may damage the frame.
Connect the adapter and turn the power on
The shape of the plug may differ depending on your region.

Touch ⏻ to turn the frame on. The light on ⏻ will turn and the Main menu will appear.
To turn the frame off, touch and hold ⏻.

10

Customize basic settings

When you turn the frame on for the first time, the Quick setup screen appears.
Select a language and customize the basic settings of your frame.

```
Start Quick Setup                    ▭ ▭ ▭ ▭

                    Quick Setup helps you setup several
                    settings to use your photo frame.
                    This includes View Mode, Slideshow
                    Transition, Clock Set, and Startup Mode
                    settings
                    Do you want to start?

                       Yes          No

              ⏎ ENTER      ↩ BACK      ▥ EXIT
```

1 Scroll to your language and touch ⏎.

2 Select **Yes** to start the setup wizard.

3 Follow the on-screen instructions to customize your frame according to your preferences.

Setting	Description
View Mode	Select a view mode for a slideshow (p. 20)
Slideshow Transition	Select a transition effect for a slideshow (p. 22)
Clock Set	Set the current time and date (p. 13)
Startup Mode	Select a mode to activate when the frame turns on (p. 39)

4 When you complete the setup, select **Yes** to view the product guide.

5 Review the basic usage instructions for your frame, and then select **Done**.

Get to know the Main menu

From the Main menu screen, you can access the following menus.

Menu	Description
Photos	Browse photos stored in the internal memory or on an external memory device and change options (p. 19)
Music	Listen to music stored in the internal memory or on an external memory device and change options (p. 26)
Videos	View videos stored in the internal memory or on an external memory device and change options (p. 24)
Bluetooth	Use the Bluetooth wireless feature to connect to other wireless devices (p. 32)
Clock	View the current time and date (p. 13)
Mini Monitor	Use the frame as a supplementary monitor for your PC (p. 42)
Settings	Customize settings (p. 36)

- • You can set other functions to be activated instead of the Main menu when you turn the frame on (Startup Mode p. 39).
- • While you are using other functions or the screensaver is active, touch to access the Main menu screen.

12

View the time and date

Check the current time and date or customize clock settings.

2006/1/23/

01/05/2009 FRI
▲ Clock Only

▲ Clock & Calendar

1 From the Main menu screen, scroll to **Clock** and touch ⏎.

- The current time and date will display.

2 Touch ▥ and select **Settings**.

3 Scroll to **Clock** and touch ⏎.

4 Scroll to one of the following options and touch ⏎.

- For **Clock Set**, touch ❮ or ❯ to select the option you want and touch ⌃ or ⌄ to set the value.

Option	Description
Clock Set	Set the current time and date
Date Format	Select how dates display (**YYYY.MM.DD**, **MM.DD. YYYY**, **DD.MM.YYYY**)
Time Format	Select how time displays (**12 Hours**, **24 Hours**)
Clock Type	Select the clock type (**Clock Only**, **Clock & Calendar**)

13

Connect external memory devices ....
You can connect USB memory devices or SD memory cards to the frame. The frame supports FAT16 and FAT32 file format systems for external memory devices.
Insert an SD memory card with the metal contacts facing down. Push the card in until it locks in place.

To remove the SD memory card, push it gently until it disengages from the frame.

- If you connect an external memory device while the power is on, a pop-up window will appear. To start a slideshow of photos stored in the external memory device, select **Slideshow**.
- Recommended memory capacities for different types of memory cards:

SD	Up to 2 GB
microSD	Up to 2 GB
miniSD	Up to 2 GB
SDHC	Up to 32 GB
microSDHC	Up to 8 GB
miniSDHC	Up to 4 GB
USB	Up to 32 GB

14

Select a memory location ···

When there is an external memory device (SD memory card or USB memory device) connected, you can select the source of files.

Photos

Frame Memory

Music
Videos
Bluetooth
Clock
Mini Monitor
Settings
1 From the Main menu screen, scroll to the memory location list.

2 Scroll to one of the following memory locations and touch ⏎.

Memory location	Description
Frame Memory	Internal memory
SD Card	SD memory card (external)
USB	USB memory device (external)

You can also change the memory location while browsing photos by touching ▥ and selecting **Select Storage Device** (p. 29).
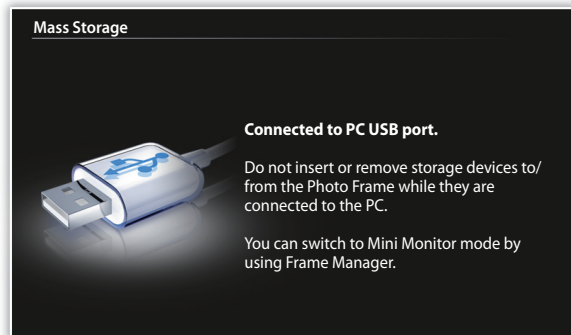

15

Connect to a PC

You can transfer files (p. 17) or use the frame as a mini-monitor by connecting it to a PC (p. 42).
Connect the smaller end of the USB cable to the frame and the larger end to the USB port of a PC.

USB connector

Transfer files from a PC

Mass Storage

Connected to PC USB port.

Do not insert or remove storage devices to/
from the Photo Frame while they are
connected to the PC.

You can switch to Mini Monitor mode by
using Frame Manager.
- Some files are embedded on the frame by default. When there is not enough memory, delete these stock files.
- If your photos are large, they will consume more memory and the preview will play slowly. Change the photo resolution to 800 X 480 (for '800P') or 1024 X 600 (for '1000P'). Or set the frame to copy and automatically resize your photos (Frame Memory Copy p. 39).

To transfer files from a PC

1 Connect the frame to a PC with the supplied USB cable (p. 16).

When the frame is turned off, connect it to the PC first, and then turn it on.

2 Select **Mass Storage**.

- When connected, '**Mass Storage**' will appear on the screen and a pop-up window will appear on the PC.

If you connect the frame to a PC while using it as a mini-monitor (p. 42), you need to switch to Mass Storage mode by using the Frame Manager program. For more information, refer to the user manual of the Frame Manager.

3 Open a folder to view files.

- The removable disk drive will appear as '**800P**' or '**1000P**' on the PC. Open the drive for the corresponding model in My Computer and copy your photos.

4 Copy files from the PC to the frame or vice versa.

17

To disconnect the frame from a PC

Make sure to end the connection properly to prevent damage to the frame or your data.

1 Click 🔌 on the Windows Taskbar.

2 Click the pop-up message.

Safely remove USB Mass Storage Device - Drive(G:)

*3* Disconnect the USB cable only when the message says that it is safe to remove the hardware.

⚠ • Do not disconnect the USB cable while the files are being copied, as this could result in loss of data or damage to the frame.
   • The connection will not end if you have frame files open on the PC. Close all frame files and try again.

18

Play multimedia

Play a slideshow

1 From the Main menu screen, select a memory location (**Frame Memory**, **SD Card**, or **USB**).

2 Scroll to **Photos** and touch ⏎.

3 Scroll to a file and touch ⏎ or ▶ to play a slideshow.

To play a slideshow with specific photos, touch ▥ and select **Select Multiple Files** (p. 29).
4 Control playback using the following buttons:

| Touch buttons	Description
⌂	Access the Main menu
▥	Access the slideshow menu
⌄/⌃	Adjust the volume of the background music
‹/›	View the previous or next photo
⏎	Pause or resume the slideshow
↺	Return to the previous level
▶	Change the view mode

19

▲ Photo Only
▲ Photo & Clock

▲ Photo & Calendar

▲ Multiview 1

▲ Multiview 2

▲ Multiview 3

Change the view mode

Display a clock or calendar during a slideshow or multiple photos on one screen during a slideshow.

Touch ▶ repeatedly during a slideshow to change the view mode.

• Each time you touch ▶, the view mode changes (**Photo Only** → **Photo & Clock** → **Photo & Calendar** → **Multiview 1** → **Multiview 2** → **Multiview 3**).

• You can also change the view mode by accessing **View Mode** in **Settings** → **Photos** (p. 23).

  • Set the current time and date before displaying the clock or calendar (p. 36).

  • You can view the previous or next photo by touching ❮ or ❯ during a slide show.
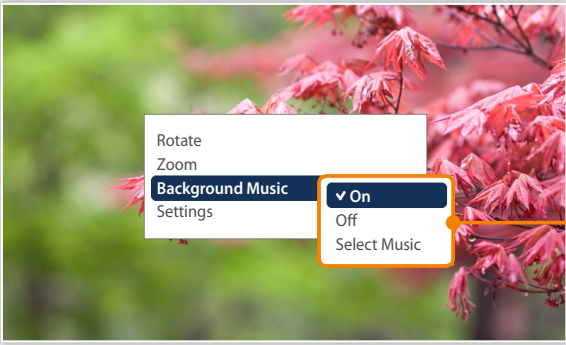

Use slideshow menus

Control a slideshow and adjust the slideshow settings.

1 Touch ▥ during a slideshow.

2 Scroll to one of the following menus and touch ⏎.

Option	Description
Rotate	Rotate a photo (**Original**, **90°**, **-90°**, **180°**)
Zoom	Enlarge in a photo (**x1**, **x2**, **x4**)
Background Music	Turn the background music on or off
Settings	Access the **Settings** menu (p. 22)

> • You can rotate or zoom a photo only in **Photo Only** and **Photo & Clock** modes.
> • When you zoom a photo, you can move around the photo by touching ∧, ∨, ❮, or ❯.

3 When you are finished, touch ⏎.

  • When you touch ↺ in the **Settings** menu, the Main menu appears. To play the slideshow, touch ▣.
