The diagram illustrates a mobile communication scenario involving two phones and a network interface.

**Left Phone Screen:**

- A small red tag icon with Korean text "통화 중" (On Call) is visible.
- Three dots above the screen indicate a list of recent calls.
- The number "45" is listed under the third dot.
- The screen displays the "Anycall" logo.

**Central Connection:**

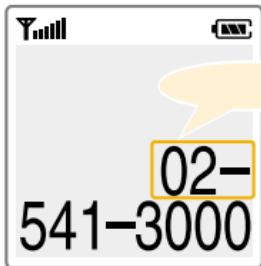

A large blue arrow points from the left phone screen towards the right phone screen, indicating a connection or transfer between the two devices.

**Right Phone Screen:**

- A small red tag icon with Korean text "통화 중" (On Call) is visible.
- Three dots above the screen indicate a list of recent calls.
- The number "45" is listed under the third dot.
- The screen displays the "KTF" logo.
- Signal strength bars and battery level icons are present at the top.
- The text "cdma2000" is displayed.
- The date and time "5/09( )11:00A" are shown.

The diagram illustrates the decomposition of the word "magic" into its phonetic components. On the left, a yellow box contains icons for the first three components: 1. 대 <sup>대</sup>, 2. 화 <sup>화</sup>, and 3. 익 <sup>익</sup>. To the right, five numbered boxes show the decomposition of "magic":  
1. 대 <sup>대</sup> ( )  
2. 화 <sup>화</sup> ( )  
3. 익 <sup>익</sup> (magic)  
4. 그 <sup>그</sup> ( )  
5. 러 <sup>러</sup> ( )  
Blue arrows point from the numbered boxes to a central mobile phone icon. The phone screen displays the word "Any" and a battery icon. To the right of the phone are three more icons: 4. 그 <sup>그</sup>, 5. 러 <sup>러</sup>, and 6. 익 <sup>익</sup>. Blue arrows also point from these icons to the right side of the diagram, where the characters "가" and "가" are written.

This diagram is similar to the one above, showing the decomposition of the word "magic". A yellow box on the left contains icons for the first three components: 1. 대 <sup>대</sup>, 2. 화 <sup>화</sup>, and 3. 익 <sup>익</sup>. To the right, five numbered boxes show the decomposition of "magic":  
1. 대 <sup>대</sup> ( )  
2. 화 <sup>화</sup> ( )  
3. 익 <sup>익</sup> (magic)  
4. 그 <sup>그</sup> ( )  
5. 러 <sup>러</sup> ( )  
Blue arrows point from the numbered boxes to a central mobile phone icon. The phone screen displays the word "Any" and a battery icon. To the right of the phone are three more icons: 4. 그 <sup>그</sup>, 5. 러 <sup>러</sup>, and 6. 익 <sup>익</sup>. Blue arrows also point from these icons to the right side of the diagram, where the characters "가" and "가" are written.

The diagram illustrates the process of entering the Korean character '가' (Ga) using a mobile phone's keyboard. It shows four sequential screens:

- Screen 1:** Shows a yellow box containing a telephone icon and a '6' icon. The screen displays the character '가' at position 1.
- Screen 2:** Shows the character '가' at position 1, with a small red dot above it, indicating it is selected. The screen also shows positions 2 and 3 below.
- Screen 3:** Shows the character '가' at position 1, with a small red dot above it. Below the character, there are boxes for 'A' and 'a'. Positions 2 and 3 are also indicated.
- Screen 4:** Shows the character '가' at position 1, with a small red dot above it. The screen is mostly blank, with only a few small marks visible.

Below the fourth screen, a red speech bubble contains the text '종료 ①' (End ①).

The diagram illustrates a process flow:

- A pink circle containing a mobile phone icon with signal waves is connected by a blue arrow to a mobile phone screen.
- The mobile phone screen displays a world map, the text "map", and the date "05 09 11 30".
- A blue arrow points from the phone screen to a yellow rectangular box containing three icons: a map, a "3G" signal, and a "6G" signal.
- From the yellow box, a blue arrow points down to a white dial pad.
- The dial pad has a blue header bar with the number "39". Below the header, there are two columns of seven dots each, with a dot in the center of the second column of the first row labeled "LA".

The image shows a sequence of four smartphone screens illustrating a calculation process:

- Screen 1:** Shows three icons in a yellow box: a calculator, a file folder, and a document. A blue arrow points to the right.
- Screen 2:** Displays a calculator application. The screen shows a numeric keypad with digits 1 through 5, a decimal point, and a division sign. Above the keypad are buttons for clear, percentage, and multiplication. A blue arrow points to the right.
- Screen 3:** Shows the result of the division:  $30.48 \div 12 = 2.54$ . A blue arrow points to the right.
- Screen 4:** Shows the result of the division again:  $30.48 \div 12 = 2.54$ . A red eraser icon is at the bottom right, indicating the result can be cleared.

magic (113)

The diagram illustrates the evolution of a mobile application interface. It starts with a simplified screen labeled "magic" containing icons for a smartphone and a laptop, along with a small yellow square and a green "magic" logo. An orange arrow points to a more detailed screen showing a web browser with the URL "www.magicn.com". A second orange arrow points to a final, highly detailed screen that includes the same browser content but also lists "URL" and "EBS" under the "magic" header. To the right of the final screen is a red notepad icon with the Korean character "질문" (Question).
