CONTENTS

FUNCTIONS

ON / OFF & RECHARGEABLE BATTERY

To turn the Keypad on or off, move the switch on the top of the device to the "on" position (the switch will display a green label).

The Keypad is equipped with a rechargeable battery. Plug the included charging cable into the Keypads' Micro USB port, then plug the other end of the cable into a computer or USB wall adapter to charge.

PAIRING MODE

To put the Keypad in Pairing Mode, press and hold the "Conn." button on the back of the Keypad for ~2 seconds, then release. The indicator will blink blue.

PAIRING: WINDOWS

First, put the Keypad in Pairing Mode. Then, on your Windows device, go to your device settings.

Select "Devices" in the settings menu, then select "Bluetooth" from the sidebar.

Make sure Bluetooth is turned on. Find "ST-ALKP" in the list, then click to pair.

PAIRING: MAC

First, put the Keypad in Pairing Mode. Then, on your Mac, open your System Preferences.

Select "Bluetooth," and ensure Bluetooth is turned on.

Find "ST-ALKP" in the list, then click to pair.

PAIRING: iOS

First, put the Keypad in Pairing Mode. Then, on your iOS device, open Settings.

Select "Bluetooth," and ensure Bluetooth is turned on.

Find "ST-ALKP" in the list, then click to pair.

RECHARGEABLE BATTERY

HOW TO CHARGE:

Plug the included charging cable into the Keypad's Micro USB port, then plug the other end of the cable into a computer or USB wall adapter.

BATTERY LIFE:

The Keypad's rechargeable battery will last 2-3 weeks with moderate use (2hrs typing per day).

SLEEP MODE:

When the Keypad is powered on but not in use for one hour, it will enter a battery-saving sleep mode. Press any button on the Keypad to wake.

CHARGE TIME:

The Keypad takes ~2.5hrs to reach a complete charge.

USE WHILE CHARGING:

While the Keypad cannot be used by plugging directly into your computer, it can be used wirelessly while charging.

LED INDICATOR

FAST BLINKING (BLUE):

The Keypad is in pairing mode.

SLOW BLINKING (BLUE):

The Keypad is low on battery.

SOLID LIGHT (RED):

The Keypad is charging.

FAQ

KEYPAD IS NOT OPERATING:

- Please check or attempt the following:
1. Press a key on the Keypad to attempt to wake from sleep mode.
 2. Ensure the Keypad is turned on.
 3. Charge the Keypad's battery.
 4. Re-pair the Keypad to your computer.

This device complies with part 15 of the FCC results. Operation is subject to the following two conditions:
1. This device may not cause harmful interference and
2. This device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses and can radiate radio frequency energy and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- 1.1. Reorient or relocate the receiving antenna
- 1.2. Increase the separation between the equipment and receiver
- 1.3. Connect the equipment into an outlet on a circuit different from that to which the received is connected
- 1.4. Consult the dealer or an experience radio/TV technician for help

Changes or modifications not expressly approved by the manufacturer could void the user's authority operate the equipment.
