Note: Please charge the battery before using until the red LED turn off.

**FC FCC**

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions:  
1. This device must not cause harmful interference and  
2. This device must accept any interference received, including interference that may cause undesired operation.

Note: This Equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the Federal Communications Commission (FCC) Rules. These limits are designed to provide reasonable protection against harmful interference in a residential environment. This equipment generates, uses, and can radiate radio frequency energy and, if not properly installed and used, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:  
1.1. Reorient or relocate the receiving antenna.  
1.2. Increase the separation between the equipment and receiver.  
1.3. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.  
1.4. Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**CE DECLARATION OF CONFORMITY**

Satechi declares that this product is in compliance with the essential requirements and other relevant provisions of applicable EU Directives. For Europe, a copy of the Declaration of Conformity for this product may be obtained by visiting [www.satechi.com](http://www.satechi.com)
