Re: RF Module Model Number SEL-LG-SBR

User Manual Statements

The product listed below is not marketed to a consumer or sold as a single component. There is no user manual or advertising literature. Schweitzer Engineering Laboratories, Inc., will install all modules manufactured.

Furthermore, Schweitzer Engineering Laboratories, Inc., understands that all products with this unit installed will contain the following information on the label:

Contains
FCC ID: R34SEL-LG-SBR
IC: 4468A-SELLGSBR

“This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: 91) This device may not cause harmful interference, and (2) this device must accept any interference received , including interference that may cause undesired operation.”

Where a device label is too small for the above statements, any excluded text will appear in a user manual for the product with this module installed.

The user manuals for the products with this module installed will also have statements cautioning the user that changes or modifications not expressly approved by Schweitzer Engineering laboratories, Inc., could void the user’s authority to operate the equipment.

Lastly, the applicable RF Exposure Statement for Mobile Devices will also be included in the manual. This module will be used in devices that maintain a 20cm distance between the radiator and a human body.
