Digital Camera
(DXC-2200)

Sejin Electron Inc.

FCC NOTICE

THIS DEVICE COMPLIES WITH PART 15 OF THE FCC FULES.
OPERATION IS SUBJECT TO THE FOLLOWING TWO CONDITION:
(1) THIS DEVICE MAY NOT CAUSE HARMFUL INTERFERENCE, AND
(2) THIS DEVICE MUST ACCEPT ANY INTERFERENCE RECEIVED,
INCLUDING INTERFERENCE THAT MAY CAUSE UNDERSIRED
OPERATION.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio
communication. However, there is no guarantee that interference will not occur in a
particular installation. If this equipment does cause harmful interference to radio or
television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures :

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit difference from that to which
   the receiver is connected.

- Consult the dealer of an experienced radio/TV technician for help.

NOTE : The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.

Troubleshooting

Trouble	Troubleshooting
Troubleshooting USB Connectivity	▶ Check the USB cable is securely plugged into USB port of Camera and PC. ▶ First, disconnet the USB cable,Remove the "BGB Software" from "Add/Remove Program" in the control pannel and connect the USB cable after the reinstalling the "BGB software". ▶ If you have been using another USB camera , another device maybe conflicting with USB port. In the case, you must remove "USB Serial bus controller" in the device manager. After clicking refresh button, reinstall the "BGB software"
TroubleSbooting bad image or image transfer	▶ Change the battery with new one to delete the memory and re-boot.
Troubleshooting image Capture	▶ Check the remaining of battery , if the voltage of battery is too low , camera doesn't work to protect the data of memory. If the battery-warning icon is displayed on LCD pannel of camera, change the battery immediately. ※ If you don't change the battery immediately after displaying the battery icon, the data of memory can be damaged or deleted.
Troubleshooting Mail Function	▶ Check the address of the mail server. If you don't know address of mail server , contact your manager of mail server.
