

IQD-GBA Alliance-mini Dome Electrical Gang Box Adapter

Installation Instructions

This Quick Install Guide covers the IQD-GBA Flush Ceiling mount for the Alliance-mini camera domes. Be sure to go to our website www.vicon-security.com to assure you have the most current documentation.

1 Service

If the unit needs repair service or parts, the customer should contact Vicon Industries for authorization to return, as well as shipping instructions.

2 Unpacking

The IQD-GBA Alliance-mini Electrical Gang Box Adapter assembly should include the following:

1. Electrical Gang Box Adapter
2. Pack of (4) machine screws
 - (2) Flat Head machine screws
 - (2) Pan Head machine screws

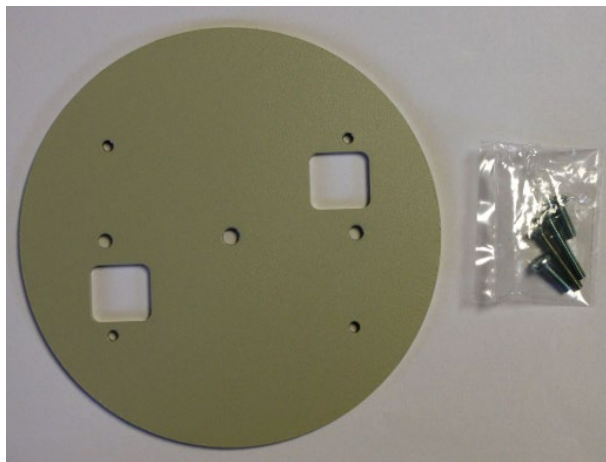

Figure 1

3 Installation

1. Route the Ethernet cable through the opening in the Electrical Gang Box Adapter, and attach the adapter as shown in Figure 2 using the two supplied Flat Head machine screws.

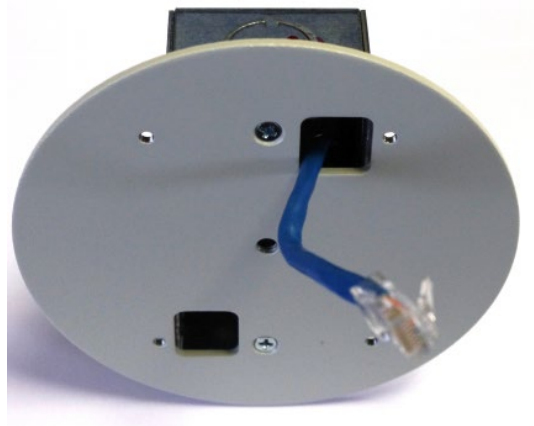

Figure 2

2. Route the Ethernet cable through the cable pass through in the camera base plate. Attach the Alliance-mini camera to the adapter as shown Figure 3 with the two Pan Head machine screws.

Figure 3

3. After the field-of-view and focus are completed, attach the dome cover and tighten the dome cover to the camera base using the supplied Torx T-10 security wrench supplied with the Alliance-mini dome camera.
