Standard Console (SRG)

Switch On	Press the Mode Key.
Switch Off	Press & Hold the Mode Key.
Volume Adjust	Rotate the Navi-knob™ or press + and – Navi-keys.
Emergency Call	Press and hold the Emergency Key.
Change Talkgroup	Press the Mode Key once, and then rotate the Navi-knob™ or use the Navi-keys to choose from the list of talkgroups in the current folder, or dial the number of the talkgroup using the keypad. Wait or press the PTT to activate the new talkgroup.
Change Folder	Press the Mode Key once, and then use the Up and Down Navigation Keys to select a talkgroup folder. Then change the talkgroup as explained above.
Talkgroup Call	Press the PTT.
Radio Call to Individual	Dial the radio number and select (using Up/Down Navigation Keys), then press PTT to start the call.
Telephone Call	Dial the required number and select (using Up/Down Navigation Keys), and then press the Green Telephone Key to start the call. To end the call press the Red Telephone Key.
Send Status	Press the Mode Button twice and then rotate the Navi-knob™ or press the Navi-keys to select a status value. Press PTT twice to send to the currently active talkgroup. These messages can also be accessed from the menu structure.

Menu Access

From the default screen:
- Press the Down Navigation Key once to see the menus available;
- Press the Left or Right Navigation Key to move across and select the menus;

- Press the Down Navigation Key to enter menu;
- Press the Left or Right Navigation Key to move across the cards within the menu.

Press and hold the Up Navigation Key to exit the menus and return to the default screen. Alternatively, do nothing and the default screen will reappear after a timeout.

Activating Menu Options

Some menu cards allow you to alter settings within the radio by checking or unchecking a checkbox. Press the Green Telephone Key to activate a function and 'check' its checkbox. Press the Red Telephone Key to deactivate a function and 'uncheck' its checkbox. In the Network Selection Menu only one Network can be activated, so the previous network is deactivated automatically.

Entering Text

Within menu cards that allow text entry, e.g. to send message;
- Press and hold the Down Navigation Key to start editing;
- Enter or edit your text as required from the keypad;
- Press the Green Telephone Key to action your changes or the Red Telephone Key to exit.

Activating Soft key Functions
Press and hold the required soft key.
(A list of soft key functions may be displayed on the Help key if programmed.)
Some soft keys are a "toggle" function, requiring no further action. Some are navigation keys requiring a second action.
